THE PROTOGOL SIGNED

Differences Between Venezuela and Powers Referred to Hague. N

BLOCKADE DECLARED AT AN END.

Minister Bowen as the Representative of Venezuela Has Ably Discharged a Difficult and Delicate Task.

Washington, Feb. 13.-Herbert W. Bowen, Veneuzela's representative in the peace negotiations at Washington, tonight signed with each of the allies representatives here a protocol providing for the immediate raising of the Veneuzelan blockade and for the reference of the question of preferential treatment of the claims of the allies against Venezuela to The Hague arbitration tribunal. The final formalities occurred at the British embassy. At 11.20 o'clock tonight. Mr. Herbert Deering, first secretary of the British embassy, announced to The Associated Press that the British protocol had just been signed and that signature of the Italian and German protocols would follow in the order named.

The Italian protocol was singed at 11.50 and the German protocol at 12.10 o'clock, the presence of Baron Sternberg at the White House musicale delaying a final close to the negotiations until after midnight.

Mr. Bowen signed a duplicate for Venezuela, Sir Michael Herbert for Great Britain, Signor Mayor des Planches for Italy and Baron Spec von Sternberg for Germany. Immediately on the signing of th last protocol cables were dispatched to London, Berlin and Rome announcing the fact. It is exepcted that the commanders of the blockading fleet within the next 24 hours will recieve their orders to withdraw their vessels at Individual liability of stockhold-

By the provisions of these prelminary protocols, which have required more than three weeks of constant negotiations, Venezuela makes two distinct gains, the immediate raising of a blockade from which she has been suffering for some weeks and the return of all the vessels, war and merchant, which have been captured by the allied fleet.

Great Britain, Germany and Italy receive advance payments of five thousand five hundred pounds each, Great Britain recieving her payment on the signature of the protocol and Germany and Italy within 30 or 60 days from date. Germany, in addition, will receive five monthly installments until the full amount paid here in advance aggregates \$340,000. As a guaranty for the satisfaction of their claims Mr. Bowen pledges the allies to share with the other creidtor nations in 30 per cent. of the customs of the Cabello. This percentage will be set aside beginning March 1 and retained in the Venezuelan treasury until The Hague tribunal decides whether it shall be distributed without preference among all the claimant nations, or whether the allied powers of Great Britain, Germany and Italy shall receive preferential payments. Italy by her protocol gains immedi-

at payments of her first class of claims, without further adjudication, as soon as the point passed on the remainder of her claims. In round numbers the adjudicated Italian claims amount to \$560,000; from which will be subtracted \$27,500 to be paid her sixty days from the signature of her first protocol.

The protocols in providing for reference of the question of preferential treatment to The Hague do not state in detail the methods of procedure by which the case is to be laid before the tribunal. This will be done in second set of protocols, the preparation of which will begin at once.

Upon the signing of the protocols tonight congratulations were exchanged by the four negotiators. Mr. Bowen then dispatched a brief, cablegram to President Castro informing him of the signature of the protocols providing for the immediate raising of the blockade.

Nature's Monument to Washington. Among the many monuments, to Washington is the one which every visitor to the Cape Verde islands will remember as one of the most colossal and marvelous freaks of natural sculpture in existence. Along the further side of the harbor of San Vicente, the principal town, rises a bold ridge of dark gray volcanic rocks, the crest of which forms an exact likeness of our immortal George, seemingly lying face upward. as if in a peaceful sleep.;

The hero's large, bold features, the backward wave of the hair, his massive shoulders and even the frill of the shirt front are all reproduced on a gio gantic scale with wonderful exactness. The strange monument, sharply outlined against the deep blue of the tropical sky, is one of the first objects that meet one's eye in approaching the island. Its gigantic proportions, with the boundless ocean for a background, form a portrait wonderfully true to nature and overpowering in its magnifiYou Will Be Happy if Well.
