#### EDITORIAL NOTES.

The floods in the west have worked immonse damage and thousands of persons are destitute and suffering. The people are ap- lence of some of the leaders of the majority, pealing for aid and already measures are being taken to relieve the distress.

Even Sumter's most friendly critics see that Journal & Review says.

Almost every day we see mention in the papers of what effort various places in the State are making to have South Carolina represented at the World's Fair. Isn't it about time Sumter was taking some action ? Samter is one of the leading place of the State, and is known far and wide as one of the most placky and progressive, therefore Sumter and Sumter County should assume a leading position in the Word's Fair movement.

A number of negroes residing in Boston have bound themselves together in a secret oath-bound society and are taking lessons from Russian anarchists in bomb-making, and propose to come South and put a stop to the traching of negro criminals. It would be well for these negroes to stay where they are and invent some sort of machine to throw their bombs from there unless they wish to be central figures in a number of interesting traching bees.

Georgia has gone for Cleveland by a large majority, in spite of the opposition of the Constitution. The Cleveland mer, had majority of sixty in the Convention and it was easy for then to control the election of delegates to Chicago. This more than counterbalances the action of the Convention of this state in denouncing Cleveland. At present it appears that Cleveland will be nominated, and South Carolina's Tillmanite Democrats will have to eat their words and support him or get out of the party.

It is to be feared that the State Convention adopted the resolutions denouncing Cleveland in much the same spirit as a Tillmanite friend proposes to go into the primary election. We said to bim : "Will you take the oath required before voting at the primary ?" "Of course. for I intend to support the nominees." "How about if Sheppard and Orr are nomi-"nated ?"
