A coldred woman who jumped from an express train running north at a good rate of speed Friday morning struck the newly laid concrete rather hard and received some painful bruises. Dr. Jacobs was at the depot at the time and went to the woman who was apparently dead, but she soon roused up and enquired for her hat. She had gotten on the train at Lanes, unnoticed by the train crew.

In spite of much unfavorable weather work on Kingstree streets is progressing rapidly. Monday was fair, warm and pleasant but since that time it has been cool, and cloudy with copious rains yesterday afternoon and last night. A special notice was sent out by the Meteorologists office at Charleston yesterday predicting a cold wave and stated that the temperature would fall thirty degrees or more within next thirty-six hours. It is much cooler here to day but as yet the fall in temperature has not been so great.
