

THE EDWARDS ESTATE DIVIDED.

A Large and Advantageously Located Tract That Will Soon be Divided in Building Lots.

The Edwards estate, consisting of the residence of the late Mrs. Julia Edwards and 120 acres of land, bounded by West Liberty street, the land of Mrs. J. J. Barrett and others, Council and Factory streets, the A. C. L. railroad, John street and the lands of the late T. B. Jenkins and others and lying on both sides of Cemetery avenue, was on August 16, divided between the heirs, a satisfactory agreement having been reached by the parties in interest. The heirs are Mr. E. A. Edwards and Mrs. R. L. Wright, the only surviving children of Mrs. Edwards, and Messrs. John F., T. B. and Ed. A. Jenkins, her grandsons.

The estate was divided into three equal lots of 40 acres each. Mr. E. A. Edwards receives the residence and forty acres adjacent thereto, Mrs. Wright receives the remainder of the land lying between the portion of E. A. Edwards, West Liberty Street, the land of Mrs. Barrett and others, Council street and Cemetery avenue and a lot sufficient with this tract to make up forty acres, lying on the South side of Cemetery avenue and abutting on John street. The Messrs. Jenkins receive forty acres bounded by Cemetery avenue, Factory street, the A. C. L. railroad and the lot aforementioned as set off to Mrs. Wright. They have divided their 40 acres into three equal lots, one for each.

A Slight Accident.

A negro, Hampton James, while assisting in sawing logs at the Penn Lumber Company mill Wednesday sustained a slight injury. The logs are now turned by a steam mechanical device termed a "nigger" which is worked by pressing a lever on the floor of the mill with the foot; the lever was pressed too hard which caused the log to fly up and strike the negro in the side. He was unconscious for a short while, but is well and at work today. There was no truth in the rumor that the accident was fatal.

DeWitt Is The Name

When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure, unadulterated Witch Hazel is used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name E. C. DeWitt & Co., Chicago. Sold by O. R. Davis.

BISHOPVILLE NEWS GLEANINGS.

Items of Interest Clipped From the Vindicator.

Misses Louise and May Baskin after a grand trip to Asheville and Hendersonville, N. C. have returned home. Miss Netta Corbett of Mayesville and Miss Helen Beyward of Charleston are on a visit to Capt. and Mrs. H. D. Corbett.

Mr. J. L. Parrott and daughter Miss Carrie May, left for Chick Springs Wednesday morning, where they will be rejoined by Mrs. Parrott who has been spending sometime with her daughter Mrs. R. T. Marsh of Black Creek.

The many friends of Rev. W. A. Gregg will be pleased to hear that he is able to be up again.

Mrs. Alice Tisdale of Sumter is the guest, of Miss Louise Baskin this week.

Mr. J. H. Sanders and family have moved into town and now occupy the cottage of Mr. L. L. Baker on Lee street. Mr. Sanders will be manager of the Sanders Mercantile Co. that will open up business in the Consar new brick store in a week or two. We welcome him and his family to our town.

L. D. Jennings, Esq., of Sumter was over last Friday to have a settlement with the Supervisor for Lee county's indebtedness to Sumter, but the Supervisor told him he had no authority to take any steps until the commission appointed by the Governor had made their report to the Governor and he submit it to the new Legislature for approval. Then when he is notified officially of this report and instructed what to do he will be ready to take steps for a settlement.

The Biggest Ever Seen.

Mr. J. B. Roach, who makes a specialty of raising bell pepper for market, has left at this office a pepper that measures 17 inches in circumference and weight 15 ounces. It is the largest pepper ever seen here, and while it is a little larger than the average of those grown by Mr. Roach, his peppers are all mammoth specimens. He is the only person who has the seed of this variety and he will sell neither the seed nor the fully matured peppers. He has a large crop this season and the demand for the peppers for pickling is greater than the supply.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at a great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright of New London, New York. For sale by China's Drug Store.

A Pleasant Dance.

From the Daily Item, Aug. 18.

One of the most enjoyable informal dances of the season was given last night in the spacious dancing hall of the Cotillion Club. The music, which was furnished by Westberry's orchestra, was particularly good, and dancing continued until 2 o'clock. The german was led by Mr. W. S. Graham, who executed the various figures in his accustomed graceful manner. The evening proved to be a very enjoyable one.

Those present were: Mr. and Mrs. Alnutt, Mrs. M. B. DeLorme, Mrs. Archie China, Mrs. Coyner, Mrs. De Haven, Mrs. Manson, Miss Pickens, of Charleston with Mr. A. G. Fishburne, Miss Nina Seay, with Mr. H. G. Moses, Miss Julia Tew, of Columbia with Mr. Julian Levy, Miss Rose with Mr. Robert Keels, Miss Alberta Schwerin with Mr. R. S. Moise, Miss Julia Schwerin with Mr. Cecil Schwerin, Miss Ester Gentry with Mr. Waverly Levy, Miss Sadie Seay with Mr. James Jennings, Miss Cornelia Kingman with Mr. William Seals, Miss Minnie Sims with Mr. James Lenoir, Miss Lucille DeLorme with Mr. Geo. D. Levy; Stags, Messrs. E. D. Lee, Jr., Dr. Kenned, Irvin Cason, C. B. Yeaton, S. W. Gillespie, B. J. Gibson, Hampton Flowers, W. S. Graham, Robert Warren, Alex Broughton, Murr Hall, Atwood Yates, Ashleigh Wood, David Loring, Warren Moise, Marion Scott, N. B. Murray, Graham Moses and Mr. Temple.

Hog Raising.

No one can truthfully say now that hogs cannot be profitably raised in Sumter county. On the farm of Messrs. J. J. Harby and E. H. Moses, there are now 180 rooters of the soil, and they are making a success of the industry.

STRIKERS TRYING TO GET TEAMSTERS TO STRIKE.

Rioting in Chicago Due to Strikers

Chicago, Ill., Aug. 19.—Strong influences are being exerted in councils of labor leaders, in favor of extending sympathetic strike of teamsters. Several officers of the teamsters are earnestly urging that line of action. The chances are against the spread of the strike, because President Donnelly and National President Shea, of teamsters are opposed to it. Both say it would not materially help the stock yards strikers. Donnelly claims that they can win without involving any more outside men. No talk heard of peace negotiations.

Chicago, Aug. 18.—The fiercest riot of the stock yards strike occurred this evening, when hungry dwellers of the packing house district sought to capture and kill eight steers which had escaped from the yards. The mob numbered 40,000 persons and the streets were cleared only after 120 policemen, in five squads, had charged the rioters on four sides. Shots were fired and scores of rioters were clubbed.

A bullet grazed the cheek of Police Lieut. George Prim and a police sergeant was stripped of his star and club by a woman rioter. One man was so severely battered that he was sent to the Englewood Union hospital. Few arrests were made, as the police contented themselves with dispersing the mob. The temper of the police was shown, however, when a call for reinforcements was answered by a number of patrol wagons, followed by an ambulance. In no previous riot were clubs used so freely.

FIGHTING THE BOLL WEEVIL.

Prof. Chambliss, of Clemson College, Talks of the Pest.

Planters and persons who are anxious to know all about the boll weevil, the little insect that is playing havoc with the cotton in Texas, and whose approach is most dreaded in this section, will very soon be able to see bottled specimens, also photographs of the insect and their work, in the various towns of the State. The South Carolina State board of entomology, having become aware of the fact that several farmers in their anxiety and desire to find about the boll weevil, had imported specimens and that others had been known to bring cotton seed from Texas into the state, sent their entomologist, Prof. Charles E. Chambliss, to Victoria, Texas, and there, in company with the United States experts, a study of the bugs was made and sufficient specimens were obtained to give the farmers a view of them without the least danger. Prof. Chambliss has returned, after having spent a month in Victoria, and is now prepared to take active and positive measures should it develop that the weevils have reached South Carolina.

Prof. Chambliss is now in Charleston and last night, in conversation with a reporter, said that he would place on exhibition in the counting rooms of the News and Courier a tube containing weevils as shown in the three stages of larva, pupa and adult. A photograph giving different views of the affected cotton and the insects will be placed in the office later.

Regarding the life and habits of the boll weevil, Prof. Chambliss said that the female deposited her eggs in the immature anthers of the square and that the larva emerged in three days. An abundance of rich nitrogenous food is at hand and the larva feeds here for eight days within the square, and then changes to the pupa state and remain so for four days. The mature insect then emerges, but as it takes two days for its skeleton to harden it remains and then cuts its way out. A week is then spent feeding externally on the squares, after which the females begin to lay eggs. The insect deposits one egg at a time in a hole cut deep into the square and lays only about five to seven eggs a day, continuing for fifty to seventy days. The only external indication of the presence of the eggs is a wart on the boll. Three days before the square drops it flares. The time from egg to adult is about twenty-four days and a part of this time, about half, is spent while the boll is on the ground after dropping off the plant. The boll weevil that comes forth late in the fall finds refuge in brush and leaves and hibernates until spring.

In regard to the Guatemalays Prof. Chambliss said that he had observed them while at Victoria, but that they had not really had a good trial yet. It was not possible to say very much about them at present.

Clemson College was the second institution in the South to take up the matter of studying the boll weevil, and the enterprise and forethought of the entomological board in sending Prof. Chambliss to Texas will certainly commend it to the farmers of the State. The board, which is made up of the trustees of Clemson, is composed of M. L. Donaldson, chairman, J. E. Wannamaker and L. A. Sease. Prof. Chambliss's mission to Charleston also includes the study of the rice interest and the insects that annoy and injure the crop of the rice planters of this section. Dr. Metcalf, the botanist, also of Clemson, is also here in connection with the investigation of the rice fields, and he will work with Prof. Chambliss in the study of conditions.—News and Courier.

Pierpont Morgan in Court.

New York, Aug. 18.—Mary J. Miller of Columbus, Ohio has filed a petition in the supreme court here asking for issuance of subpoenas directing David Sinclair, Charles O. Thompson, J. Pierpont Morgan and two clerks in Morgans office to appear before commissioner John H. Regan to testify as to what they know about the estate of James Miller. Petitioner says she is the sole heir and administratrix of said estate and she filed an amendment to the complaint with the probate court of Franklin County, Ohio, in the proceeding instituted by her touching upon concealment and conversion of held esau of Miller. The value of the estate is large.
