One man who has been holding cotton for higher prices brought nine bales to town last Thursday and sold it for much less than the price he thought too low last fall.
Cotton has advanced in price on the New York cotton exchange, but this advance is of little benefit to the south, as at least 98 per cent of the last crop is out of the hands of the producers.

Mr. J. H. Eberhart died at 8 o'clock this morning at his home on Church Street. The funeral services will be held at 9 a. m. tomorrow at St. Joseph's Chapel.
Mr. Eberhart was one of the oldest citizens of Sumter having been a resident of the city for about forty years. He was about seventy years of age.

Mr. T. A. Mayes, one of the oldest citizens of Mayesville, died at his home last night about 11.30 o'clock, after an illness of several weeks.

Biliousness is a condition characterized by a disturbance of the digestive organs. The stomach is deolitated, the liver torpid, the bowels constipated. There is a loathing of food, pains in the bowels, dizziness, coated tongue and vomiting, first of the undigested or partly digested food and then of bile. Chamberlain's Stomach and Liver Tablets allay the disturbances of the stomach and create a healthy appetite. They also tone up the liver to a healthy action and regulate the bowels. Try them and you are certain to be much pleased with the result. For sale by Dr. A. J. Chioia.

The Sumter Light Infantry left for Chickamauga Saturday night with twenty-eight men. First Lieutenant Fishburne who intended going, was kept at home by business, much to the regret of the members of the company.

The natatorium will not be affected by the rearrangement of the tracks in the A. C. L. yard, as that part of the railroad property in which the natatorium is situated will not be needed for the new tracks.

Delgar Reel Squad will go to Newberry prepared to win the prize and if the track is good the record made in Wilmington last year will be broken. The team that will go to Newberry is believed to be the fastest that the squad has ever sent to a fireman's tournament.

"I have been suffering from dyspepsia for the past twenty years and have been unable after trying all preparations and physicians to get any relief. After taking one bottle of Kodol Dyspepsia Cure I found relief and am now in better health than I have been for twenty years. I can not praise Kodol Dyspepsia Cure too highly," thus writes Mrs. C. W. Roberts, North Creek, A. S.—J. S. Huggson & Co.

There is nothing in the rumor, circulated for the past week, that the Atlantic Cotton Oil Co. had been bought by the Virginia-Carolina Chemical Co. "No sale has been made and it is not probable that a sale will be made."

The lessees of the Opera House expect to secure a fine line of attractions for the coming season. They will take charge of the Opera House August 1st and will make all necessary repairs before the season opens in September. The outlook for a successful theatrical season is said to be unusually good as there will be many strong companies on the road.

Miss Florence Newman, who has been a great sufferer from muscular rheumatism, says Chamberlain's Pain Balm is the only remedy that affords her relief. Miss Newman is a much respected resident of the village of Gray, N. Y., and makes this statement for the benefit of others similarly afflicted. This balm is for sale by A. J. Chioia.

Sumter may not be up to a \$100,000 union depot, but the town will manage to worry along a few more years with the \$30,000 depot soon to be built and then the hundred thousand dollar proposition will be in order.

It would be cheaper in the long run to use crude petroleum for sprinkling the streets than water. Experience has demonstrated in cities too numerous to mention that crude petroleum is better in every way than water. A few sprinklings a year lays the dust quite effectually, improves the roadway and renders the surface more lasting.

MEETING OF CITY COUNCIL.

The regular meeting of the City Council was held Wednesday night. All members were present except Mr. G. F. Epperson. Mr. C. M. Hurst, Jr., the Clerk, having been granted a leave of absence to attend a Knights of Pythias meeting in Spartanburg, his place was filled by Mr. Purdy, who acted as clerk pro tem.

The usual routine business was attended to, but nothing of interest was taken up, except that Messrs. Pareira, Solomons and Caldwell made an offer for renting the Opera House for one year on terms more favorable than heretofore offered to the city, and the matter was referred to the committee on public works, with instructions to communicate with these gentlemen and recommend a memorandum of agreement to be submitted to Council for ratification.

Council also ordered the purchase of another carload of pipe for laying drains.

The Clerk was directed to give notice to the various corporations having poles on Main Street to remove same, under the direction of the City Council, Council having decided to have the street surveyed and, as near as possible, to have the poles properly placed.

Money for Pensioners.

Clerk of Court Nash received the money for the pensioners yesterday and is now ready to pay it out to those who are entitled to it. The pensioners in this county number 174, divided into classes as follows: Class A, 1; Class B, 6; Class C, No. 1, 12; Class C, No. 2, 86; Class C, No. 3, 22; Class C, No. 4, 47.

Pensioners should apply to Clerk Nash at once for their checks.

DeWitt's Little Early Risers search the remotest part of the bowels and remove the impurities speedily with no discomfort. They are famous for their efficacy. Easy to take, never gripes.—J. S. Huggson & Co.

Fayette Anderson, colored, shot a negro woman through the thigh Saturday night and skipped. The row occurred in the negro quarters beyond the depot and before the police were notified Anderson had a good start and could not be run down. The woman was painfully but not fatally wounded.

The graded school square was crowded Thursday afternoon with the folks who love to hear good music, and who appreciate the efforts of the young men who compose the band. The music was even better than usual. Hereafter the weekly concerts will be given on Wednesday afternoon.

"Our little girl was unconscious from strangulation during a sudden and terrible attack of croup. I quickly secured a bottle of One Minute Cough Cure, giving her three doses. The croup was mastered and our little darling speedily recovered." So writes A. L. Spafford, Chester, Mich.—J. S. Huggson & Co.

The heavy rains following in such rapid succession have flooded the country and from all sections of the county come reports of damage to crops. Fields that are under ordinary conditions well drained, are now under water and it is believed that the crops will be drowned before the water can be drained off. All farm work has been stopped, grass is taking possession of the fields. The situation of the crops is critical and the damage already done is serious. The outlook for a good crop is as unfavorable as it could be and the farmers are talking of a half crop as the best they hope for this year.

It will be an advantage to the public rather than an injury to close Main Street at the railroad crossing, and the railroad was wise in making the request, as was City Council in granting it. The Manning Avenue crossing is so near that no one will be inconvenienced by closing Main Street at the crossing and a regular death trap will be abolished. The proposition of the railroad in reference to granting a portion of their property for the continuation of Divine Street from Manning Avenue to Main Street is fair and liberal and when this street is opened and crossing gates, at which a flagman will be stationed, are placed at the Manning Avenue crossing the situation will be a great improvement over that at present existing.

There is one feature of the plan for the new depot that could be improved by a change. The proposed plan will require the trains on the Central R. R. to back into the depot. If the track from the junction of the old C. S. & N. R. and Central R. R. to the junction of the W. C. & A. and C. S. N. was rebuilt the trains on the Central R. R. could go into the depot over the main line and there would be no necessity for backing in and out. This change in plan seems perfectly feasible, for all that is necessary is a switch similar to the one now connecting the W. C. & A. track with the C. S. & N. track.

The Mysterious 13 Reception.

The fair young ladies of the "Mysterious 13" gave their first reception at the residence of Dr. Huggson Tuesday evening and despite the rain which poured in torrents from dusk until far into the night, was a complete success. Ten young ladies in evening costume were present to greet their guests and though these included more than a score of young gentlemen, proved themselves such good hostesses that no one would have known without actual count, but that there was a fair friend for each.

The young ladies showed themselves to be as good practical house keepers as they were hostesses by the delightful refreshments served. That the latter were enjoyed by all it is needless to say. So swiftly did the evening pass that the guests came near having to say their adieux in the dark. No one suspected that the evening was so far spent that only a few minutes more and the electric lights which rendered things so bright would desert them. To say that the evening was delightful leaves much to be expressed. All look forward with pleasant anticipations to the next and say and think nice things of the pretty faces and charming manners of the "Mysterious Thirteen."

THE BLOODHOUNDS.

Pair Ordered by Police Have Arrived.

The pair of trained blood hounds purchased from a Lexington, Ky., breeder and trainer by the police force arrived in good condition last week. Both of the dogs are thorough-breds and registered. They are guaranteed to be the best stock in the country and to have been thoroughly trained to follow a man's trail as long as there is a scent for them to pick up.

The dogs are large, and from a bloodhound point of view, very handsome animals. The pair cost \$225 and express, and they are said to be cheap at that price considering the stock they come from and the training they have received.

As soon as they have time to recover from the trip they will be taken out on a trial run and given a test, on both fresh and cold trails so that an idea can be formed as to what they can do when they are wanted to run down a criminal.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armoak, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Despairing throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and \$1.00 bottles guaranteed by J. F. W. DeLorme. Trial bottles free.

The Sovereign Camp of the Woodmen of the World decided at its Convention in Columbus, Ohio, to erect a Building on the Exposition grounds at Charleston—"a building," as our special dispatch this morning says, "commensurate with the dignity of our grand and noble Order." The Woodmen of the World is one of the strongest of the benevolent Orders in the west, and its resolution to take part in the Exposition will attract to Charleston a great many very desirable visitors. The thing is growing every day.—News and Courier.
