Commendation of Gov. Ellerbe.

Him Honest and Patriotic and Predicts Peace and Prosperity.

To the State.

Washington, D. C., Jan. 20.-I cannot resist the impulse to say a word of commendation of the inaugural address of Governor Ellerbe. It is most excelent in style and the tone and temper and matter of it is above criticism.

Of course I do not agree with him in his endorsement of the dispensary. That institution is, in my opinion, radically and fundamentally wrong in principle, and indefensible in practice, but Governor Ellerbe discusses it with the fairness and frankness of patriotic conviction and therefore will command the respect and confidence of those who do not agree

The address of Governor Ellerbe is in most refreshing contrast with the screeds that have been fulminated by his immediate predecessors, and the good people of the State are certainly to be congratulated on the improvement in their chief executive officer, and the harbinger of a decent, dignified administration, which the recent

inauguration promises. He ought to have the cordial sur port of all good citizens, and I trus will receive it. Taxation has been increased without, as it seems to me, with the increase. Public offices have been multiplied beyond the number needful for good administration, and sources of revenue have been recklessly impaired that might have been fostered and secured, but we have assurances now that the State government will address itself, The executive committee of the State patriotically, to bringing about hon-
