#### Delightful Entertainment.

The German given on last Thursday evening at Music Hall by Messrs. English Des-Champs and Wiley McKain in honor of Misses
Julia Taylor and Jennie Carroll, two of Columbia's bewitching and charming belles, was one of the pleasanter and most enjoyable that the Terpsichorean Goddess ever presided over. Indeed Music Hall presented an enchanting picture on that evening. Hearts caroled with gladness, and the exquisite tailoring of the costumes worn only increased the loveliness of the Queen who acknowledges none but the genuine English.

The occasion was also graced by the pres- Tonic. It will give you an appetite and aid ence of two of Lancaster's fascinating daughtour digestion. McIlwaine.

Dancing was indulged in until the opening of Spring I was very weak, 1 o'clock when supper was served, after scarcely able to walk a balf a mile without which the playing of the soft Blue Danube once more put in motion the lovely forms of those fair creatures who now have a "local habitation" in the hearts of the gallant swains | and eat as many beans, etc., as any ordinary present on that love of an eve.

Salesday. There was rather a small crowd in town on last Monday, and Salesday was very quiet. The only sales made were eight tracts of land by tise Master, and 32 head of cattle by Earle & Purdy. About \$500 was realized from the pale of these cattle.

BISHOPVILLE, Nov. 7, 1887. Mr. Editor: Going, go-ing, gone-"Imagination City." We trust it has its right side up again. The whole thing was very much like the old man's dream of his lazy son being been in Sumter on a visit to her sister, Mrs. in sheol, "He wasn't much, nather here nor thar"; but, Mr. Editor, it made good fillings. Among the December magazines, 'Pelerson' stands out prominently in its freshness and interest. It is really astonishing how bright and youthful this old favorite keeps; the only close our stores on Thursday Nov. 24th, being thing that remends one of its age is the remembrance that it has been a welcome monthly guest since one's childhood; a periodical essentially for the family, possessing elements of interest for all, from the oldest to the youngest. #### The Farmer's Movement.

A Reply to the Editorial in Last Issue of Bish opville Enterprise.

WEDGEFIELD, Nov. 7, 1887. Mr. Editor: I notice in the Bishopville Enterprise an editorial on the "Farmer's Movement." The whole article is unjust and misleading. The writer says, "when we look around we find, in most instances, this movement headed by some lawyer who wants to get office by abusing his brother lawyer, &c." am a member of the State Executive Conmittee, and know a good many men all over the State who might be termed the leaders in this movement, and I do not know a single lawyer who has taken any part in the movement, and I don't believe the writer of the article referred to knows one. If he does,

name him; if not, then this portion of his article is a willful misstatement. Then, again he says: "If not headed by a lawyer, then by some man who has tried farming and failed; then hoping to secure an office cries out against others." I only know one man who has taken any part in this movement who was a candidate for any office, and he is known as the most successful farmer in his county and was a candidate to be the spokesman for the farmers in the Legis. lature. I don't believe the writer of this article knows one farmer among the leaders

trying to get an office. If he does, name him, f not, this portion of his article is untrue. He says: "We do not say that we are opposed to the movement." He should have said, we are on the fence; if the move succeeds we will tumble over on the side of sucess like a politician. We say to the writer, be a man and advocate the right like a man, either for or against, and people will have more respect for your paper, and it will grow

who has failed at farming and is therefore

like the farmers' movement, because it merits He says again: "As to an Agricultural College we can only say that all the 'kid glove professors' can't teach a boy one-tenth as much about farming as some of our good farmers can. If you want your son to be a good farmer give him a good academic education at home, then put him between the plow handles and try to get him to walk as near in the footsteps of his old father as possible." We are glad to learn that Capt. Carnes, A "kid glove professor" would be very much out of place in an Agricultural College like the one the farmers are trying to establish in this State, and I am sure there would be no such gentry in this college. Where is the farmer's son to get a good academic education at home? Surely not in our public

Some of the best farmreturned to the parlor, and when the wee ers in this County live near Bishopville, and I hours came on seemed loath to leave. The am sure if the writer of that article were to tell them they ought to plow and list cotton like their fathers did they would not call him the "horse editor," but rather name him

after an animal with smaller boofs and longer

school taught by that negro who swears the world don't move. We want farmers educated in all the branches pertaining to agriculture. To this class of educated, scientific farmers we owe nearly all the great improvements in agriculture and stock-breeding, which enables the son to more than double the productions of the necessaries of life from the same acreage planted by our fathers. The vast improvement in implements and machinery as applied to farming; the extended and skillful application of manures, guided by agricultural chemistry; judicious rotation of crops, improved breeds of stock and all that is now known as high farming, is due to this educated class of farmers. And to further develop the Agricultural resources of the country and greatly increase its production is the aim of the promoters of the Agricultural College, and to this end and purpose

the U.S. Government has donated to this State \$26,000. The aim of the leaders of the Farmers Movement is no such low degraded motive as the writer offirm's. He then concludes by saying we ask the farmers to think well before leaving a ship that has brought us safely out of corruption and misrule, and be sure not to give allegiance to any party whose great aim is to oust good officials that new and an ried men may have a berth." What ship does he mean but

the Democratic ship? Capt. Tillman is the chairman of the Edgefield County Democracy. I do not remember the names of all the Trustees proposed for this college. I nominated one who has got a record, and a man only dirties himself who tries to east doubt on the Democracy of Gen. Johnson Hagood, and no less true men are Darcy Duncan, Rivers and Again, who is trying to oust any officials and put in others? For myself I believe we have too many officials; but I am sure the

great majority of them in both State and County are honorable and upright gentlemen, equally as good as any whom the farmers would be likely to put in, should they ever descend to the dirty cesspols of class politics, or to the folly of "supposing a man horest because he is a farmer, and dishonest because he is a lawyer." I refer the writer to the heading of his own paper: "Equal and exact

Justice to all Men." I must say for the Editor of the Bishopville Enterprise, that he must have been enjoying write an imaginative editorial, founded on saw anything in this movement to benefit the tion which was sent to the last State Convention offered the resolutions passed by our County Convention, two of which are now laws of the State. One making the careless burning of forests punishable by imprisonment and fine; this burning of woods destroys thousands of dollars each year in this Penitentiary by the State, thus saving a considerable sum to the county. In fact for the first time in years the Grand Jury report the County out of debt, and has \$5,000 to her credit. The cost of running the County is about \$5,000 less than the year before. But the greatest good in my mind, is showing our officials that their acts and conduct is not | common citizen; that they are the servants

## BLOOD POISON.

Three years ago I contracted a blood poison applied to a physician at once and his treatment came near killing me. I employed an old physician and then went to Ky. I then went to Hot Springs and remained two months, but nothing seemed to cure me permanently, although temporary relief was given me. My condition gew desperate and prove. I then used a preparation which was prescribed "gratis," but it contained too much alcohol and aggravated my sufferings.
I then placed myself under the treatment of a benefitted, but by fall I returned home a ruined man physically and financially, with but little prospects of ever getting well. My money being exhausted, I did not know what to do. In May, 1885, my mother persuaded me to get a bottle of B. B. B. (made in Atlanta) and I did so to gratify her, but to my utter astonishment I had not finished the first bottle before every ulcer had been healed. To the present time I have used five bottles and have received more benefit than from all the rest combined; and I am satisfied that B. B. B. is the most wonderfu! blood purifier ever before known, and I urge all afflicted young men to try one single bottle and be convinced. I can truly say I think it the best
