## SUPPLEMENT.

### THE DIFFERENCE.

Tennyson could take a worthless sheet of paper, write a poem on it, and make it worth \$65,000—that's genius. Vanderbilt can write a few words on a

piece of paper and make it worth \$5,000,000—that's capital. The United States can take an ounce and a quarter of gold and stamp upon it an "Eagle Bird" and make it worth \$20—that's money. A Mechanic can take material worth \$5 and make it into

watch springs worth \$1,000—that's skill. A Merchant can take an article worth 75 cents and sell it for \$1—that's business. A Lady can purchase a 75-cent hat, but she prefers one that costs \$27—that's foolishness. A Ditch Digger works ten hours a day and

handles several tons of earth for \$3—that's labor. The Printer of this could write a check for \$80,000,000, but it wouldn't be worth a dime—that's tough.

## WHAT IS THIS MILL AND FACTORY SYNDICATE SALE?

Some are sure to ask. Others, who have attended or have heard of these bargain-giving sales elsewhere, already know. For the benefit of those who do not know, we explain. This "syndicate" is an "outlet" for the over-crowded mills and factories of the East to dispose of their surplus stock and broken lots of goods. This syndicate picks out the best store in each city and ships the goods and sends their representative to conduct the sale. The quality of the goods offered is absolutely guaranteed by us, and the prices we know to be one-fourth to one-half less than you can possibly buy the goods for in a regular way. These goods from the mills consist of Wash Goods, all styles Winter Dress Goods, Shoes, Clothing, Laces, Embroideries and Muslin Underwear.
