THE WATCHMAN AND SOUTHRON, APRIL 11, 1906.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to lue medical fraternity. Catarrh beiny, a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimorials.

Address J. J. CHENEY, Toledo. O. For sale by all Druggists, 75c. Take Hall's Family Pills for Consti-3 18-1m pation.

*What good does it do to eat if your stomach fails to digest the food? None. It does you harm-causes belching, sour stomach, flatulence, etc. When the stomach fails a little Kodol Dyspepsia Cure after each meal will digest what you eat and makes the stomach sweet. All druggists.

CRUSHED BY CARS.

Yard Conductor Alderman Fell Under the Train and Was Killed.

A. S. Alderman, a very popular young Coast Line yard conductor, was killed at the transfer yard this morning by the train running over him while shifting. No one saw the accident the switchman was some little distance away, looking after the switch, the brakeman was about two cars off putting on the brake of a car that was to be cut off and these were the only men near at the time. The tragedy occurred about 4 o'clock in the morning. It is supposed that Conductor Alderman went between the cars to open the knuckle of coupler and that his foot caught in the guard rail and he was thrown beneath the cars. His outcry was heard by the two men near and the engineer. Mr. Rowell was signaled to stop, so that only one car had passed over the body, but it was frightfully lacerated.

As soon as possible the authorities of the road had the body taken up and carried to Waters' undertaking establishment where it was prepared for burial and where an inquest was held this morning by the coroner.

. Mr. Alderman has been a resident of Florence about five or six years, he was a naive of Rose Hill, N. C., and was about 30 years of age. He had been in the service of the Coast Line for a number of years and was a faithful and earnest employee. He was a member of the Brotherhood of Railway Trainmen and of the Order of Railway Conductors. He was married about three years ago to Miss Maggie Bradham of Sumter and they

have one child, little Albert. The tragedy is a very sad one, and his wife, who was preparing the morning meal for him at home when the shock of the news was received, has the sympathy of the whole communnity .- Florence Times, April 3.

*Sick headache results from a derangement of the stomach and is cured by Chamberlain's Stomach and Liver Tablets. Sold by all druggists.

The Mutual Ice Factory will not be started any too soon to supply the spring demand for ice. Many people are already wanting the ice man to begin daily delivery.

*Don't drug the stomach to cure a cough. One Minute Cough Cure cuts

THE ELLIOTT HERBARIUM.

Valuable Work Found by Prof. Rea of the Charleston Museum, While Examining Rubbish.

Charleston, March 30 .- While ex-

amining rubbish in the basement of the library building, preparatory to destroying it, Prof P. M. Rea, director of the museum, discovered volume 21 of the Elliot herbarium, which is thought to be the last volume of this famous plant collection.

The finding of the volume, whose authenticity is beyond question, is regarded as one of the most fortunate discoveries in the world of science in recent years, completing, as it does, the Elliot hebarium. Botanists all over the world will rejoice in the announcement of the finding of this missing volume, which narrowly escaped de-10 struction by fire. The College Charleston owns 20 volumes, which have often been consulted by expert botanists and scholars from many seats of learning and institutions and the missing number will add to the interest of the collection. The Biltmore botanists have recently been lending Prof. Rea assistance in his work of preserving these valuable contributions to

science and a report was to be printed by the Biltmore botanists on the herbarium, which will now be delayed by the finding of the missing volume, which will also be reviewed in the article to be published.

Several cultured citizens of Charleston expressed themselves in the heartiest way today upon learning of the unearthing of the missing volume, and Prof. Rea was warmly congratulated upon his find.

COTTON CONFERENCE MAY 1.

Delegates to Attend Meeting From All Parts of the World.

Much has been written of the great cotton conference which is to be held in Washington May 1-2. Representatives will attend from the great cotton associations of this country and England, from the large cotton exchanges and those organizations which are directly or indirectly interested in the growth or handling of the staple. Addresses will be delieverd by the foremost cotton experts of the world. Subjects will be considered which are of vital interest to the trade in all of its branches.

The sessions will be held in the new

Trustees of Willis School District in Marlboro County Decline to Receive

REFUSES DISPENSARY PROFITS.

Whiskey Money.

Bennettsville, April 4 .- One of the school districts in this county has absolutely refused to receive and through the trustees, and by a vote of the patrons, rejected the public funds due them accruing from the dispensary for sale of liquor. The question has been discussed in that section for a long time, which ultimately terminated as above stated.

It is Willis school district which has decided not to accept any more of the dispensary money for the schools in that district. The trustees took a vote on the proposition last Friday and decided by a majority of two not to accept any more of the dispensary school money. Any deficiency will be made up voluntarily by the eight trustees who voted in favor of the idea.

The Game Act.

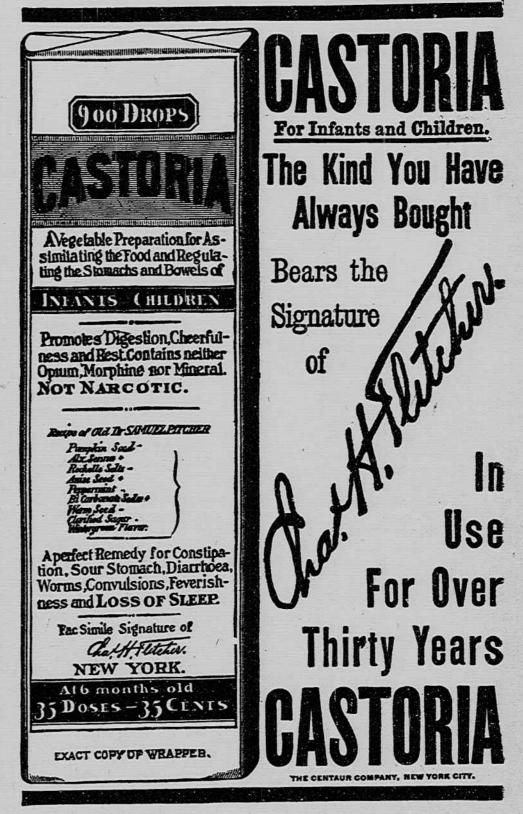

We reproduce the following extract from the Columbia Record as throwing more light on the misunderstanding that seems to exist in regard to the new game law. It will be clearly seen from the act that the season began the first of March:

A party of about fifty Columbia sportsmen have organized to make a trip to Fort Motte this week to shoot birds, apparently unmindful of the fact that the last legislature amended the game law so as to provide for a closed season from the 1st of March instead of from the 1st of April, as heretofore. A similar misunderstanding seems to prevail throughout the State. A State officer's secretary received an invitation today from a Yorkville party to go out for a hunt next week, "before the season closes," but he wired his regrets, saying the season had already closed.

Now Lexington is exempted so as to have its closed season begin the 1st of April. Columbians may therefore, cross the Congaree and hunt to their heart's content until the 1st of next month.

The new law provides: "It shall not be lawful for any person in this State between the 1st day of March and the 15th day of November, except in the counties of Beaufort, Hampton, Dorchester, Colleton, Charleston, Earnwell, Berkeley, Aiken, Oconee, Lexigton, Fairfield, Saluda,

Georgetown and Clarendon, wherein T7 777 O the time shall be between the out of the throat, lungs and bronchial and 2, from 10 o'clock in the morning of April and the first day of November in any year hereafter, to catch, kill, or injure, or to pursue with such intent, any wild turkey, partridge, quali, woodcock, Mongolian or other pheasant, or at any time within five HORSES AND MULES. years from March the first, 1906, to sell, offer, or expose for sale, ship or export for sale, or to pot hunt, net, trap, or by firelight to catch, kill or injure, or to pursue with such intent, any of the birds named in this section; nor shall any person or persons destroy or rob the nests of any said birds. And any person so doing shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not more than twenty dollars or be imprisoned not more than thirty days. Provided, that nothing in this act shall prevent the importation for sale of any said birds. Provided, further, That the handling, possession, control or ownership of any of the said birds, sold, offered or exposed W. A. BOWMAN, Pres. for sale, or shipped or exported, shall be prima facie evidence of a violation of this act, and the burden of proof shall be upon any person so handling, posessing, controlling or owning of

the mucus, draws the inflammation tubes, heals, soothes and cures. A quick cure for croup and whooping cough. Its constantly increasing use for many years tells of the fact of its absolute usefulness. Sold by all drug-

The Civic League should try its persuasive powers on the Atlantic Coast Line officials to induce them to beautify the grounds around the passenger station. This is a work that the railroad should do and that many railway systems take pride in doing without urging from outside, but as the A. C. L. has heretofore done very little in this way the Civic League might succeed if they will do a little missionary work on this line.

Stomach and Liver Trouble Cured. *Orine Laxative Fruit Syrup cures stomach and liver trouble as it aids digestion, and stimulates the liver and bowels without irritating these organs like pills and ordinary cathartics. It cures indigestion and sick headache and chronic constipation. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. Durant's Pharmacy.

The next improvement in the fire department of Sumter should be the substitution of automobile hose wagons for the horse teams now in service. The change would result in a saving on the cost of maintenance. The feed bill for four horses is a large one and the cost of gasoline for two hose wagons would be small in comparison. Which hose company will make the move to get in line to make the Sumter fire department strictly up-to-date?

*Nothing will relieve indigestion that is not a thorough digestant. Kodol Dyspepsia Cure digests what you eat, and allows the stomach to restrecuperate-grow strong again. few doses of Kodol after meals will soon restore the stomach and digestive organs to full performance of their functions naturally. Sold by all druggists.

ern Cotton Association, the National Ginners' Association, the National Association of Manufacturers, the New York Cotton Exchange, the New Orleans Cotton Exchange, the Liverpool Cotton Exchange, the Arkwright Club, Boston, Mass., and the International Federation of Master Cotton Spinners and Manufacturers.

A Correction.

To the Editor:

The undersigned noticed a few days ago, in an article copied from The News and Courier relating to the late Mrs. Mary Scrimgeour Whittaker, in which it stated that she had survived nine (9) brothers and sisters of which she was the oldest; this, however, is a mistake, as we are blessed to have still with us the last of that illustrious generation of the Furman family-Miss Eliza Furman-who, in her 78th year, is not much blessed with this world's goods, but has that which is above riches, a heart full of love and a spirit of kindness to all.

She has the honor of being a sister to the late Dr. Furman, of which she is justly proud.

However, a loving nephew cannot bear to see it in print that she is dead without making haste to correct same. We hate to think of the time when it will be possible for such a statement to pass uncorrected.

Her main labor of love consisted of assisting in raising three generations of nephews and nieces, all who love and revere her.

A desire to honor where it will reach the ears of this loved one prompts this article from A Nephew.

Sumter, April 4, 1906.

Cotton Association.

A. E. Stuckey, of Sumter, State organizer of the Cotton Association, was in the city today and addressed a meeting of the cotton association at the court house. He spoke particularly on the warehouse system and urged co-operation in it and the raising of home supplies. The county association elected J. B. McBride county organizer. He will get to work as soon
