Kind Words.

We have received many kind words of approval lately in reference to our paper but one have given us as much pleasure as the commendations of our article on "Another Improvement." The following resolution was forwarded to us by Providence Lodge, A. White & Son-Accident and Fidelity for which we return thanks :

Republican County Convention.

The Grand Old Party had a gathering of ts mighty men last Saturday. Ever since Sam Lee left Sumter the Republican sheep have been wandering around with no shepherd to keep them from straying in forbidden paths where Democratic wolves might perchance devour them; and this Convention on Saturday was for the purpose of putting a head to the machine, so as to have it in good trim for the campaign.

We stated some weeks ago that there were large number of candidates for the position of County Chairman, but the canvass had narrowed down to a fight between M. F. Hewson and J. B. Johnston. Mr. Hewson had the advantage, bowever, inasmuch as the mantle of the immortal Sam Lee had fallen upon him, and as acting County Chairman he organized the Convention. There were a number of contesting delegations from the various precincts, but the Hewson men had the bit between their teeth and carried things their own way with a rush and hurrah.

It was a lively meeting. The scenes of the previous evening were re-enacted with variations, and the spectators were filled with wonder at the resources of the Republicans in finding out new methods of entertainment for the audience. One of the side-shows was exhibited when half-dozen or more orators were standing on the table, each and every one gesticulating wildly and making terrific efforts to be heard. In the midst of their flights of eloquence several other statesmen jerked the legs of the table from underneath and the speakers lay sprawling upon the unfortunate darkies for balls, and nothing

The primary object of this Association is to enable every member to become practically his own Landlord concern for a few years but little, if any, more than would otherwise have been expended for rent. 1. The Association is a mutual

benefit and Stock Company. 2. Each share of stock is One Dollar a month, paid in monthly, during the term of the Company's existence. The number of shares is not less than

3. The entire amount paid in each

month is put up at the monthly meetings of the Stockholders and loaned to the highest bidder or bidders among them at a premium. This premium is deducted from the gross amount bid for, and the member bidding receives the balance; and is required to secure the Association for the advance by a mortgage on real estate equal in value to the net sum received-or by bond and undoubted collaterals, as may be approved by the President and Board

of Directors. 4. Each Stockholder is allowed to bid for (\$200) Two Hundred Dollars on each share he holds, and after he has borrowed, pays, in addition to his and the Chautauqua Readings for the month regular monthly dues of One Dollar are excellent especially the "Little Biograper share, six per cent. per annum on the gross amount for which he bids. This interest is paid in monthly with the regular installments, and will be found in every instance to be equal in amount to the monthly dues on the shares borrowed on.

5. The Association winds up when it is able to divide Two Hundred Dollars to each share of stock. At this final division the Stockholder who has secured an advance is debited in his account with the association with the premium. Thus, if owning ten (10) shares, he has bid for (\$2,000) Two New York, Thousand Dollars at a premium of forty, he receives Twelve Hundred Dollars at the time he bids, and this in the winding up is accounted a full settlement of his interest in the Asso-

A WITNESS WHO CANNOT BE IMPEACHED. I have made a chemical examination and analysis of samples of baking pow-

der taken from unbroken original packages of "Dr. Price's Cream Baking Powder" and of the "Royal Baking Powder," with the following results: I find that "Dr. Price's Cream Baking Powder" consists of the purest and best materials; that these materials are so proportioned as to produce the best results; and that the strength of this preparation, as determined both practically Paul Dozier and Ned Williams acknowledge the error and advantage, but at by use and as based upon the amount of carbonic acid gas produced by it, is such

> substance of an objectionable character. I find that the "Royal Baking Powder," while yielding a large amount of tion another error that was made in the 7th | carbonic acid gas, (though slightly less than Dr. Price's,) contains a preparation inning which gave Providence an advantage of ammonia, which I regard as a disgusting and objectional constituent in a of six runs, two men being put out at the buking powder-a drug which ought never to be introduced into the composition

> My experiments do not confirm the extravagant claims made in the published advertisements of the "Royal Baking Powder" as to its alleged superiority and greater strength, as shown by the amount of carbonic acid gas which it is caught between bases, that, it is necessary capable of vielding when in use. I have found, by experiment, that the volume

superior to the "Royal Baking Powder," because,

2. Its capacity for raising bread (or gas producing power) is greater than the "Royal," both by practical test in baking and by the determination of the carbonic acid gas. Respectfully. which stands as follows, Game Cocks 38,
