STATE FINANCES SAFE.

BANK EXAMINER HOLLEMAN MAKES A STATEMENT.

State Banking Institutions Reported to be in a Splendid Condition-Mr. Holleman Favors Clearing House

Columbia, Nov. 8 .- Mr. Lee G. Holnan, the State bank examiner, was much pleased to learn yesterday the action of the South Carolina bankers' recommending the issue of ring bouse certificates by Columand Charleston.

"I believe that it will give us the lating medium we need just "he said, "and therefore will rewe the situation entirely. I have besitancy in saying that the banks this State are in splendid condition there is not the slightest danger any trouble. The guarantee of the Mt of the Charleston and Columbia would be behind such certificas and of course this is all that is ded to make the paper just as valable se government money.

The banks in other sections have taking the currency away and in to move the cotton and in fact mre enough for the ordinary evby business it may become necesto make currency more elastic. re, I am very much pleased the action of the bankers, and ope that the Columbia and Charlesbanking institutions can see their clear to comply.

The panic in the country will be within 30 days. I believe that are getting easier now, but it be fully 30 days before confidence d. And that is all the panic lost confidence."

AUTOMATIO TYPEWRITER.

es in Danger of Losing a on Account of This Wonderful

Among the labor-saving devices of contury, the comparatively recent of the automatic typewritsechine which is intended to be by a writer in the Circle major would seem to combine huin intelligence with hitherto unsown accuracy and rapidity of

This machine, the invention of a bus man, will produce any Ber of letters in the original form. will fill in name and address, and do the work even more accurately an the ordinary operator. Most conarkable is the speed with which sters are turned out; hundreds of so have been written by this inon in a few seconds over a min-

The statements sound preposterous, but the accomplishments of this wonmachine have been proved, all. Who pays the fiddler? and while the model that is at presactually at work performs these wonderful feats, another model, in source of construction, will eliminate attrely the stenographer and transcribe, from dictation, a business man's mail without the slightest attention away in his last resting place old further than that of turning on the electric current. The machine will in the Confederate war as a drummer, sutomatically break the circuit and also in the Spanish-American war, stop working when all of the letters sotwithstanding he was rejected on have been written.

unlike an ordinary typewriter, except guards. Parties who attended his fufor the fact that it is somewhat larger neral say the procession was immense, it is in operation the keys strike the negroes, Mr. Fulton, Presbyteagainst the paper in front of the platen exactly the same as though it was guards, taking part in the exercises. being actuated by the finger movements of a human operator. The times as fast as that acquired by a stenographer, and it will write both crat. Any negro who will can go and from left to right and right to left. do likewise. This, in a measure, accounts for the wonderful speed acquired. The movement of the carriage is thus in both afrections, and while it writes the left to right line forward, the next line is written backward, providing a continuous line movement.

Lines may be justified like type. This is impossible on any typewriter made today, but with this machine it so possible, and may be done as easily and accurately as when the lines are permitted to run unevenly at the right-hand margin.

Names and addresses may be changed at will. A circular letter to be written to any number of people may be put on the machine, the light switch connected with the motor, the current applied, and it will write until the work is done. When the last letter is finished a mechanical device will ring a bell and the mechanism will stop. Tihs feat alone is wonderful in itself, and has never before been accomplished. With this machine every letter is an original and

actually typewritten letter. The other model machine-that is being completed, and that early tests man may dictate his letters just be- Store.

fore he goes home at night, turn on the electric current, and the next morning come down and find all of his letters written and ready for signature. JAPANESE ARE FRIENDLY.

MINISTER GIVES OUT INTER-VIEW THAT IS REASSURING.

Declares That Important Causes Demand a Lasting Friedship Between the United States and Japan-Sentiment of Japan is Stated.

Tokio, Nev. 7 .- The official silence so long consistently maintained by Japan on the subject of the relations of the United States and Japan in connection with the persistent reports of friction, was broken today by an Associated Press interview with Minister of Foreign Affairs Hayashi. He prefaced his statement by ex-

pressing the hope that a sincere pronouncement by the foreign minister of Japan and its publication through the Associated Press would prevent further misrepresentations and finally result in discrediting those who are constantly circulating false and harmful reports. He spoke not only as a the sentiment of the entire cabinet and the public.

Minister Hayashi then said that the relations between Japan and America were as smooth and cordial as ever and the cause of civilization as well Housekeepers need no longer go to as community of interest demanded their lasting peace and friendship. That full weight may be given the interview, it is proper to state that it was granted by the foreign minister only after lengthy consideration of the propriety of an official statement sociated Press on every hand by politicians, newspapers men and others.

Minister Hayashi admitted that the immigration question was the most serious matter and was uppermost in the public mind but he was positive that it would be settled without friction. Already it practically has been decided. One thing certain is that the conducted in the larger cities, both Japanese government is not solicitous for the immigration of its people into any country. During the interview Minister Hayashi said: "The only thing causing doubt in

the mind of the public here is the immigration question, but far from bewho have earned the name by a preeminently just and liberal policy in the extreme East during the last half century. According to reports from various sources dealing with what is called the Japanese situation. it appears certain that a portion of the press of the United States, bent on representing an ultimate conflict with Japan is inevitable and in order, apparently, to subserve this special purpose, events of trifling importance are magnified into matters portending grave consequences. Facts that can be explained are commented on and called into question on some far-fetched, impossible hypothesis, and the unthe vague belief that the relations of Japan and the United States are anything but cordial and smooth. These misrepresentations are incomprehensible and we are unable to explain A delightful supper was served in them except upon the ground of finan-
