Fire in Mayesville.

CITY COUNCIL MEETING.

Mayesville, Feb. 18 .- Our town was The Belle Telephone Franchise Convisited by a small fire last night. At twelve o'clock one of the numerous cotton seed warehouses that blocks up half of the Atlantic Coast Line track was discovered to be on fire and before anything could be done to stop it, three of them were burnt. The fire originated in the warehouse belonging to Mr. S. M. McCall, the other two belonging to Mr. A. A. Strauss and Mr. R. F. DesChamps. Two of them were full of cotton seed hulls of Mr. J. F. Bland, Jr. A fourth house belonging to Mr. McCall caught, but by extra hard work with an engine that is very much out of fix, the fire was put out and that in the face of the gale that was blowing. It was thought at one time that in spite of work the two Holleman hoases would burn.

I want to say also that if it had not have been for our colored men, Joe Dick, Richard Howard, David Charles, Ceasar Shaw, Harvey Fleming, Lewis Motgomery, Anthony Wilson, Robert Whitfield and possibly one or two more, we certainly could not have controlled it, but these men worked the engine steadily for one hour and a half.

I have been reading Job lately, not by selection, but because that was the book next in order. I believe in the providence of God, that, "There is a Divinity that shapes our ends, rough hew them as we may." The bible tellsus that He directs our lives, orders our steps and makes our changes for us-to me a most comfortable doctrine. It is good for me to read Job just now, whether by purpose or otherwise. He was a very rich and honorable man with a nice family of children who had just arrived at the age where they could take care of themselves. No doubt Job was just beginning to feel easy and comfortable. It looks like a pity to destroy such a fine picture, but it was destroyed almost in a moment. When Job looked forth on the vast desolation he said, "The Lord gave and the Lord hath taken away; blessed be the name of the Lord." Troubles came in troops to Job. 'He is afflicted with a loathsome disease and his friends forsake him. His wife, instead of trying to comfort him, tells

City Council met at 8 o'clock p. m., Tuesday, Feb. 18th, pursuant to adjournment to consider the application of the Southern Bell Telephone and Telegraph Co., for the right to erect and operate a telephone exchange in Sumter. The entire council was present.

Mr. Jno. R. Haynsworth, surveyor, came with a map of the city, prepared under contract with the city, which he asked be examined, approved and payment ordered. On motion of Mr. G. F. Epperson the map and contract were referred to the special committee in charge of the matter with power to act.

Messrs. H. Harby, Jr., and H. K. Murphy were present in the interest of the Southern Bell Telephone and Telegraph Co. A letter was read from S. C. Baker, Preisdent Sumter Telephone Co., protesting against the grant desired by the Southern Bell Telephone and Telegraph Co. on the following grounds.

1. That S1/2 years ago his company received from the city an exclusive grant for 10 years, which was supposed to be valid, and without which citizens would not have risked money in the enterprise.

2. That they have maintained a reasonably good service, and have invested their earnings in improving and extending their lines for the benefit of subscribers.

3. That in compliance with demands of council are installing the double metallic system, thereby doubling expnsees but not increasing the income. This upon the understanding that they would be protected by council to the end of their term.

4. That the company has incurred debt of \$7,000 in making these improvements, for which the writer is personally liable as endorser.

5. That competition will lessen the income of his company and entail financial loss without lessening rates to citizens or giving inceased facilities. For these reasons Dr. Baker asked council to uphold their rights granted by a former council, and accepted in good faith, "and so save me and my associates, your felllow citizens, from serious financial loss." Messrs. Harby and Murphy discuss-

him to curse God and die, but he ed the matter at length with council. asserting that their company would complete their system in ten months. That rates would not be increased, unless upon urgent necessity. They called attention to annulment by council of the Sumter Telephone Co's. franchise, and urged their right, and the benefit to the community that they come in Mr. Finn moved that the Bell Co. be permitted to come in on such terms as council may hereafter impose. There was no second to this resolution. Mr. Chandler moved, seconded by Mr. Hurst, that the Bell Co., be permitted to establish an exchange on condition that they agree to give same out of town connections and charge no higher rates than the Sumter Telephone Co. Mr. Harby declared that deserts so let us thank God. I am his company would not accept the conditions, and in reply to this Mr. Purdy stated that he would not vote to grant something which he was thus advised would be refused. A vote was then taken upon Mr. Chandler's motion and resulted in its defeat as follows:

tained in the present convention." He based his opposition to this provision on the ground that the constitu tion should extend to the islands when they become a part of the United States. He said, however, that the failure to accept the amendment would not prevent his voting for the treaty for he believed in the Monroe doctrine. Under that doctrine this country could not permit any European power to acquire the islands and we could not in fairness take this position and

then ourselves refuse to buy them when they are for sale.

The amendment was rejected without division.

Senator Cullom said the provision offering the civil rights of the inbabitants was similar to the provision on the same subject in the Spanish treaty. concerning Puerto Rico.

Senator Cullom said that in taking the islands the United States would assume no burden of debt as by the terms of the agreement all claims held by Denmark against the insular treasury would be cancelled.

Senator Cullom explained that under the terms of the treaty the United States would take possession of the islands as soon as ratification could be exchanged and said that it would not be necessary to delay that act until the appropriation of money to pay for them could be made.

Senator Cullom's motion to ratify then was adopted by a viva voce vote.

Maryland Republican Scores Administration's Treatment of Schley.

Washington, Feb. 18.-It was agreed by the senate today that a final vote upon the Philippine tariff bill and the pending amendments should be taken up next Monday afternoon at 4 o'clock. The agreement was reached a few minutes after the senate convened today. The only stipulation made by the minority was that five days should be devoted to speeches not exceeding 15 minutes: Two speeches were delivered today, one by Senator Wellington of Maryland, in opposition to the pending bill and the other by Senator Stewart of Nevada in support of the measure. Mr. Wellington's address covered the Phillippine question gen erally and he set forth his well known views forcefully.

"At one of the public dinners given by Ameer Abdur Rahman Khan," says Mr. Stephen Wheeler in his story of the ameer's life, "an excited native rushed into the midst of the assembly and prostrated himself in front of the ameer:

"'Sahib!' he gasped: 'The Russians are coming!"

"'From what direction are they visible?' asked the ameer without changing his expression.

"'From yonder hill,' replied the native.

"'Climb that tree and watch until they come!" was the royal command. "The native ascended to the topmost branches and was forced to remain until he dropped to the ground."

"Political upholsterers," whom Addison described as "grave persons." may see in this anecdote evidence of the ameer's full confidence in Russia's intentions toward Afghanistan. It is more probable that it was a manifestation of that grim humor which was of the quaint oriental stripe with which the "Arabian Nights" have made us familiar.

"Progress" Report.

Lord Rosebery, formerly premier of Great Britain, surprised some of his hearers at a recent gathering by referring to himself as an agriculturist, says a London newspaper. It is not generally known, even in England, that Lord Rosebery, statesman, author, sportsman, is also a farmer. His farm is at Mentmore, on the splendid estate which came to him on his marriage. It is conducted on the highest scientific principles and is one of the first model fruit farms in England. Large quantities of fruit come from Mentmore to the London markets. Lord Rosebery has also a dairy farm on the Mentmore estate. At Dalmeny his association with the world of industry is in the form of shale mines lying on a remote corner of his estate. Now and again the wind brings the smoke and smell of the mines up to the mansion, and it was this which provoked a visitor to remark on the nuisance of having such

things so close by. "Ah. my friend." said Lord Rosebery. "however unpleasant it may be to you, to me it is the smell of 25 per cent."

AND SOLD FOR FOOD.

Sensational Charges are Made Against Four Chicago Packing Houses.

Chicago, Feb. 15.-An Aurora telegram to the Record Herald says:

Old and diseased borses and mules are slaughtered and sold, under the name of beef by four large packing houses in Chicago. Fish that have died a natural death are a regular article of merchandise in some sections of that city. And in no part of Illinois is any protection to the consumer against flour that, is adulterated with the mineral barytes, and against the deleterious, impure vinegar which St. Louis sends into the State in large uantities. .

These disclosures were made by Assistant State Food Commissioner R. M. Patterson in an address delivered before the Retail ' Merchants' Association of Illinois

"The inspectors of the food commission," said Mr Patterson, "have located in Chicago four slaughternouses for horses, mules and donkeys. Real beef is never handled in these places, but their delivery wagons run

to markets, restaurants and free-lunch saloons with great regularity. "Hardly a horse, mule or donkey is ever too aged or diseased to be handled, and none other than such animals are slaughtered, for healthy equine animals are too valuable to compete with beef and mutton for food purposes. Ringboned, spavined and sore-footed nags; and even those that have glanders are killed in great numbers for the trade.

"The meat is sold for corned beef, Hamburgh steak and sausage. In the fall of the year much of it is pickled or preserved and sold as pickled or canned beef. The traffic goes on under cover of darkness. The live animals are led or carried in at night, slaughtered between 2 and 4 o'clock in the morning, and the deliveries of meat are made before daylight. Often the residents in the neighborhood have no idea of the nature of the industry near them.

Mr. Patterson said that the slaughter-house men were bold chough to ad-vertise in the papers for animals. He gave no names, but read the following advertisements:

HORSES WANTED FOR KILLING -Ambulance for crippled borses. Send postal card.

WANTED-All kinds of borses, \$2 to \$20: will call for them.

HIGHEST PRICES PAID FOR killers: want all kinds of sick, sorefooted horses; will call.

"In order to secure a conviction un-der the present laws of Illinois," said Mr. Patterson, 'it would be necessary for an inspector to follow a live animal into a slaughter-house; watch the killing and the preparation of the meat for market and then trace the

Last fall we farmers after a short crop, for which we got a fair price, planted oats; at least many of us, and the extreme cold killed them. Some of us bought more seed and planted over, and these stand in great danger. Are we fretting over it? Mr. Wellington stated his points of disagreement with the party with which he had been identified throughout his life. He said he had been a Republican, a protectionist and a believer in a gold standard of currency. However, he said, the Spanish war brought the parting of the ways. He was opposed to that war. and believed that Cuban independence could have been brought about by diplomatic negotiations. Then came the "imperialistic tendencies" of the Republican party and with them he could not agree.

Without the Spanish war, he said, Cuba might have been free, might have enjoyed indeed a larger measure of freedom and independence than she was enjoying now or would enjoy in the future. The only thing Cuba had been taught was how a postal official could embezzle a half million dollars. Referring to the bill under discusson, Mr. Wellington declared his opposition to it on "the broad ground of the minority," that there was no right to enact such legislation.

Mr. Wellington referred to the battle of Santiago where the American squadron, he said, was under the command of Rear Admiral Sampson, but was led by "the Maryland hero, Admiral Schley." (Applause in one of the galleries.)

"From that moment," he continued, "the end was won. Admiral Schley commanded the vessels of the American squadron in that engagement. He stood in the midst of that battle and won out as no battle ever was won before. But the administration has been as unjust to him as it has been to the Cubans and Filipinos. He has not received that meed of praise and credit that belongs to him but an effort to detract from his character and from his truth and bravery."

Light Without Sight.

We can "perceive" light without the smallest aid from the retina. If the optic nerve is sufficiently excited to reach the sensorium and create a disturbance at that center of the brain where the optic nerve terminates, we shall then see light and sparks. If, moreover, the optic nerve is cut or mutilated in any way, we should see a brilliant flash of light, though without any sensation of pain. And so it is with the other nerves. The auditory nerve has only to be excited, not necessarily by sound, so as to reach its center, the brain, and we shall hear a sound How many ghosts might not be destroyed in this way?-Chambers' Journal.

An Innocent Author.

Some new authors arrive with such a hilarious confidence, such a blithe innocence, that it is always interesting to hear about them. One has just sent to a well known London publisher a letter something like this:

"I am told that it is usual on the eve of the appearance of a book to entertain all the London reviewers to a dinner Will you kindly tell me what this would cost, where the dinner should be held and who, in your opinion, should
