THE WATCHMAN AND SOUTHRON, MARCH 18, 1896.

The Matchman and Southron.

CORNER STONE LAID.

the bricklayers upon the new building for the Daily Item, Watchman and Southron, and the & Co. At the suggestion of a friend as to been offered if they had not been intimidated Book and Stationery Store of H. G. Osteen thepropriety of placing some record of the or kept away from the polls should be occasion in the corner of the foundation, there was arranged for the 4th an impromptu corner-stone laying, and about nooh that day in the presence of a few friends a jar was placed in the brick work of the foundation and enclosed in the masonry by the Master-Workman of the building, Mr. Jno. W. McKiever.

The jar contained two copies of the W. S S. of Feb. 12 and 26, a copy of the Trace Issue of the W. & S. of Nov. 20, 1889, two copies of the Daily Item, Oct. 15, 1894 (being its first issue) and March 3, 1896, a copy of the South Carolina Tobaccomist of Feb. 25, 1896, a copy each of the Sumter Freeman and Sumler Herald of Feb. 21, 1896, a list of the city officials, including school, health, police and fire department. and a statement of the dimension and construction of the building with name of the contractor.

After the reading of the list of the contents by Mr. N. G. Osteen, Rev. W. W. Mood, by request, offered a prayer in words appropriate to the occasion.

Col. Blanding then made a few remarks bearing upon his acquaintance with the different papers of Sumter now represented by the Watchman and Southron, a.d of his acquaintance with the present proprietor, since his beginning in the business as a printer's devil over a third of a century ago.

At the conclusion of Col. Blanding's remarks the friends adjourned to the office of the W. and S. next door, where a few bottles of home made wine were discussed for a few miautes.

The whole affair was entirely impromptu, and while it would have been pleasant to have had all our friends present, the lack of time, and other circumstances, prevented any elaboration of the occasion.

Senator Moses.

The News and Courier in an article concerning the personel of the State Senate has the following to say of the Senator from Sumter County :

Mr. Moses would represent Sumter for two years longer if it were not for the fact that he will be a candidate for Congress, as has been rumored. He is one of the most popular men in either branch of the General Assembly. He has taken an active interest in legislation, and a decided stand on almost every matter of importance. The fact that he has generally voted in a minority may be noted to his credit. The Senate will lose by his elevation to Congress if he is successfull in bis race.

Board of Supervisors.

Under the new Constitution and the new registration laws just prepared in accordance with that organic law; the governor is required to appoint boards of supervisors of registration in the several counties giving the

ity faction one representative on each

The Johnston-Stokes Contest. Atlan WASHINGTON, March 11 .- There was a long PASS discussion over the Johnston-Stokes contested WEDNESDAY, MARCH 18, 1896. election case to-day by election commtitee WILMINGT No 3, but no conclusiou was reached. The committee is still widely apart so far as a final result is concerned. Some of the members hold that the votes offered but rejected Work was commenced on the 3d inst. by should be counted. Others contend that none of that class of votes should be counted, while there are others who insist that even those who said that certain votes would have Charlest counted.

After trying to agree upon some basis upon which to frame the report of the committee it was decided to allow each member of the sub-committee to draw up a report expressing his individual views on the questions involved and report the same at the next meeting of the full committee - Washington Correspondent News and Courier.

Will people never learn that a "cold" is an accident to be dreaded, and that when it oc- curs treatment should be promptly applied? There is no knowing where the trouble will end; and while complete recovery is the rule, the exceptions are terribly frequent, and thousands upon thousands of fatal illnesses occur every jear ushered in by a little inju- dicious exposure and seemingly trifting symp- toms. Beyond this, there are to-day count- less invalids who can trace their complaints to "colds," which at the time of occurrence gave no concern, and were therefore weglect- ed. When troubled with a cold use Cham- berlain's Cough Remedy. It is prompt and effectual. 25 and 50 cent bottles for sale by Dr. A.
