Mr M. F. Nixon of the Nixon House will give the Second, Annual Ball at the Nixon House on to-morrow evening.

The ball will be complimentary to the young ladies of the city and the young ladies visiting them. The ball given by Mr. Nixon last year is still remembered with pleasure by all who attended it, for it was in every respect one of the most delightful and thoroughly enjoyed social affairs of the season. The spacious dining room is an ideal ball room, and every thing connected with the occasion was so well conceived and carried out that the evening was one of pleasure, with not an incident to mar the enjoyment of the guests.

SATURDAY AFTERNO 3 30 to 3 50—Devotional A as a Develorer of Men."

If the Atlantic Coast Line will give reduced rates to Charleston during the great naval review and blockade of the port, which will be held the first and second weeks of February, many people in this section of the State will visit the city at that time. Few have ever seen any of the war ships of the United States government, and all have a natural curiosity to see the great naval fighting machines on which such vast sums of

Tobacco planters throughout this section are preparing for the crop of '97. The inferior quality of tobacco produced last season and the low prices realized has had a discouraging effect on many planters, but they bope for better things this year and with the added experience of last year to guide them will very probably make a success with the crop this year.

The bazear for Monaghan Hose Co., No. 2, had the right of way last evening. Mr. Sisson announced from the stage Monday night that would not rise until 9 o'clock in order that everybody, himself included, might have an opportunity of attending the bazaar and aiding the firemen The bazaar will be a success in every respect and the committee of arrangements have made every preparation of all who attend the bazaar. To-morrow night the Oscar Sisson Repertoire Company will give five per cent of the gross receipts to Monaghan Hose Co. The people of Sumter should do much more in proportion, for they are the ones who reap the benefits of the fire

He Should Be Captured

Jim Bracey is still roaming at will throughout the section of country between Mayesville and the Clarendon line. He obtains the means of sustenance by terrorizing the negroes and compelling them to supp'y him with food and furnish him shelter Jim but he is an escaped convict, has on numerous ocaasious defied the oficers of law and has shot at them with intent to kill. It is not right to permit any man to have the freedom of the country who should be serving a legally imposed sentence on the chain gang, nor is it right that any man should be permitted to roam the country, armed to the teeth, terrorizing peaceful people, and levy ing tribute upon them like the bandits of

Jim Bracey should be captured and put on the chain gang, where be belongs, before he commits some serious criae.
