REMBERTS.

Remberts, Nov. 29.—Today is Thanksgiving day, but few of us are able to celebrate and enjoy our Thanksgiving dinner this year, as the short crop has left us with little money to spend. In former years when a good crop was made we could buy plum puddings, oysters, celery, olives and such things that go to make up a good dinner, but this year we will content ourselves with a simple repast, thanking God for His blessings and protection over us during the past year.

Our farmers have about finished planting oats, and a good stand is reported from all sections. The acreage is about the same as last year. The labor question is the greatest disturbance at present in this community, and all agree that the present existing lien law has caused it all. Most of our farmers hire and employ our farm laborers for ten months, giving them so much in money, also two acres of land. As soon as they commence work in January they go at once to the country merchant, say Mr. A, and give him a lien, also a labor contract for about \$10 on his two acres of land. In a few weeks his lien is taken up. Then he goes to Merchant Mr. B. and repeats the same and as soon as that lien is out he goes to Mr. C, repeating the same thus giving three liens and three labor contracts. If he has a good crop year he comes near paying out and whoever employs him the next year has to pay the merchant \$10 or \$15 to get him, but this year he makes a complete failure and rather than go to jail or the chain gang, he leaves the county, and many have already left and gone out of the State. Now, if the next legislature fails to abolish the lien law, it will only be a question of a few years longer that labor can be had on the farms. It is true if the lien law is abolished many of the small farmers will feel the effect the first year, but as soon as our country gets on a cash basis you will see every line of business prosper and not until then.

KERSHAW COUNTY NEWS.

Camden, Nov. 28.—With the past two weeks of fair weather all progressive farmers are making preparation for another crop. Our advice is to run two-horse plows as long as ground is dry. With everything equal land that is plowed deep will make a third more than with shallow breaking. Turn over all land that was in corn and peas, and let the vines and stalks rot. We will get 15 bales of cotton to the plow this year where some of our neighbors won't make the rent. The only difference we make through preparation. In place of resting all the winter, we plow every day that is dry. We are breaking 40 acres of land this week that a few years ago made a bale per acre. This year the place made one bale, or a bale to 40 acres.

Work is progressing on the Hermitage cotton mill dam, that broke some time ago.

Every few days we see some merchant pass with an old plug mule to pay a several hundred dollar lien.

There is a certain class of farmers who get advances that should be on some good man's contract. Every time we see a man lose on such a lien we have no sympathy for him. The lien law is a curse to South Carolina, and should be repealed. We have heard it said that we would have better laws, but for the fact that the lawmakers are sometimes as dishonest as the public and make laws to dodge their own debts.

At the last quarterly conference of the Rembert and St. John circuit the following resolution was offered and ordered published in the Item:

Whereas our presiding elder, Rev. H. B. Browne, having closed his quadrennium with us, therefore be it resolved:

1st. That we have been uplifted by association with him and benefitted by his wise counsel.

2d. That we fully appreciate his labors among us; he, by his zeal and energy having made the Sumter district, in every particular, among the first in the South Carolina conference.

3d. That we pray that God's richest blessings may rest on him and family in his future fields of labor.

WHAT IS CATARRH?

Simple Way to Overcome the Dangers of this Disagreeable Disease.

Catarrh is an inflammation of the mucous membrane of the nose, throat and lungs, with many annoying symptoms. In this climate there are few who do not suffer from this disagreeable disease, often in a chronic and dangerous state.

Fortunately, within the last few years, a simple and reliable treatment for catarrhal troubles has been found—Hyomei, a combination of healing and germ-killing balsams, that, when breathed through the neat pocket inhaler that comes with every outfit, reaches the tiniest cells in the respiratory organs, carrying its healing and health-giving properties to every part where the catarrhal poison is present.

Used in this way, Hyomei kills all catarrhal germs, drives the poison from the system and heals all irritation that may be present in the mucous membrane.

If you have the ordinary catarrhal symptoms, such as offensive breath, burning pains in the throat, cough raising of mucous, difficulty in breathing, sneezing, huskiness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

A complete Hyomei outfit costs but \$1, extra bottles, if needed, 50 cents, and is sold by J. F. W. DeLorme under an absolute guarantee that it will cure catarrh or money will be refunded.
