SUMTER, S. C , July 5, 1893. man, Chairman Board of Control, etc .- Dear Sir: I have been trying to find out what is considered law in regard to the provisions of the Dispensary Act. The Constitution, upon the face of Section 17, does not call for any report except of such alcohol, etc., as may be purchased from the dispensary, but, as one desirous of complying with the law, I take your construction of it, and ask if you have forwarded to address of J. S. Hughson & Co, ruggist, Sumter, S. C., two dozen report blanks, with bill of same. There is so small a quentity of liquors used in store, except for compounding tinctures, spirits and wines, that a formal record book is not a necessity to

be able to accurately tell in what way it is consumed each month. To whom shall the first report be made? As a practicing physician and a half owner of a drug store I would be glad if you would be explicit as to the legality of the druggists filling prescriptions bons fide of such reputable and conscientions physicians who would not under any circumstances give a prescripticing physician of twenty-five years standing in this city and of large practice and, as you acute cases of sickness. Now I desire to know if my druggist has a legal right under this Act to fill such prescriptions, and in his monthly report to make return of so much used for "filling prescriptions." I could send report in this form: J. S. H. & Co. of regular blanks and information as to whom I shall report, but I will be glad to have you at once give me information as to the legality

of the filling of prescriptions of stimulants, and thereby oblige yours respectully, John S. Hughson, M. D. Dr. John S. Hughson, Sumter, S. C. Dear Sir: I find your letter of July the 5th, awaiting me on my return from Clemson College. subsequent reports will be made one to the county auditor, the other to the county board of control. And your first report will simply state the amount on hand July 1 and to what use you have applied any part of it

during the month. In regard to prescriptions, I would say that a druggist can fill any prescription made in good faith as a medicine, into which whiskey or alcohol enters as a component part, and "which cannot be used as a beverage." No prescription for liquor of any kind to be ever, and had previously so stated, that it was used alone can be filled by a druggist. Such important to his faction that a dispensary be can only be sold by the county dispenser. A prescription for whiskey, brandy or wine though intended as a medicine, cannot be filled by a druggist.

All Men that go Fishing

Don't meet with the same luck.

The best Fisherman is not always the most

successful.

He may have the best fishing tackle, the finest of rods, and 140 ACRES-WITH RESIDENCE and the bait that should take; but if he does not fish in the proper of Sumter, suitable for Truck Farm, Poultry waters, he will not catch what he expected. The man that or Dairy Farm. Price low and terms reasonwishes to insure his life and seeks the best policy, may visit Insurance Companies and yet measurably fail in his fishing. He may be told this is the best pond, that the best stream, but when he goes to an Agent of the PENN MUTUAL LIFE he will know he is in the proper place to get the prize fish.

After a long and varied experience in the use of Mineral Waters from many sources both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of afflictions of the Kidney and Bladder unequaled by any other water of which I have made trial. This opinion is based upon observation of its effects upon my patients for the par

three years, during which time I have perscribed it freely and almost uniformly with benefit in the medicable maladies above mentioned. When failure to relieve has occurred, I have imputed it to insufficient use of the Water. for my experience teaches me that from one to two quarts daily should be taken from two to four weeks to secure its full remedial effects. A. N. TALLY, M. D. Columbia, S. C., October 8th, 1892. CAMDEN, January 28, 1892.

J. T. Harrris, Esq., Waterloo, S. C.: Dear Sir-I find great benefit from the use of your Lithia Water. I consider it a fine tonic and general regulator of the digestion, as well as very efficacious in those diseases for which Lithia is considered somewhat of a specific. JUDGE J B. KERSHAW. My wife has been using your Lithia Water and is very much benefitted. I consider it n every respect equal to the famous Buffalo Lithia Water.

wish to state to the Farmers of Sumter and Clarendon Counties that I have gotter in a car load of McCORMIC REAPERS, SELF-BINDERS, MOWERS and HAY RAKES. and Grass cutting machinery made in this or any other country.
