Mr. J. F. Glenn, the local representative of Alex. Sprunt & Son, paid 12 cents Monday for a lot of cotton that had been in storage since last fall. Coroner Flowers held an inquest Monday over the body of the dead negro who was found that morning in the lake near the Camden junction. The body had apparently been in the water for a week or more and was badly decomposed and swollen. No one could identify him and so far as could be ascertained he was a stranger in the community. There were no marks of violence on the body and death was apparently due to drowning.

Farmers are complaining of poor stands of cotton, due to defective seed. The seed from last year's crop have proved to be very defective and in many places the stands are so poor that replanting has been necessary. Those farmers who had seed left over from the crop of 1905 and used them have gotten stands.

A Mission for Non-Catholics.

Beginning on Sunday evening, May 12th, and continuing for one week the Rev. Joseph F. Mahoney, a graduate of the Apostolic Mission House Washington, D. C., will deliver a series of lectures for non-Catholics in the Chapel of St. Joseph's Academy, East Liberty street. These lectures will not be controversial in character, but will be a plain and explicit expression of the principal points of Catholic doctrine with the reasons upon which the belief in these doctrines is founded.

This is an age of a keen and widespread desire for knowledge on all important subjects. It is also an age which is no longer satisfied with obtaining its knowledge indirectly when the original source is available. Everyone who wishes to speak intelligently on any subject must also desire to be well informed on that subject and to obtain his information from an authoritative source. No doubt, then, many who are truly desirous of learning what the Catholic Church really teaches will be glad to avail themselves of this opportunity to hear from an authorized representative the doctrines of that church explained.

Father Mahoney is an earnest and graceful speaker. He has given missions in Beaufort, Georgetown, Summerville, Aiken and Charleston in this State, and has met with a most cordial reception from the citizens of those places without regard to their religious belief.

Every one is most cordially invited to attend these lectures. Of course it is understood that there will be no charge for the lectures.

OFFICERS HAD TO CLEAR OUT.

Officers of the Law Capture a Big Distillery and Two Blockaders, But While Help Was Being Secured They are Required, at the Points of Winchester, to Give Up Their Find.

Greenville, May 3.—Moonshiners gave a party of officers a big surprise in the Dark Corner section of Greenville County yesterday by surrounding a distillery, which the raiding squad had captured, and, at the point of Winchester rifles, demanding and effecting the release of two prisoners.

It was a daring piece of work even for blockaders and rather out of the ordinary for these times. Since the Carey-Cothran law went into effect Magistrate Rector, of Richland Township, has been active in destroying illicit distilleries.

Wednesday night he started a raid near the North Carolina line and early Thursday morning a big distillery was located. The magistrate was accompanied by two constables. One was sent off to Tryon to notify the deputy revenue collector at Greenville, while the magistrate and his constable held the still.

Just at daylight three men came to the distillery, presumably to start operations. Two were captured, but one escaped.

Half an hour later the distillery was surrounded by mountaineers, who covered the officers with their rifles and effected the release of the prisoners. The mountaineers then destroyed the distillery and 110 gallons of liquor in order to prevent the property falling into the hands of the Federal Government, several women assisting in the work. Magistrate Rector and his constables were told to clear out and they lost no time in getting away.

A number of warrants will be sworn out for the arrest of the guilty parties.—News and Courier.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.  
It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had.  
For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend
