The Sumter Watchman was founded in 1850 and the True Southron in 1866. The Watchman and Southron now has the combined circulation and influence of both of the old papers, and is manifestly the best advertising medium in Samter.

Amendments to the Constitution.

At the general election in November the voters of the State will decide upon the adoption of the proposed amendments to the Constitution of the State. We gize the following synopsis of the Joint Resolutions respecting the same, in order that our readers, being acquain- proper one. This will enable us to ted with their nature, may cast an intelligent ballot :

1. Joint resolution to amend Section 8, Article 8, of the Constitution, respecting the Disgualification of Electors.

It is proposed that Sec. 8, Art 8, be amended by inserting therein after the word "murder" the following words: Burglary, Larceny, Perjury, Forgery or other infamous crime, so that the Section when amended shall read as follows: The General Assembly shall burglary, larceny, perjury: forgery, or whereof the persons shall have been duly tried and convicted. Those in favor of the amendment shall deposit a ballot with the following words printed or written thereon : "Constitutional The foregoing Joint Resolution was adopted at the regular Session, Feb. S, and approved Feb. 9, 1882.

2. Joint Resolution proposing an amendment to Sec. 11, Art. 2, of the Constitution, relating to the time of holding elections.

The provision of this Resolution is to Election for Senators and Representatives shall be held in every second year,

The other amendment which proposes to give the Legislature the power of making a great many new counties in the State is decidedly objectionable. The expense of building new court houses, and jails, having an additional 20 TWENTY PERFORMERS. 20 number of clerks and sheriffs, an additional number of juries, solicitors, constables, judges and other public officers, will amount to thousands and hundreds of never pass any law that will deprive any thousands of dollars and increase the taxes of the citizens of this State of the right enormously. 3. Joint resolution proposing an alteration and amendment to Sec. 3, Art. the Tennessee Conference of the Metho- C. W. STANCIL. 2, of the Constitution, relating to the dist Episcopal Church and did pastoral forming of new Counties.

It is proposed to alter and amend the present law forbidding the formation of new Counties of less than six hundred and twenty-five square miles, so that a new County may be formed containing an area of only four hundred square miles, and a population of the one-hundred-and-twenty-fourth part of the Episcopal Church in the United States whole number of inhabitants of the State. Those favoring the formation of part in the Louisville Convention of Stables. new Counties will vote Yes Those opposed, No.

vides that if a majority of the qualified votors of the State vote in favor of any amendment so proposed, and two-thirds of each branch of the General Assembly shall, after such election, and before another, ratify the said amendment by part of the Constitution.

The amendments relating to the "disqualification of voters," and the "time of holding elections," seem to meet with general approval on all sides, the advana tage derived from their adoption being "the formation of new counties" has created a division of opinion among the newspapers of the State. The advocates of the proposed change urge that the formation of new counties in the Democratic portion of the State will enable the party to hold the Senate for years to come; the building of other courthouses will increase the property of the State and create new centres of business ; will lessen the inconvenience and expense of those having business with public officials or in the courts, by shortening the distance to the county site. The arguments of the opposition are mainly objections to the expense which is likely to be incurred where a new county is formed, and the possibility of

larger in the Southern part to gain tion. representation in the Senate.

The political results in the case we propose to ignore. If any advantage is derived by the. Demecracy from the adoption or rejection of the measure it President of the Western Union Com-

dated May 25th, 1882, I will offer for sile CLOTHING DEPARTMENT,

Ten Reasons why the "KNOCKABOUT" is the best Suit now in the market for Boys' wear.

I .-- Because the "KNOCKABOUTS" are made from double warp and double-and-twist, untearable and wear-resisting fabrics.

- II .- Because the "KNOCKABOUTS" are trimmed in the most substantial manner, none but indestructible materials in thread, linings, buttons, &c., being used in their
- III .- Because the "KNOCKABOUT" Pants are made with our Patented "Cavalry Knee," thereby insuring the greatest durability.
 - IV .- Because the "KNOCKABOUT" fabric being a light color is not objectionable, as many suppose, for it is in reality a neutral shade which will not soil easily, and will not show the dust.
- V .-- Because the "KNOCKABOUT" as its name implies, is a neat, serviceable outfit, and is well calculated to stand any amount of rough usage.
- VI .- Because the "KNOCKABOUT" is produced solely to supply a want of an hones wearing, substantially made BOY'S SUIT at the low price of \$5.00. VII .- Because the "KNOCKABOUT" has proved an inestimable blessing to every Father
- who has to buy, and every Mother who has to mend, the clothing of the irrepressibl boy of the period
- VIII-Because of the above given reasons the "KNOCKABOUT" Suits commend themselves to the taste, judgment and pocket of those to whom the amount of money expended during the year for Boys' Clothing is no inconsiderable item.
- IX .-- Because, since "nothing succeeds like success," the great success of the "KNOCKA-BOUT" thus far proves it to be just the Suit that was needed for Boys' wear.
- X .- Because knock-about as much as you will, nothing will be found to knock the Manufacturers, and are guaranteed as "KNOCKABOUT" Suit that is manufactured for to style, quality and price.
