

The Watchman and Southern. WEDNESDAY, OCT 11, 1893. The Pan-American Bi-Metallic Convention.

Gov. Tillman Creates a Sensation.

St. Louis, Oct. 5.—The last day of the Pan American Bi-metallic convention opened with the committee on resolutions presenting a supplemental report unfavorably passing upon a proposition by Thomas Warren to take action looking to the endorsement of the removal of the National capital farther west. The report was adopted.

The question came then upon the adoption of the report of the resolution committee.

Delegate Waterbury, of Kansas, moved the amendment of the report by the addition of a proposition presented by H. M. Taylor of Mexico, favoring the increase of the volume of currency by the issue of legal tender notes secured by land values.

Upon this motion delegate Cochran, of Missouri, took the floor in opposition to any and all efforts to say or do anything in this convention upon the money question other than fully and directly endorse the free coinage of silver.

Governor Tillman spoke briefly declaring that it was the desire of his committee to concentrate the efforts of the convention upon the central purpose—bi-metallicism and for that reason it seemed to them unwise to seek more now, no matter how alluring the prospect.

Governor Waite, of Colorado, begged the convention not to be diverted from the one great issue. Until the success of bi-metallicism showed Wall street to have lost its grip upon legislation it was impossible to secure any other form of financial legislation. As to the West and South, they could control the politics of the country if they tried.

Gov. Tillman spoke with millions of words in Washington with which to buy Congress, and with such a condition of the South and West must unite. Delegate Manning, of Alabama, declared the readiness of the South for free coinage of silver, but pleaded for the exclusion of extraneous matter from the platform as a diversion of the purpose of the convention.

Delegate Skaggs, of the same State, spoke in a similar strain also denouncing President Cleveland as an enemy and betrayer of the people.

Delegates Taylor, Waterbury and Waite withdrew the minority report. They with a motion to adopt the majority report pending the convention adjourned until 2 o'clock p. m.

At the afternoon session, pending action upon the report of the resolutions committee, a resolution was offered providing in the event of the failure of Congress to provide adequately for the use of silver as money, for the calling of a national convention in January 1894, under the auspices of the Governors of Missouri, South Carolina, Kansas and Colorado, including delegates from every State and Territory, labor and agricultural organization to take action looking to an agitation of the question before another election.

Pending action upon this regular order was called for, S. S. King, of Kansas City, speaking to the sixth clause of the resolution report, presented the financial question presented but another form of slavery. As to sectionalism, every section had and would vote as its interests demanded. As to this he was not uneasy, but he was as to the admission to party making so many men forget that others had rights. Touching again upon sectionalism and reconstruction, he declared himself a Hamburg rioter and asked what made him so. It was negro domination. The end justified the means. He had no apologies to make for attempts to secure honest government by honest men unswayed by the bayonets of Grant's soldiers. Coming once more to the present he took up statistics to show that the West and South could control the Presidency and Senate and within nine of a majority of the House and these men could be picked up east of the Mississippi. Would the West meet the South?

Governor Lewelling answered: What would the Governor of South Carolina ask? Had not Kansas sent ex-Confederates to the Congress? Was not this an olive branch of peace? Was it not a sufficient pledge that the old issues were dead; that the bloody chasm was crossed and that the West was prepared to do her part?

As Governor Lewelling closed Governor Tillman rose and the two Governors grasped hands on a common platform amid cheers which subsided only when the convention exhausted itself. With the cessation of the cheers the question was put on the majority report of the committee on resolutions and it was adopted unanimously inform as reported.

The resolution providing for the call of a national convention in January was withdrawn, and after the transaction of some minor business, including the passage of the usual resolutions of thanks, the convention adjourned sine die, having first provided for the calling of another convention if deemed necessary, by the President and Secretary of the Pan American Bi-Metallic league.

Prof. Koch, the Berlin discoverer of the so-called consumption cure has recently, it is said, secured a divorce from his wife, a very estimable woman, and has married an actress, telling his friends that if they want his society in future it must always include that of the present, "frau doctor." Berlin has made no outspoken objection, but in the little Harz mountain village of Clausthal where Prof. Koch was born and where he has been regarded as the man who sheds the greatest glory on the place, his conduct has raised considerable commotion. Within a few weeks 500 women of that village went in a body to the place where a tablet had for some years marked the birthspot of this illustrious citizen, and with their own hands tore it down, saying they would have no man honored in Clausthal who had so dishonored his own wife.

Anti-Tillman Beer.

To the Editor of The State: The following receipt to make an excellent article of lager beer from sorghum or cane syrup will probably be highly appreciated by many of your readers, as it is cheap, easily made, and very wholesome.

Take two ounces of hops (which you can get at any drug store for ten cents) and make a tea with one half gallon of rain water of soft spring water. After infusion and slight boiling, strain the liquor. Take one quart of syrup to every gallon your keg holds, mix it with three quarts of soft water; (rain water is always preferable;) take two yeast cakes such as are used to raise bread and dissolve them in lukewarm water.

The usual quarter beer keg holds seven gallons. Put all the ingredients in the keg and roll it about so as to thoroughly mix the contents; then bung up tight and place the keg in a warm place. In forty-eight hours, if kept warm, (say back of a kitchen stove or near a fire place) the beer will be ready for tapping.

The result will be a good, strong lager beer. It will foam like lager beer, it will look like lager beer, it will taste like lager beer, and the drinker will say that it is lager beer—and so it is with the only difference that the sugar is taken from the syrup instead of from the malt.

The beer is very wholesome and cheap, costing about ten cents per gallon. Anybody can make it for his own use without interference with the United States excise laws or State laws. I am not quite sure that His Excellency, the Governor, will approve of my giving you this receipt, or if he will be grateful to you for publishing it, but your readers will be well pleased if they try it.

C. B. WARRAND. Savannah, Ga., Oct. 2, 1893.

Newspaper Laws. Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscription.

If subscribers order the discontinuance of their periodicals, the publisher may continue to send them until all arrears are paid.

The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intentional fraud.

Any person who receives a newspaper and makes use of it, whether he has ordered it or not, is held by the law a subscriber.

The following arc laws laid down by the United States government for protection of newspapers: If subscribers move to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible.

If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they settle their bills and order them discontinued.

If subscribers pay in advance they are bound to give notice to the publisher at the end of their time, if they do not wish to continue taking it, otherwise the subscriber will be responsible until an express notice, with payment of arrears, is sent to the publisher.

Publisher of newspapers can, under law, arrest any man for fraud who takes a paper and refuses to pay for it.

Under the law it is a dangerous trick for a man to allow his subscription account to run on from six months to a year and a half, unpaid, and then tell the postmaster to mark it "refused," or to send the editor a postal card to "discontinue the paper."

BLANDING, Executor.

O'DONNELL & CO., Fall 1893. In making this, our Annual Fall Announcement, we desire to call particular attention to our HAT STOCK. For years we have been making a specialty of this department, and we can safely say that we have never been better prepared than this season. OUR STOCK COMPRISES OVER 100 DOZEN SAMPLE HATS of the latest shapes and styles, which we offer AT ONE-HALF REGULAR PRICE. This statement would seem incredulous, but we are prepared to prove it by an examination of our stock. There are many citizens of Sumter County who are now wearing hats bought from us two and possibly three years ago AT ONE DOLLAR EACH. Who will bear us out in the assertion that in some grades they are even less than one-half what they have been paying for the same class of goods. Our friends seem to appreciate our efforts in this line, for several days before our stock was received we were having inquiries: "Have Your Hats Come In?" And when they did come, before we had an opportunity of assorting and marking them, several dozen were picked out. We would therefore advise friends who wish a CHOICE FUR HAT, either soft or stiff in any shape AT ONE DOLLAR, To call early and make their selections, as they are going very rapidly.

IN OUR Clothing Department We are better prepared than usual to give you good value for the money you wish to invest, from a Boy's Suit at 65c. to a Man's Suit at \$25.00. We feel that we can supply your wants. IN OUR Shoe Department You will find HONEST VALUE and a complete stock from which to select. We cannot pass over this department without calling attention to our Celebrated Brand of E. P. Reed & Co's. We have had exclusive sale of these goods for five years and we will pay a Reward \$50 to any lady in the county who has ever bought these goods of us, and upon failure of the same to give satisfaction that we did not REFUND HER MONEY, give a new pair of shoes or make due allowance for the time they were worn. This we are authorized to do by the manufacturers. IN OUR DRY GOODS DEPARTMENT We offer a complete line of Staple and Fancy Dry Goods and DRESS GOODS, with Trimmings to match. We might enter into an enumeration of prices here that would astonish you, but as the STOCK IS SO LARGE and advertising so expensive we merely ask you to call and be convinced. In our Notion Department we Have a Lot of Slightly Soiled Kid Gloves at 25c. pr. pair. This includes some of the celebrated Centeneri brands. Our celebrated GLOBE KID, in all shades, every pair warranted, has no superior Featherbone Corsets.

Featherbone Corsets. The lady who desires solid comfort, ought to supply herself with a pair of the above brand as soon as possible. The subjoined cuts give only a faint idea of them. They are made strictly of feather-bone and sold exclusively by us. We have elaborated considerably upon your exterior wants but have said nothing about THE INNER MAN. No matter how poor the crop or how low the price, WE MUST EAT and we were no less particular in providing for you in this respect than in our other various departments. Flour is Cheap, and we Bought 500 Barrels, So if you Want Rock Bottom Prices See us before buying. We cannot close this appeal to our friends without something to say ABOUT THE COTTON BUSINESS. Our reputation is pretty well established in the market, but we were never better prepared to handle the fleecy staple than we are this season. Always have the satisfaction of knowing that O'Donnell Saw Your Sample, For then you can feel assured if he did not buy, some one paid all or more than it was worth. Respectfully, O'Donnell & Company, Main Street, SUMTER, S. C. Sep 20
