

The Sumter Watchman was founded in 1850 and the True Southron in 1859. The Watchman and Southron now has the combined circulation and influence of both of the old papers, and consequently the best advertising medium in Sumter.

EDITORIAL ITEMS.

France has held elections for members of the assembly and the results have been startling. The Republicans have lost about 90 members, and the present ministry will probably resign. France is a Republic, but no one knows how long she will remain one.

Dr. Woodrow and evolution and kindred notions are again becoming popular. The News and Courier has published a number of more or less able articles on the above subjects quite lately, and Dr. Girardeau, Dr. Mack and others are ventilating their opinions to the reading public.

Revolution continues to keep up her old-fashioned rattle. We thought last year that the Spaniards who tried to subvert the Republic who prescribed for the children-struck people had reached the same of stupidity, but the French saboteurs of Montreal are worse if that is possible.

The situation in Turkey is still threatening. Sorria is rapidly organizing her army, and the "Sick Man" will, if not sustained by the Great Powers, be much sicker before Christmas. The sooner the Sultan is made to cross the Hellespont, and take up his quarters in Asia, the better it will be for civilization and progress.

Last year, when Harper's Weekly was doing such effective work for Cleveland, we found its columns most interesting reading but now that it has gone over to the enemy and is pouring hot lead into the Democratic camp, we don't for the life of us, get interested in its political articles. It makes a great difference whose or is gored.

Reverend Ward, the so-called Naamance, who has been in jail and Ward crash of last year, in a column interview Herald. He professes the least of the financial and shows he was the work. The daily

What a Governor should be. This is not only wrong but it is intensely stupid. No one changes his vote because some political party accuses his candidate of being a thief. With the exception of the past before him, he just thinks the papers are lying.

WHY IS THIS.

It is said that Sumter has no ordinance against liquor selling on Sunday, and that the police as a consequence, have no instructions to arrest violators of the law in this matter. It is somewhat surprising that our progressive, wide-awake Council should have neglected this important duty; for we assume that it is their duty under the provisions of the charter, to endeavor to enforce the State laws in their jurisdiction.

Let us have the ordinance, and positive instructions to the police to enforce it. The town treasury will be the gainer if nothing else.

Since writing the above, we visited the Council Chamber to ascertain if we were correct in saying there was no ordinance against Sunday selling, and while there, read one which was brought before the Council some weeks ago, and which we believe is still before that body. We cordially endorse every measure in it, and think the Council owe it to themselves and the town to adopt it. A young man spent last Sunday night in the Guard House simply because some bar keeper in Sumter violated the law by selling on Sunday. Three men were seen straggling along the sidewalk of Main-street last Sunday, all made drunk by a law-breaking bar keeper. Now is it not the duty of the Council to check these crimes? Why should one class of men be held amenable to the law, and punished for its violation, while another class can override it with impunity?

We all remember the disgraceful condition of affairs two years ago, when the town nominally dry was deluged with whiskey, and how the majority of the Council with eyes resolutely shut to the daily violations of law, showed their sympathy with and for the law-breakers. We hope and expect never again to witness so flagrant a disregard of duty by a Sumter Council, and respectfully ask the gentlemen who are now so successfully administering our municipal affairs to pass in its entirety the ordinance now pending before them, forbidding the sale of whiskey on Sunday.

THE SUMTER PARK AND AGRI-CULTURAL ASSOCIATION.

The above organization. We fear that the Directors have lost heart in the undertaking and that but little effort will be made to revive its dormant faculties. We regret this. We believe that a well conducted Association for the purpose of holding each year an exhibit of farm and domestic products would be pleasant and profitable. The healthy competition which such exhibits ought to excite would of itself be of great value to farmers, and we cannot understand why the thoroughgoing, progressive farmers of Sumter County should be willing to dispense with so prominent an adjunct to successful planting.

We see no especial importance in having a race track attached to the Fair grounds, for Sumter County does not raise racing stock (and we might add by way of parenthesis, that the greatest item of expense in connection with the Fair grounds of the Sumter Association was the race track), and the races of imported stock are of no importance to farmers as such, but a well-conducted Fair, in which the farms, the gardens, the orchards, the barn and poultry yard, and of course woman's domain could be fairly represented would be of great benefit.

The S. P. & A. has never taken hold of the popular heart of this County; why, we can not say. It has at its head a thoroughly practical planter, and one too who has had much experience in Fairs, but it has failed all the same. And now the question is will the farmers attempt to resuscitate it or build another on its ruins; or, will they let the failure of the past check their efforts for the future. We hope not, we believe not. There are no more practical, successful farmers in the State than Sumter has, and we can think of a dozen men in any two Townships in the County who could, if they made an earnest effort, have a thriving County organization for the purpose of giving each year an exhibition of what our farmers and their wives and daughters are doing. It could be done without the adventitious aid of black-legs, gambling dens or drinking booths, and we think the planting interests of Sumter County demand it.

It is too late to arrange for an exhibit this year. We can have one next year if we will.

PERSECUTION (P)

The temperance committee are prosecuting two inoffensive negroes for selling whiskey here, in violation of the special law "drying" this county. Williston correspondent News and Courier.

To use a slang phrase, the above "takes the cake." Two inoffensive negroes for selling whiskey in violation of law. They are certainly objects of sympathy. We suppose Sumter County has a half dozen of the same inoffensive variety, engaged in the same inoffensive work, and we live in hope of their wearing striped pants in the chain gang yet.

To make children healthy use plenty of air, plenty of milk, plenty of sleep, and always have a bottle of Dr. Bull's Cough Syrup in case of croup.

Clarendon News.

A favorite amusement with Manning boys consists in tying a partly filled bag of peas to a dog's tail and seeing him run. The Town Council is renovating the Court House Square. More trees are needed in the Burnt District.

The Clarendon Agricultural Society met last week, and adopted their Constitution. Mr. Jas. E. Tindal made an instructive address showing the many advantages to be derived from agricultural organizations. A colored man named Gadsden Robinson living in the Salem portion of Clarendon County, was ku-kluxed last week by a mixed party of whites and blacks. Robinson was severely beaten. This is Robinson's second experience with the ku-klux. A woman was at the bottom of the row.

At a meeting of the citizens of Sumterton, Clarendon County, on October 2, a resolution was offered and unanimously adopted that a vigilance committee be appointed, whose duty it shall be to take such steps as may be deemed necessary to suppress the illicit traffic in spirituous liquors and seed cotton in the community. The following is the committee: J. D. Rutledge, E. R. Riehnburg, M. S. Caney, D. R. Oberlin, J. G. Wells, J. H. McCullum, W. M. Wells, J. O. Brock, H. B. Tindal, J. H. Dingle, J. C. Ingram, John C. Lanham.

Darlington News.

Mrs. Finkles, a lady 75 years old, fell from a piazza at the residence of Mrs. T. W. Jones, last week, and broke her thigh. She is recovering. H. B. Brauns and A. T. Vernon tried to carve each other Sunday, 4th instant, in Florence. Vernon was cut in six places.

B. O. Townsend, Esq., and T. W. Norment had a difficulty in Florence some days ago, in which Townsend shot at Norment but missed him. The fracas has been much commented on.

Maj. B. D. Tewnsend, President of the Cheraw and Darlington Railroad, died at his home at Society Hill on Tuesday night last. Out of respect to his memory, the trains on that road are draped in mourning. Florence Times.

School Teachers.

Mr. Editor: With due deference to our school officials, and with your permission I would like to present a few ideas as regards the teachers of our "common schools." Some persons think that efficiency would be gained by employing male teachers, but my observation and experience have convinced me that a lady, gifted with a reasonable degree of talent and education, is far preferable, even in a mixed school of boys and girls. Of course if brute force is the one thing needed, a man would fill the bill better than a woman, but the education we need for our sons and daughters cannot be flogged into them. The schools need teachers who will inculcate by precept and example the training needed for mind and body both for this life and the life beyond.

A brief note by my own experience while a mite of a boy may not be out of place. I was sent to different teachers - to some, one month, to others a little longer - and possibly learned something from, or rather by, each one. At the age of six I sat on the regulation school bench with feet swinging in the air and saw my teacher sitting atop in his chair, the effects, possibly, of the warm weather, but more probably the result of a "beetle" too much hard cider, and with tobacco juice coursing down the furrows from each corner of his mouth. Of course I got into mischief and among other things wrote in another's copy book without being observed by any one. The book was shown to the master when he finished his nap, and he commenced at the head of the class, "Was it you?" "Was it you?" "Was it you?" and I answered as did the others, "No - the only white falsehood of my life, as far as I can remember. My next teacher taught me how a switch made one feel (my first and last experience in that line). My third was a gentleman whom a critic on muscular power would term effeminate. He had no use for a switch or ferule, and had but one little trouble with his scholars. I am glad to be able to say that this "womanish" gentleman raised up sons with whom his father's impress, and of whom the County of Sumter has just cause to be proud. My fourth teacher was a lady, a city lady; and we boys received from her some ideas of what a true gentleman should be, which we have never forgotten. My fifth and last was a concealed ignoramus of a man.

Yes, I would emphasize my honest convictions. Give us women for teachers, not because they must need the work, but because they can best do it. With such teachers, devoted mothers and faithful ministers we need entertain no fears for the peace and prosperity of our commonwealth. EXTRACT.

Our Exchanges.

The Abbeville Press and Banner intends enlarging its sheet during the month of November. It is already one of the largest as it is one of the best papers in the State.

The first number of the Press and Reporter, a new paper from Prosperity, S. C., is on hand. It has substantial backing as it will be printed from new type and on a Campbell power press.

Peterson's Magazine for November is on our table - ahead, as usual, of all the other lady's books. It has a charming steel-plate, "A Feather in Her Cap," a mammoth colored fashion-plate, some fifty other illustrations, and several original stories of unusual power, written by Mrs. A. S. Stephens, Frank Lee Buedict, etc. How the publisher can afford to keep improving the magazine, as he does, is a standing wonder. With this number appears the Prospectus for next year. It promises even better things, and "Peterson" always keeps his promises. There will be over 1,200 printed pages, 14 steel-engravings, 12 mammoth colored steel fashion-plates, from 800 to 900 wood-cuts six copyright novelties, one hundred sundry original stories, etc. In short, the magazine will continue to be, as heretofore, the cheapest and best for ladies. The terms are only two dollars a year. To clubs, it is cheaper still, viz: four copies for six dollars and a half, with an extra copy to the person getting up the club. Six copies for eight dollars, with both an extra copy and a "Forget-Me-Not," a beautifully illustrated album, or a large steel-engraving, "The Angel of Paradise." Everybody should take this magazine. Now is the time to subscribe. Address: Charles J. Peterson, 209 Chestnut Street, Philadelphia, Pa. Specimens are sent, gratis, if written for, to get up clubs with.

The Cotton Mill at Sumter.

A gentleman of this city, who has just returned from a visit to Sumter, says that the cotton factory at that place is working night and day, and that it is "making money hand over fist." Twelve new buildings are being erected for the accommodation of the operatives employed in the mill, and all the indications point to a prosperous year for one of the best equipped mills in the State. From a Sense of Duty.

Some people shrink from making public the benefit they have received, while others are free to tell it abroad for the good of fellow mortals. Of the latter kind is Mr. J. H. Coppuck, of Mount Holly, N. J., who writes, "I am one of many who give their cheerful appreciation of the merits of the efficacy of your valuable Brown's Iron Bitters, from a sense of duty. This bitters is doing much good in our country, for which I can vouch."

THE NEW DEAL.

OFFICE OF DUCKER & BULTMAN, DEALERS IN General Merchandise, SUMTER, S. C.

To the People of Sumter Town and County:

DEAR FRIENDS—For the past six years each and every one of you have no doubt heard of the Business House owned and conducted by DUCKER & BULTMAN.

We now come before you again, and have no hesitation in saying that at least two-thirds of the inhabitants of this 'Game Cock' County have had some business transaction, be it ever so small, or be it large, with the above named firm, during those three years. Again, for the last three months all the newspapers in this State have been writing about "The New Deal" which is likely to take place in our political affairs, and we say, right, they are, to advocate it, provided sufficient reasons can be given that our present representatives have not managed our affairs in the right and proper manner.

Let this be as it may, we have neither time nor space to dwell upon political affairs at present. Should you desire a change you can assert your rights when election time comes. Not only have the people a right to change their representatives in the legislative halls, but they also have a right to change the places where they have been trading in past years, when they find that the man with whom they have been trading is imposing upon them by charging high prices for inferior goods; and at this very time when the so-called "King" Cotton is low in price, it is every one's duty to get full value for his hard-earned dollar.

Proud, yes highly delighted, are we, to inform you at this time when everybody is advocating a "New Deal," not one of our friends and customers has yet said in our hearing, "I am tired trading at DUCKER & BULTMAN'S. I want a new deal and a change. To the contrary, we can safely tell you our business is increasing day after day, and whilst times are hard we are now, as well as in the past, ready and willing to sell all of our goods in accordance with the low price of cotton.

We have made it a rule, and hope every one in Sumter County will do likewise, Never Advance Backward, but always go forward, and let the past take care of itself. For instance, if a merchant buys a stock of goods and keeps them in store say thirty days, it is in our opinion a very poor idea to sell his customers that he has, in order to sell his stock, advanced prices backward, because it only shows that the stock was marked too high at first.

We never, or hardly ever, sell at cost, for we never mark our goods more than will pay us for handling them, and unless we have a lot of old goods, you will never, we hope, hear us cry "Advance Backward." We are willing to sell you goods with small margins above cost, and thus we are always able to offer New Goods at New Prices, and hence no need to Advance Backward, because the people buy our goods fast enough to avoid having old stock.

We have recently enlarged Store, and don't you forget, our Stock has also been increased, and we have a good force of polite and attentive Clerks, and adding to this our low prices and good quality of Goods, we don't hesitate to say but what you will continue to patronize us in future as well as you have in the past.

To those who have never traded with us, we would say—Give us a trial when you are ready to buy, and also when you are ready to sell your Cotton, for we are in position to pay the highest prices, according to market, and we GUARANTEE FAIR DEALING.

Well, remember that we carry the BEST LINE OF Fancy Groceries and Confectioneries IN THIS TOWN, and we also carry a good stock of DOMESTIC DRY GOODS, Shoes, Hats and Clothing, and we have just opened a case of PRINTS which we will sell you at 4 cents per yard, and a case of STANDARD PRINTS which we will sell you

5 CENTS. These are Choice Goods, and are worth 6 to 8 cents. These are REAL BARGAINS, and you should not fail to secure some of them. More next time. Respectfully, DUCKER & BULTMAN.

Tisdale."

Terms of Sale—Cash—unless the property shall sell for more than sufficient to pay the costs of this action and the amount by the Master reported as due to the plaintiff, with interest thereon from the date of the Master's report, and in case a greater amount should be realized at such sale then, and in that case, for so much cash as will pay the costs of this action and the amount due to the plaintiff as aforesaid, and the balance in two equal annual installments, with the interest thereon from the date of sale, secured by the bond of the purchaser, and a mortgage of the premises sold. The purchaser to have the option to pay his entire bid in cash. The purchaser to pay for necessary papers and for recording mortgages. JOHN S. RICHARDSON, Master. Oct. 6, 1885.

MASTER'S SALE. State of South Carolina, SUMTER COUNTY.

IN THE COURT OF COMMON PLEAS. Wm. D. Blanding, Administrator with the Will annexed, of the Estate of Martha L. Brown, deceased, which were not administered on by Amer W. Brown, deceased, Plaintiff, against, Henrietta M. Pringle, Defendant. BY VIRTUE OF a decretal order made in the above entitled cause, and dated February 20th, 1885, I will sell at public auction in front of the Court House in the Town of Sumter, in said State, on Monday, November 2d, 1885, (or day following), between the hours of 11 o'clock in the forenoon and 5 o'clock in the afternoon, the following premises:

"All that certain piece, parcel or tract of land situate lying and being in the County and State aforesaid, containing five hundred acres, more or less, which is bounded on the North and West by lands which have been assigned and set off as a homestead to the said John Pringle, on the South by the land of the Estate of Jonathan Weston, and of Josiah G. Fort, and on the East by the main except that part of the said mortgaged premises, containing seventy-eight and one-half acres, referred to in the answer of the Defendant herein, as having been conveyed by the said Henrietta M. Pringle to William J. Pringle, on the 13th day of June, 1883, by deed of that date, with the trusts and to the uses set forth in said deed, (which is recorded in the office of the Register of Meigs Conveyances for Sumter County, in Book Y, commencing at page 687,) the lien of which mortgage upon which parcel of land was released by the said Martha L. Brown, and which parcel of land is therefore excepted from
