**WEDGEFIELD.**  
Wedgefield, Nov. 9.—Quite a number of our citizens went over to Sumter last night to see President Taft. When last seen he was still wearing that smile.  
The slumps in the price of cotton is not worrying many of our planters for the most of them sold as it was gathered along through the fall.  
The Santee Baptist Association meets with the Baptist church here this week, commencing Thursday and lasting through Sunday.  
Rev. D. A. Lewis, of Columbia is spending a few days here with friends.

Miss Inez Wells is visiting in Wedgefield.

Miss Katie Furman, of Sumter, is visiting at Dr. R. B. Furman's.

**EGYPT.**  
Egypt, Nov. 10.—We have been having fine weather to pick cotton for the past two weeks, but unfortunately the most of the cotton has been picked and sold. A few farmers are holding their cotton for higher prices. Most farmers have planted oats.  
Mr. L. A. White has gone to Camden today.  
The box supper at Smithville last Friday evening was quite a success.  
Several from this place attended the fair at Columbia last week.  
Messrs. Lawrence White and James Jenkins, of Rembert, spent Saturday night at this place.

There is quite a crowd expected at Smithville tomorrow. A rally day has been set up and all of the members and as many visitors as can come will be welcomed. Several speakers have promised to be there. A new church will soon go up where the old one now stands. It is hoped that soon old St. John's church will be renewed both spiritually and temporally.  
Miss Irene Weldon is spending a few days with relatives at Bishopville. The health of the community is very good—no sick to report.

**MAX.**  
Max, Nov. 11.—This section has been unusually favored during the last week by the meeting of several religious bodies.  
The Harmony Presbytery at Olantha, the quarterly conference at Shiloh, the Santee Association convened at Bethel last week, at which the Baptist Theological Seminary, Louisville, Ky., Baptist Courier, State Missions, Aged Ministers, Cannon Street Baptist Church, Charleston, were represented by Dr. S. A. Smith, Dr. A. J. S. Thomas, Dr. C. C. Brown, Dr. Derieux, Rev. A. J. Nellson.  
Today the Florence Association meets with Sardis church, which is only a few miles away. The coming together of so many cultured Chris-

tian workers should be a great impetus and inspiration to be more zealous and thorough, but there still remain those who live in walking distance (even if they did not own fat horses and mules) of our leading churches, who do not attend Sunday school, who perhaps, attend preaching once or twice in six months, who neither know or care for the plan of salvation.  
Several from this section saw and heard President Taft in Florence Monday. Also several went to Charleston Gala week and to Columbia to the fair.

Mr. J. R. Stewart died after a long illness, last Sunday, and was buried at Bethel Tuesday. The funeral services being performed by the pastor, Rev. B. K. Truluck.  
Bad colds are prevalent.  
The residence of Mrs. M. P. Howell in Walterboro was partially destroyed by fire.

The work of paving Main street in Greenville is under way. It is said the cost will be about \$45,000. Of this amount, the Greenville Traction Company will pay one-fourth, it is expected, and the property owners along the street will pay a fourth, the city paying the remaining half. The proportion that the owners of property will pay is \$2.50 per front foot. The places at the intersection of streets will be paid for by the city. The money for this work will be raised by a bond issue.

Fire broke out in Gregory Brothers' store in Rock Hill Sunday morning about 4 o'clock and completely gutted the establishment before being subdued. The New York Ten-Cent Store next door is damaged by smoke and water, as is Davis' store on the other side.  
Rev. T. W. Sloan, D. D., pastor of the First Presbyterian church of Greenville, in a sermon scored the police of that city and charged the officers with neglect of duty.

**THESE** are great times we're living in; the mystery of aerial navigation seems to be just on the edge of being solved; a few years more and we'll be traveling through the air with as much unconcern and security as we now travel on a railroad train.

Progress seems to be the dominant idea of the times; new discoveries, new triumphs of science; new wonders all along the line. But when you come to clothes—and we all have to come to clothes every day, and probably will for a good many years—when you come to clothes you'd better come here and get into a

fine suit and overcoat. No matter what discoveries may be made in science, no matter how many men get to the North Pole or the South Pole, you'll never find better clothes than these.

We sell them; they're all wool; they are perfectly tailored; they're the very latest discovery in correct style and they fit.
