Rejoicing in Mine Region at Certainty of Early Resumption of Mining.

Wilkesbarre, Pa., Oct. 16.-The executive boards of three anthracite districts of the United Mine Workers of America, in joint session today unanimously decided to recommend to a delegate convention of striking miners, the acceptance of the arbitration proposition submitted by the president of the United States and it is reasonably certain that the advice will be followed and the great struggle brought to a close. The convention will be convened in this city Monday morning and it is the hope and the belief of the officers of the union that mining of coal will be resumed before the close of next week after a suspension of more than five months. The citizens of the entire region are much elated that the strike is almost over, because business in the coal fields has been practically paralyzed since the strike began.

From the time the news was received late last night until about 10 o'clock this morning there was some doubt as to how the miners would receive the modified plan. President Mitchell was asked to make some expression of the proposition but he steadfastly refused. He was pressed by the correspondents for a statement and finally at 10 o'clock he cleared up the situation by issuing the following:

Wikesbarre, Pa., Oct. 16, 1902. Appreciating the anxiety and impatience of the public and the mine workers for some authoritative statement from this office, I issue this bulletin to say that I was unalterably opposed to the acceptance of or acquiescence in the form of settlement proposed by the coal operators because it restricted the president of the the men who were to determine the questions involved in the coal strike. These restrictions having been removed and representtion given to organized labor as well as to organized capital, I am now prepared to give my personal approval to a settlement of the issues involved in the strike by the commission selected by the president, and shall recommend to the executive officers of districts 1, 7 and 9, in their meeting today that an immediate call be issue for a convention whose authorization is necessary to declare the strike at an end.

In the meantime I trust that the people of our country will be as patient as possible as we are moving as rapidly as the interests of our people will

John Mitchell, (Signed) President United Mine Workers of America.

When this was read to the arriving district leaders and groups of miners who came to headquarters to learn the news, general satisfaction was expressed that Mr. Mitchell was willing to accept the modified plan and from that time on there was no doubt that the

#### Cuban-American Treaty.

Habana, Oct. 16. -Business men who have been called in to consult with President Palma on the proposed Cuhan-American commercial treaty feel assured that the cabinet will approve the proposition of the United States and that it will be sent to congress within a few days for adoption. There is some fear that the radical element in congress will object to approving any commercial treaty without first settling the question of coaling stations and without being informed clearly on the intention of the United States with regard to the enforcement of the Platt amendment.

The commercial treaty submitted to Cuba by Washington is practically the Bliss tariff schedule which was drawn up just before the American military government withdrew from the island and which leaves the present duty in force against all other nations but gives the United States a differential of from 20 to 60 per cent. In return the United States offers Cuba a reduction in duties of 20 per

#### A Farce in Puerto Rico.

San Juan, P. R., Oct. 16.-The election registrations have been a complete farce. The Federals were shut out in a majority of the precincts of the island, due to an order of the executive council placing a majority of Republicans on each board. At Vieques eight insular policemen guarded the booth, no Federals were admitted and none registered. In many towns there have been no Federal registrations and in consequence several towns, in addition to Cayey, the Federals formally retired from the election. In order to remedy this the supervisor of elections allowed an extra registration day, yesterday, but with the same result. Although instructions were wired to all the precincts to protect the right of the Federals they were uniformly disregarded. Wherever Federals attempted to register there was more or less disorder. Shooting affairs occurred at Aguadilla, Corozal, Vieques and Mayaguez. Some persons were wounded but there were no fatalities. Wholesale arrests of Federals were made and thousands of protests and charges have been filed.

The Athens, Ga., Banner doesn't mince matters, but talks out frankly as follows: "The wholesale men and the professional men of Athens should do something toward the support of the local newspapers. The newspapers are continually pulling for the community in which they are published and, as a rule, they are very poorly paid for this service."

#### Forty Years' Torture.

#### ANOTHER ERUPTION OF SOUFRIERRE A MICHIGAN MAN

Island of St. Vincent Devastated by Flames and Volcanic Ashes--Extent of Damage Uunknown.

Kingstown, St. Vincent, Oct. 16.-A terrific eruption of the Soufriere volcano commenced last night.

During the preceding day (Tuesday) earth tremors apparently too slight to be considered important were experi- der and this community was shocked enced in the central and northern parts of the island.

At 8 o'clock last night there were indubitable indications of an eruption. Rumbling noises were heard, they increased until 9 o'clock, when the roaring volcanic giant belched out its deadly contents. This eruption was followed by a brief lull. Then, from 10 o'clock until 4 o'clock this morning the upheaval continued. The outbreak was accompanied by an incessant and confused canonading. There were incandescent clouds and sparkling matter was ejected. After 4 o'clock the disturbance gradually decreased but the noise of the boiling caldron is still audible in /the districts near the vol-

Both craters of the Soufriere were apparently active and have been steaming all day long. Sand fell heavily everywhere from half past one until half past three this morning. At southern points the sand is half an inch deep, the depth gradually increased towards the volcanic cone, where there were showers of large stones, pebbles and cinders.

Kingston and other southern points of the island have not been damaged. Reports from the Windward district are awaited. The sand ejected during this eruption has a stronger sulphur-ous odor than any previously thrown out, and one superficial square foot of the alarm. While running down the it weighs exactly one pound.

Bridgetown, Island of Barbados, Oct. 16.—Volcanic dust from the Soufriere volcano on the island of St. Vincent is falling here and has caused a stop-page of business. The shopkeepers United States in making selection of are closing their stores and are returning to their homes. It was so dark at 10 o'clock this morning that it was necessary to light the lamps.

> Basse Terre, Island of Guadeloupe, Oct. 16.—Between midnight and 3 o'clock this morning loud detonations were heard and glimmering lights were seen in the direction of the Island of Martinique. There were two earthquakes yesterday at Les Saintes islands, off the southern end of Gaudeloupe and at Marie Galante island southeast of Gaudeloupe.

#### ACUTE RIVALRY

Between a Negro Church and a Negro Street Preacher.

The rivalry between the colored Congregational Church and a negro preacher by the name of Sid Walker, has become so, acute that the police are apt to interfere in the near future.

The church in question is located some distance on Campbell street. strike would be brought to a speedy Sid, who says he is simply "a man close. Serving God," is really a neighbor of the church.

The charge is that every time services or Sunday School is held in the church, Sid, who has a room near, opens up in opposition. Evidently he can out-preach the church people, for they are complaining. The charge is that Sid peaches so loud and hammers the table so industriously that the. congregation in the church are forced to suspend. As Sid is a poor hand at quiting, he usually succeeds in put-

ting he church out of business. It is further charged that Sid preaches on these occasions only to oppose the church, and that he rarely

ever has a congregation. The police have yet to hear Sid's side of the case. They are also debating how to restore peace, as they know of no law that forbids a man preaching in his own house. Under these circumstances the police are forced to wait for further developments. - Augusta Chronicle.

#### The Civil War in Venezuela.

Washington, October 16.-A cablegram recieved at the State department today from Unied States Minister Bowen, at Caracas, dated last night, read: "Battle Victoria continuing." It is believed here that Castro is making his last stand at this point and that the fate of the revolution will be determined by this engagement.

CASTRO AT THE END OF HIS ROPE.

Willemstad, Island of Curacoa, Wednesday, October 15.—The battle near La Victoria, Venezuela, between the army commanded by President Castro and the revolutionary forces, which began Monday morning, and resulted in the retirement of President Castro to La Victoria on Tuesday afternoon, was resumed again fiercely at 5 o'clock Wednesday morning. At that time the President had received reinforcements and had over 6,000 men engaged against 7,000 revolutionists. The artillery played a part never be-fore seen in Venezuela. Shortly before 5 o'clock Wednesday afternoon the revolutionists appeared to have gained a slight advantage. The President's artillery, which numbered fifteen guns, has been reduced to four guns. La Victoria was crowded with wounded and there were no provisions in the

Secretary of Agriculture Wilson says there is the normal supply of meat in the West, with plenty of fat cattle and there is no reason any longer for high A Typical South African Store. prices. He says the packing houses have put down their prices to the wholesale trade and they in turn should lower prices to the consumer.

#### Stricken with Paralysis.

Sold Remedy. This must surely be a record." by Dr. A. J. China.

Because His Wife Enters Suit | The business men of Wilmington, One of the most widely current and N. C., having become convinced that inexplicable fallacies that are generated. for Divorce.

Mount Pleasant, Mich., Oct. 16.—As the bloody sequel of a divorce suit, Archie Woodin, 23 years old, is under arrest here charged with a triple murtoday by a bloody tragedy in which Mrs. Woodin's parents and the prisoner's 18-months-old daughter, were shot and killed. Woodin was over-powered just as he had turned the weapon upon himself and had inflicted a wound that is not expected to prove fatal. He visited the court this morning about 9 o'clock and looked over the papers in a suit for divorce which his wife instituted Oct. 10. From there he went directly to Isbel's hardware store where he purchased a revolver. There was no interruption in his career of crime from the moment his hands let go of the legal papers in the court house until his victims lay dead in two farm houses six miles apart. Having secured the weapon he first rode his wheel to the Gulick farm, Mr. and Mrs. Joseph Gulick being the first victims. Mr. Gulick was shot twice, once above the heart and once in the right side, and was instantly killed. Woodin then turned upon his mother-in-law, who was sitting in a rocking chair, and shot her in the throat. She ran into the kitchen and fell upon her back. Woodin followed and emptied three chambers of his revolver into her breast, killing her. A 14-year-old daughter of Gulick came in at the sound of the first shots and seeing the blood on her mother's neck, ran to the neighbors and gave road she heard the last three shots.

The murderer then dashed to his mother's home six miles away. He rode his wheel for one mile, then tearing off his coat and throwing it with his bicycle into a fence corner, ran a mile and a half through the fields. He made the last four miles on a borrowed horse. Passing the time of day with a group of apple pickers on his mother's farm, he entered the house as though nothing unusual had happened, and picking up his little girl, carried her into an empty room. In a moment a shot rang out.

#### There Were Thirteen Steps.

(From the Birmingham, Ala., Age-Herald.)

Slowly the list of deaths resulting from Friday's panic at the Shiloh Baptist Church continues to expand. One of the peculiar things of the affair which escaped notice until Sunday was discussed freely and awesomely by many of the negroes given even slightly to suspicion. This statement is that the number of steps upon which the victims were crushed is thirteen, number of steps leading to the first landing is thirteen and the panic occurred on Friday. To some of the older negroes, whose superstitions received full development long years ago, the statement of these conditions explains the entire affair. They say that act or acts, no matter by whom done, could have prevented the panic, and that Ballou, the negro lawyer, who, it is said, started the stampede, slipuld at once be released from jail. They think this explains the whole occurrence, and during the day they could not be persuaded to walk into the church without skipping at least one step. Of course this superstition is not taken seriously by the pastor of the church and the more sensible

#### Conductors and Motormen Blamed.

Pittsfield, Mass., Oct. 15.-The finding in the inquest following the accident in which President Roosevelt's body guard, Wm. Craig, was killed here last September, filed today, says that "the unlawful acts of James T. Kelly, conductor and Euclid Madden, motorman," of the electric car which ran into the president's carriage, "contributed" to the death of Mr Craig. The finding was by special Justice Chas. L. Hibbard.

Justice Hibbard finds that the horses attached to the president's carriage were going at a rate of six miles an hour and the car at from 15 to 25 miles an hour. He also finds that there was a misunderstanding on the part of the street car companies of the city as to what thoroughfares were to be closed to traffic during the president's passage through the streets. No evidence, the report says, was found to show that the car was running at regular schedule or that the officials of the road had given any orders for it to be run otherwise than under normal conditions.

#### A General of Militia.

Columbia, Oct 16.—South Carolina's reorganized militia has at last reached the dignity of a brigade. There are now in the service of the State three full regiments of infantry, so the Adjutant General's office announced today. It is the first time in some years that the State has had a full brigade, the infantry force heretofore, consisting of a battalion and two regiments. The fact that the State now has a brigade will almost necessarily lead to the commissioning of a brigadier general, and it is not unlikely that before the end of the week the order forming the brigade and naming the brigadier will be issued. It is understood that a well-known military officer will receive the commission.

O. R. Larson, of Bay Villa, Sunday. River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railway station and about twenty-five miles from the nearest town. Mr. Larson says: & Co. being treated by an eminent physician within a radius of thirty miles, to many of For sale by Dr. J. A. China.

THE TOBACCO MARKET.

Market.

the establishment of a tobacco market ally believed is called to mind by the in that city and the encouragement coming of the Adam Forepaugh and of tobacco growing in the vicinity would be of great and perament benefit to Wilmington have been working for shows dividing and showing in small sometime to secure the establishment of a warehouse. The Chamber of of the country on the same day and Commerce has taken the lead in the then coming together again in the movement and has made a thorough investigation of the business in North Carolina, having sent a committee on a tour of inspection and investigation In the Wilmington Star of the 5th

to the leading markets of that State. instant there is a report of a meeting of the Chamber of Commerce to receive the report of one of the committeees and to discuss the tobacco market question. The Star states that every member of the body was present and that "the formal written report, which was supplemented verbally and by letters in such a manner as to leave no doubt of the desirability of a successful consummation of the venture in the minds of the entire body."

The report was as follows: Wilmington, N. C., Oct. 14, 1902. Mr. M. W. Jacobi, Chairman Committee on Industrial and Business

Enterprises, Wilmington, N. C. Dear Sir:—Your Committee would respectfully report that, in accordance with your instructions, we have visited Goldsboro and Kinston, viewed the tobacco warehouses, prize houses and stemmeries, and are fully impressed with the belief, that Wilmington has as good advantages as either, and in some respects better, for the establishing of this business; that it is purely a business proposition, and if taken hold of in earnest, with the necessary amount of capital, it can be made profitable to those taking stock in the warehouses, and of immense value to the community at large.

The evidences of thrift at Goldsboro directly traceable to the sale of tobacco were numerous, and without exception, every merchant there with whom we talked was enthusiastic about it. At Kinston the transformation of the town within ten years is sufficient evidence of the wealth producing power there is in the handling of tobacco. What was ten years ago you, declaring you purified from all an old field, is today the busiest your sins before the Lord." "Shall scenes of activity and the bandsomest part of the city, representing invest-ments exceeding a million dollars. We have studied the question as closely as we could, and are convinced from what we have seen that it is possible within seven or eight years, the length October 10 about sunset, and last un of time these two points have been til the beginning of night on the foltobacco markets, to make of Wilming-lowing day. "And this shall be a ton a greater market than either of statute forever unto you; that in the them, and that it can be made proseventh month, on the tenth day of fitable, to all concerned, from the

producers of tobacco this year, in the shall afflict yourselves in the ninth sections visited, is about \$100 per acre. day of the month at even; from even Compare this with cotton at \$15 per unto even shall ye celebrate your Sabacre, and consider that it costs no bath." (Leviticus 28, 32.) more to produce one than the other.

Respectfully.
Wm. E. Worth,
Geo. O. Gaylord.

SOMETHING ABOUT DIAVOLO.

Coming With Forepaugh and Sells Brothers to Sumter Next Thursday.

Forepaugh and Sells Brothers' big shows were in Augusta Monday and the Chronicle says:

The great attraction of the show is Diavolo. He is a native of Corpus Christi, Texas. His name is R. B. Vandervert. He has been doing this act about eight months. He rides a very heavy seventy-six pound wheel and is not tied or attached to it in any way. It is said he gets \$1,000 per week, and the man who patented the

loop receives \$600 per week.
"To say that I have no sense of fear when performing the feat," Diavolo said in answer to a question, "would not be true. The stoutest heart that ever beat will quake, I believe, when taking this ride. My rate of speed at the highest point is sixty miles an hour, and when the conversion of force takes place just at the top of the loop, when the law of gravity would seem to pull me down and the momentum hurls me forward all sensation leaves the brain, and momentarily I know nothing. But for all the rest of the trip, I am perfectly myself, and could see a pin on the side of the loop." When asked if he always followed the broad iron band in the inside of the loop, Diavlo said: "I usually do, but if there are those among the spectators skeptical of my ability to guide the wheel I will sometimes leave the band and take another

track." "How did the idea come to me to make the ride? I had worked at Coney Island and the Pan-American Exposition on the loop the loop car. I supplied power for the car and was usually in it when it went around and in this way the sensation of making the loop disappeared entirely. I was as much at home when making it as when walking the ground. The notion came to me," he continued, "that I could make a bicycle do what the car did, although I had never ridden professionally, I proved that I could do it and got backing to build this loop. Then this show heard about it and engaged me.

#### Natural Anxiety.

Mothers regard approaching winter with uneasiness, children take cold so easily. No disease costs more little lives than croup. Its attack is so sudden that the sufferer is often beyond human aid before the doctor arrives. Such cases yield readily to One Minute Cough Cure. Liquifies the mucus, allays inflammation, removes danger. Absolutely safe. Acts immediately. Cures coughs, colds, grip, bronchitis, all throat and lung trouble. F. S. McMahon, Hampton, Ga.: "A bad cold rendered me voiceless just before an oratorical contest. I intended to withdraw but took One Minute Cough Cure It restored my voice in time to win the medal." J. S. Hughson

#### Wit In a Hospital.

There was a witty fellow out in a Michigan hospital who had to be fed on a daily diet of egg and sherry. His physician asked him how he liked it "It would be all right, doctor," he said. "if the egg was as new as the sherry and the sherry as old as the egg." --Washington Post.

POPULAR FALLACY.

MURDERS THREE PEOPLE Wilmington, N. C., Working For a Generally Believed in But Never Existed --- Strange Hold of An Untruth.

> Sells Brothers Enormous Shows United. It is the silly twaddle about big cities and towns in different sections large cities and showing as on exhibition. It is, as a matter of fact, one of the most absurd ideas in the world, and persons ordinarily sane upon every other subject will persist in believing that such things are done, notwithstanding the fact that it is absoultely so much without foundation in fact that such a thing has never even once been attempted much less being done as a regular custom. It would be just as easy to cut a horse in two and send him up two roads at one time and then when a main road is reached put him together again. It is simply a physical impossibility for such shows to be first divided and then united, and keep the public in ignorance of it. Any man who could invent a system that would make such a thing possible would have a fortune. It never has been done, it is not done nor will it, in all human probability, ever be done by these shows or any others. So, when the Adam Forepaugh and Sells Brothers Shows comes here they will be exactly the same as they were in New York, Brooklyn, Philadelphia and all the cities they have visited this season, and if anyone wants to gamble on it there is no possible chance of losing any money waged on that proposition, no matter what anyone says or be-lieves. They will be here in all their entirety on Thursday Oct. 23.

> > YOM KIPUR.

The Jewish Day of Atonement.

The tenth day of the seventh month -Tishri-is the most important and most solemn of all the holy days in the Jewish faith. It is the day of atonement, on which "God will forgive you purify yourselves?" (Leviticus 16, 30.) It is a day of fasting, prayer and repenting, confession of sins and supplication to God for forgiveness. The fasting begins on the ninth day of Tishri, which will occur this year til the beginning of night on the folthe month, ye shall afflict yourselves." tart. (Leviticus 16, 29.) "And it shall be unto you a Sabbath of rest, and ye

There are five services on the day of atonement-(1) evening service (Mairoe), (2) morning service (Shachrith), (3) additional services (Musof), (4) atternoon service (Mincha and (5) concluding service (Niloh). An essential element in all these services is the confession. Not only must the worshippers confess their sins before God, but they must also regret that they have sinned and resolve to abstain from sinning in the future. The confession is made by the whole congregation collectively, and those, who have not themselves committed the sins regret that the were unable to prevent them from being committed by others. The form of the confession is therefore in the plural—"we have been guilty."
