

YOU ARE GROWING YOUNGER MOTHER

BANISH THOSE GRAY HAIRS!

Kill the Dandruff Germs—Stop Hair Falling

Thousands of mothers are looking younger.—Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Dandruff Cured

Three applications removed all the dandruff and left my scalp clean, white and smooth. Wm. Croak, Rochester, N. Y.

It is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR REMEDY a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS E. A. BOSS, Sharon, Mercer Co., Pa.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON, Rochester, N. Y.

DISPENSARY BOARD FINAL REPORT.

State Has Already Netted \$453,466 And Will Get Some More.

Columbia, Jan. 20.—The dispensary commission's report to the Governor was made public yesterday, showing the State dispensary finally wound up with a net result of \$453,466 to the State with much more to come from overjudgments. This report is signed by the full commission, which highly compliments Mr. Lyon especially on securing the plea from James Farnum, whom the commission terms "one of the shrewdest and most successful of the manipulators of public officers," and for "bringing to justice the officials who fattened at the expense of the State and became shameless in their abuse of power, insatiable in their greed and perfidious in their disregard of their oaths of office."

The report concludes by congratulating the Governor and the State "on being delivered from the baneful effects of the most corrupt institution which ever existed in this State while our own people were in control."

The commission pays a high tribute to Attorney General Lyan as follows: "The attorney general has cooperated zealously with the commission, and given much of his time to its business and had charge specifically of the branch of the business covering the investigation of the past transactions, and has been untiring in his endeavors to turn on the light in every respect, and has had his efforts crowned with success in bringing to justice one of the shrewdest and most successful of the manipulators of public officers, and procuring a plea of guilty from him, and he had the loyal support of all good citizens in bringing to justice the officials who fattened at the expense of the State, and became shameless in their abuse of power, insatiable in their greed and perfidious in their disregard of their oaths of office."

Clarence M. McMurray, a last year graduate of the Citadel, has been commissioned as second lieutenant in the United States army.

The report is signed by the full commission consisting of Dr. W. J. Murray, of Columbia, chairman; Avery Patton, of Greenville; John McSweeney, of Timmonsville; J. S. Brice, of Yorkville, and A. N. Wood, of Gaffney.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing with Oils and Liniments will not cure, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatism than paint will change the fibre of rotten wood.

Science has at last discovered a perfect and complete cure, which is called "Rheumacide." Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside," sweeps the poisons out of the system, tones up the stomach regulates the liver and kidneys and makes you well all over. Rheumacide "strikes the roots of the disease and removes its cause. This splendid remedy is sold by druggists and dealers generally at 50c and \$1 a bottle. In tablet form at 25c and 50c a package. Trial bottle of Tablets sent by mail on receipt of price 25c. Booklet free. Write to Bobbitt Chemical Co., Baltimore, Md. Sold in Sumter by Sibert's Drug Store. 11-19-W. & S. wed.

SAW MILL BOILER EXPLODES.

Boy of Sixteen is Probably Fatally Hurt—No One Unhurt to Give Particulars.

Mayesville, Jan. 20.—A boiler exploded this afternoon at Boyle's saw mill about five miles from town. Three white men and one negro were badly hurt, and Joe Simpson, a boy about 16, probably fatally injured.

The others injured are S. C. Boyle, Jim Simpson and Lawrence Lowry, negro.

Medical attention is being given the men here. They may be internally injured besides the many cuts about head, face and body.

No particulars can be obtained now as the injured men were the only ones present.

SERIOUS BOILER EXPLOSION.

Four Men Injured at Boyle's Saw Mill At Scottsville.

The boiler explosion at Mr. Sam Boyle's saw mill at Scottsville, four miles south of Mayesville, which occurred at 4:15 Thursday afternoon was quite a serious affair and at least one of the victims is probably fatally injured.

The accident was due to carrying 110 pounds of steam in a boiler that was supposed to be capable of standing a pressure of only 80 pounds. The governor refused to act, and when the pressure ran up an attempt was made to fix it, but while one of the hands was at work on the governor the explosion occurred. The boiler was entirely demolished by the force of the explosion and fragments were scattered over a space of three hundred yards.

The following were injured: Mr. Sam Boyle, badly bruised and scalded; Joe Simpson, white, badly scalded and skull fractured; injuries probably fatal. Boss Simpson, white, scalded and bruised; Lawrence Lowry, colored, bruised and scalded; A. J. Hancock, slightly bruised.

Except Mr. Hancock, all of the injured were employed at the mill. He was passing the mill and stopped there only a few minutes before the explosion.

The wounded men were taken to Mayesville immediately and their wounds dressed.

*Chamberlain's Cough Remedy is a very valuable medicine for throat and lung troubles, quickly relieves and cures painful breathing and a dangerously sounding cough which indicates congested lungs. Sold by W. W. Sibert.

QUEER SITUATION IN HOUSE.

MINORITY IN PRACTICAL CONTROL FOR A TIME.

Many Republicans Having Left Chamber Before Adjournment and Democrats Remaining for a Caucus, the Latter Defeat Motions to Adjourn and Congressman Lloyd Reads His Resignation from Ballinger-Pinchot Committee.

Washington, Jan. 20.—An attempt by Representative Lloyd, of Missouri, to resign as a member of the joint Congressional committee to investigate the Ballinger-Pinchot controversy brought about a curious condition today, in which the House for a time found itself practically in control of the minority, actual control of the body being prevented only by resorting to parliamentary tactics.

It having been given out that there would be a Democratic caucus at 4.30 o'clock most of the Republicans went home, while practically every Democrat was in his place. Motions to adjourn were defeated by vociferous choruses from the Democratic side.

Mr. Lloyd's resignation was read, whereat Representative Tawney made the point of order that no one was authorized to receive it, and would not be so authorized until the joint committee should be organized. Even then he expected the committee would have authority to receive a resignation of one of its members only by inference.

Mr. Tawney undertook to demonstrate that Mr. Lloyd, having been elected to membership on the committee, had no avenue of escape from service.

This view was combated by Mr. Underwood, of Alabama, who said the House could accept the resignation of a member of any body it should create.

Mr. Lloyd attempted to obtain the floor for an explanation, but was barred out by the parliamentary situation. Mr. Tawney seeing the impossibility of an adjournment, attempted to resume consideration of the deficiency bill as a means to force an adjournment. Again the Democrats, in overwhelming numbers, voted down his motion. Renewing his motion to adjourn Mr. Tawney demanded a roll-call as an answer to the chorus of negative votes on the ground that there was no quorum present. While the roll-call was in progress and Republican members were being called from their homes and hotels, several miles away, Mr. Underwood arose to make an explanation.

After some delay the Alabama member succeeded in saying there had been a general misunderstanding. He explained that he had had no knowledge of Mr. Lloyd's intention to offer his resignation at that time. The minority, he added, had not purposely taken advantage of the absence of Republican members. He said it was manifestly fair that he should move to adjourn, and doing so received unanimous support, and the House at 7.05 o'clock adjourned, just thirty-five minutes after the time agreed upon for the Democratic caucus. The Democratic caucus was then assembled.

*Chamberlain's Cough Remedy never disappoints those who use it for obstinate coughs, colds and irritations of the throat and lungs. It stands unrivalled as a remedy for all throat and lung diseases. Sold by W. W. Sibert.

In her chosen field which is the wild interior of Labrador, Mrs. Stephen P. M. Tasker has no rival among women explorers. She and her husband have a luxurious home in Wynneswood, not far from Philadelphia, but find it impossible to resist the call of the wild for any length of time, and already are beginning their preparations for another trip next summer.

REST MADE EASY.

There Will Be Less Sleeplessness When Sumter People Learn This.

Can't rest at night with a bad back, A lame, a weak or an aching one. Doan's Kidney Pills are for bad backs.

They cure every form of kidney ills.

From common backache to diabetes They are endorsed by Sumter people.

Mrs. W. A. Clyde, living at 219 E. Liberty St., Sumter, S. C., says "I can highly recommend Doan's Kidney Pills as they have proved of great value to me. I suffered from dull nagging backaches and distressing pains through my loins and also had an annoyance from the kidney secretions. The secretions also contained a sediment, and were scanty in passage. I did not rest well and in the morning I felt tired and languid, having very little strength or energy. I finally procured Doan's Kidney Pills at China's drug store and since using them, I have been free from backaches and my kidneys are normal. I am glad to recommend such a splendid remedy by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

How Do You Feed Your Crops?

DO YOU KNOW just what your cotton and corn need, and are you furnishing it in such quantities as required and in such shape that the plant can use it?

Suppose you should put the food for your stock in a box, nail it up and place it in their trough—would you expect them to thrive and grow fat?

Hardly!

Well, did it ever occur to you that when you use lumpy, badly mixed fertilizers you are putting this same proposition up to your crops—offering them plant food in such shape that they can't get to it?

Fertilizers, to do your crops any good, must dissolve in the soil waters. These are constantly in motion, rising to the surface during the day and sinking at night—passing and re-passing the roots of the plant, which absorb the food contained in the water—and this is the only way in which the plant can feed.

Therefore, when you buy fertilizer, you should do so with the idea of furnishing food for your crop and on the same principle that you should purchase food for your stock. It should not only contain the necessary Ammonia, Phosphoric Acid and Potash, but above all else these should be in soluble form—the mechanical condition of the fertilizer should be such as to permit the plant to absorb every particle of it, and the goods should be manufactured from materials that will not give up their plant food at one time, but furnish a steady supply throughout the entire growing season.

This is the fertilizer you should have and can get—in only one way. It is impossible to produce a goods like this by the dry-mixing of raw materials, whether you do this at home with a shovel and a screen or buy it from someone who has made it the same way—the only difference being in the quantity.

These materials must be ground to a powder, and it requires machinery costing thousands of dollars to do it properly. They must then be so manipulated that when complete, you have a compound, each ounce of which is exactly like every other ounce, and not a mixture, one part of which would contain too much Ammonia and too little Potash, while another part would be exactly the opposite—and all of it contain plant food locked up and not available.

Remember that the chemical analysis of a fertilizer is no test of its crop growing qualities. The chemist can pulverize lumps and by the use of various means search out the plant food; your crop can't.

You can take an axe, break open the box and get the corn; your mule can't.

Don't risk a crop failure!

Insure your peace of mind as well as your crop by using

Armour's Animal Ammoniated Fertilizers

Manufactured by **Armour Fertilizer Works** ATLANTA, GEORGIA

NOTICE TO CUSTOMERS.

We the undersigned barbers of Sumter do hereby agree that on and after February 1st our price for shaving will be 15 cents.

This advance in price has been rendered necessary by the advance in salaries of workmen, in rent, fuel and everything else, and it is impossible to pay expenses at 10 cents—the price in effect for the past fifteen or twenty years.
