#### Murder at Denmark.

Denmark, March 29 .- The body of Willie Lucas was found near the union depot last night about 9 o'clock. The man had been dead something like an hour, death having been caused by a pistol ball, which entered the right side and passed through the body, piercing the heart. No one saw the shooting, though it is thought that it occurred as the trains were coming in at 8 o'clock. Circumsttances, however, pointed to John Love, a brother-in-law of Lucas, as the guilty party. The two men were together yesterday, they were drunk, and were seen in a buggy after dark. Love acted in a strange and unnatural manner when told of the death of Lucas. He was still drunk today. He claims to know nothing of the shooting. ## THE NEW PENSION ORDER.

Secretary Hitchcock Answers the Senate's Demand for Information and Defends His Order.

Washington, March 29.-The Secretary of the Interior today sent to the Senate a communication in response to Senator Overman's resolution, directing the Secretary to furnish to the Senate a copy of the order issued by the department enlarging the Pension Act of June 27, 1890, and amendments as to the disabilities of applicants for pensions and to report, by what amount the order will increase pensions annually.

Secretary Hitchcock in his reply

maintains that the order referred to is clearly within executive authority and in conformity with existing law and methods which have heretofore prevailed in its administration. He

New York, April 1.-R. G. ## JAPS VICTORS ON LAND.

Only Small Forces Were Engaged But the Japanese Held Their Ground Gallantly and Russians Had to Retreat.

St. Petersburg, March 29.-The Emperor has received a dispatch from Gen. Kuropatkin giving a long report from Gen. Mishtchenko, dated at 10 p. m., March 28, which says that an important engagement took place near the town of Chong Ju, in which the Russians were defeated retiring in perfect order.

The Japanese suffered heavily, but the Russian losses are not stated.

Cavalry and infantry on both sides were engaged. The Russians occupied a commanding position. The Japanese fought gallantly, but owing to their heavy losses were unable to occupy the position abandoned

by the Russians. Gen. Kuropatkin's report is as fol-"I have the honor respectfully to communciate to your Majesty the re-

St. Petersburg, March 30.—The Novoe Vreyma today executed a face editorial entitled "The Blindness of England," in which the paper argues that the success of Japan would be more injurious to Great Britian than to any other European nation, and points to the United States as the common rival of both. It descirbes Japan as America's sharpshooter," and says:

"Remember what nation, in the person of the commander of one of its men-of-war at Chemulpo, refused to join in the collective protest of the other foreign commanders before the Japanese destroyed the Variag and the Korietz. Remember who alone among all did not take on board the crews of our perishing ships. To the honor of England, the ally of Japan, it was not her representative, but the commander of an American ship.

"The Americans wish to convert the Pacific into an American Mediterranean. Would that be to the advantage of England? Does England not understand in her blind policy and hatred toward Russia that she is turning this ocean into an American Mediterranean? Sooner or later the European countries will recognize that America is their mutual enemy. Why should not Russia and England, in view of their possessions, combine?"

They will go direct to Vice Admiral Alexieff's headquarters at Mukden, where their future movements will be determined.

There is growing conviction in naval and military circles that Vice Admiral Togo's desperate endeavors to bottle up or cripple the Port Arthur squadron are for the purpose of definitely im-mobilizing it while the Japanese effect a landing at New Cwhang or some other point.

Vice Admiral Makaroff's capture of a Japanese steamer near an island between the extremity of the Liao Tung peninsula and the Shan Tung peninsula proves that he is watching the entrance of the gulf of Pe Chi Li.

It is not believed the Japanese will attempt to debark on the shores of the Liao Tung gulf while Makaroff's fleet

#### FOR GRAY OR GORMAN.

#### Gen. M. C. Butler's Preference for Democratic Candidate.

A New York dispatch says: Judge George Gray, of Delaware, deemed by many Democratic admirers the most available candidate for President of the United States, has informed intimate friends that he does not wish the nomination and has insisted that they must not work for him. Despite his absolute silence many persons have believed that he was willing to take the nomination and that there was a strong probability that he was the dark horse that would draw to the front at the St. Louis convention.

One of his most enthusiastic friends is former United States Senator M. C. Butler, of South Carolina.

"Judge Gray would be an ideal nominee," said Mr. Butler today in the Waldorf-Astoria. "I served twelve years in the United States Senate with him and I know him to be one of the ablest men in public life in this country. He is a mn of affairs, he is conservative and he is a splendid lawyer. I had a long talk with him recently and in the course of the conversation he said:

"Butler, you know me well enough to believe what I am going to tell you. I do not want that office the Presidency. I have a most congenial lifeposition, the members of my family are well provided for and I: have seen and I know too much of the trials and troubles that fall to the lot of the President of the United States to want the office.'

"I know that Judge Gray was sincere when he said this," continued Mr. Butler. "My personal choice for the presidency would be either Judge Gray or Senator Arthur P.: Gorman, of Maryland. I deem Senator Gorman one of the most accomplished men in public life, and I have known him for

many years.
"If South Carolina has got to that point where it will send to the St... Louis convention a delegation instructed for Hearst, my counion is that the State should have a political guardian. It is absolutely impossible for me to conceive of the State being guilty of such political impropriety. This is a plain statement of, fact, and is not due to personal animosity towards Mr. Hearst for I do not know him, but I cannot conceive for a moment that many Southern States will instruct their delegates to vote for such a man for the Presidential
