Dr. Bossard, who has been in Baltimore for several weeks, where he went to have an operation performed, has returned home, and is doing finely. He stood the operation well, and his many friends are rejoiced to know be is improving so rapidly. The operation was a very successful one. Dr. Bossard is one of our best citizens and physicians and we all regret that it was necessary to have the operation performed, but are delighted to welcome him back doing so well, and trust that he will soon be entirely recovered, and at his accustomed post.

#### DEATH.

Mrs. Mary Ellerbe, of Hagood, widow of the late W. C. S Ellerbe, died Friday night at 12 o'clock. The funeral services were held at Hagood Saturday afternoon at 5 o'clock.

The District Conference of Sumter Dis-

trict will be held in Camden rather than Bishopville because of the recent fire in Asst. Chief Weeks had to put five boys out of the Graded School building Thursday night, during the commencement exercises for mis-

behaviour. The lads were turned over to their parents and we hope the lesson that was administered, will be a lasting one Mr E H Rhame's son, E. H. Jr., met with a painful accident last Friday afternoon. He was running up the brick walk that leads to the front steps, and when nearly to the

steps stumbled and fell, striking his head on the bottom step, cutting a gash in his forehead which had to be sewed up. The little fellow is doing very nicely to-day. and a funnel, attracted quite a large crowd at the corner of Main and Liberty streets last Friday afternoon. In some manner he produced

a series of musical sounds with these articles Miss Katie Broughton, of Pinewood, is which excited the wonder of all the hystand ets. The darkey took up a collection after the entertainment, and received quite a number of nickels and dimes.

Ned Miller, who lives near this city lost a horse Saturday morning. Some friends of Miller's told him that he had been hoodoed, and if he would look underneath the trough in his lot be would find a bottle with a snake in it. Miller did as directed and found the bottle with the snake in it. He believes firmly, that he was hoodned.

The sociable at the residence of Mr. Clarence Durant last Thursday evening was attended by a number of Sumter's society people and was a very pleasant affair. The hours so full of pleasure, sped by all too quickly and not until the midnight hour had passed did the happy young people consent to leave the scene of revelry.

The exhibition run made by Delgar Reel Squad Thursday afternoon was done in 20 3-5 seconds-and Delgar Squad has lowered the record 2-5 of a second However, they have nothing to boast of, for this is only twofifths faster than the time made by Monaghan Squad The run was witnessed by a Miss Hattie Shannon, after a pleasant visit | good crowd and the spectators all seemed pleased. The only regret was that conditions existed which kept the Monaghan Squad from participating.

Mr. E L. Roche the State Commissioner for the Cotton States and International Exposition was in the city last Tuesday and Wednesday. Wednesday he met with the commissioners for Sumter County, Messrs. Moses, Knight and Aycock, and reviewed the situation. At 12 o'clock. Mr. Roche, Messrs. Moses and Knight and several gentlemen, met in Mr. Moses' office in the Masonic Temple and the entire matter was discussed. Mr. Roche said that it was the purpose to raise \$10,000 in the State, each county being expected to contribute \$300. In a number of counties the organization has already been perfected and two ladies in each township appointed to take charge of raising the money. A committee of men should also be appointed to collect articles for the exhibit, also a committee of ladies to arrange the exhibit for the Woman's Bui ding. The commissioners for this county will proceed at once to make arrangements to get up the necessary money from Sumter county, and to secure a collection of articles for the State exhibit that will be creditable and representative of Sumter county. The people of the city of Sumter should do everything in their power to aid the Exposition commissioners in their efforts to have Sumter county properly represented, and the people of the entire county should do the same.

stealing the silver forks, knives and spoons from the banquet hall, has been released, piece was indeed a gem. Both Miss Ayres there being no conclusive evidence against and Miss Fraser are experts in the art of him. When the negro learned that he was suspected of having perpetrated the robbery, he endeavored to evade the officers of the law by biding, and it was some hours before he was found. When caught, he was in the Masonic Temple, between the ceiling and the roof of the Armory, where he had wedged himself, almost out of sight, but by the use of a lantern be was brought to light. When called, he would not enswer, but after repeated assurances that he would be taken care of, he reluctantly left his place of hiding. How the man lived in that hot place is somewhat of a wonder. It is probable had he not been discovered as soon as he was, he would have suffered death, for when brought out he was bleeding from the nose and great drops of perspiration were streaming from his face. Why the fellow should run, if innocent is the question.

## Murderers Caught.

On last Saturday, two white men, Fleming and Hodge, and two negroes, names not learned, it is said, were arrested and taken to Manoing, charged with the murder of the negro man on the place of Mr. W. H. Gaillard, whose death by burning in his own house, was reported in this paper a short time age. It will be remembered that the fact was stated at the time that the negro was in good circumstances with ready money and provisions in his house, and that there was suspicion of foul play.

It is reported that one of the negroes has

confessed to the killing of the man and robbery of the house before the house was

this city Monday by a gentleman who lives in the lower part of this county not far from the place where the crime was committed.

### Institute Commencement.

Commencement Sermon by Rev, J. W. McKay.

Sunday night the hall of the Sumter Institute was well filled to hear the annual sermon | meeting immediately after the commenceby Rev. Mr. McKay, of Salem, not withstand-

ing the extremely warm weather. The speaker took his text from John 12: 25 and for about thirty minutes held the very close attention of his audience. It is in pos sible in a short space to do credit to the sermon. Suffice it to say that few in so short a time could weare in so much practical thought, wholesome advice, mixed with so much eloquence. He took as his theme Life, and held up the Christian standard for the emulation of the young ladies, who, having reached the end of their college journey, are now about to enter upon life in its reality. He plead with them to be above selfishness and live by doing good to others-to A negro man with a 50-pound lard can steer clear of that individualism as inid down by Chas. Stuart Mills. He exhorted them to live in deeds not hours and to count time by heart throbs and not by hours on

Everything was propitious for the closing exercises of the sixth annual session of the Sumter Graded School last Wednesday night. The crowd was large, probably not less than seven bundred and fitty persons being pres ent, among them the members of the Press Association in the city. On the stage were grouped the members of the graduating class, seven in number, the Board of School Commissioners, the Rev. John Kershaw and Prof.

The exercises lasted only a little more than one hour, and were interesting throughout. The several papers read were of a high order of merit, and received deserved applause. Great masses of floral tributes were laid at the feet of the fair graduates, and of Mr. William Barrett the only male member of the class of '95, the most flattering things were said in evidence of the high standard to which he attained both as regards, scholarship and deportment, his average in the latter being Iil., says: "To Dr King's New Discovery I 100, the maximum, and in the former 953, a most unusual record.
