

WAR IN TURKEY.

FIGHTING CONTINUES AND PEACE NOT IN SIGHT.

Forces Believed to be Working Behind Scenes With Settlement in View.

London, Nov. 22.—The efforts toward peace in the Turkish-Balkan war made no visible progress today. Exchanges of artillery fire and infantry reconnaissances proceeded along the Tchatalja lines. Nazim Pasha, the Turkish commander in chief, in a dispatch to Constantinople claims that an infantry battle occurred in front of the centre of his positions and that the Bulgarians left several thousand dead before the Turkish outworks. Not much credence is placed in this report, however. Elsewhere in the war zone the military situation remains unchanged. The Serbian forces advancing toward the Adriatic, are buried deep in snow.

The Bulgarians have occupied the important town of Dedeagatch, the terminus of the Saloniki railway on the Aegean sea.

The Turkish cruiser Hamidieh came into port at Constantinople damaged from a Bulgarian torpedo. The Turkish claim that the Hamidieh sank two of the Bulgarian torpedo boats with which she was engaged yesterday has not yet been confirmed.

It is believed that the peace negotiations have been only temporarily suspended. The best opinion in London is that a compromise will be effected between the belligerents and that the powers are using their good offices behind the scenes with this end in view.

Reports from Sofia say that Turkey's rejection of the proffered terms for an armistice occasioned no surprise there. Three Bulgarians, representing the three northern kingdoms, have started for the front with the expectation of meeting the Turkish peace plenipotentiaries. The Greek military attaché with the Bulgarian army will join the Bulgarian plenipotentiaries. A cessation of hostilities is not necessarily expected to follow the departure of the representative of the allies on the mission of peace.

Whatever basis for an armistice may be reached, it is expected that it will leave in abeyance for the negotiations of a peace treaty the amount of territory Turkey will eventually be permitted to retain. The contract, it is expected will include Bulgaria's renunciation of intention to enter Constantinople.

Reports emanating from Vienna announced that the Albanians will proclaim their independence tomorrow at Durazzo, from which place the Serbians are yet five or six days march and that there will a joint Austrian and Italian naval demonstration of that port.

The visit of the Austrian crown prince to Emperor William, which is officially stated to be for the purpose of keeping a long standing shooting engagement, and a Berlin dispatch saying the Austrian field marshal, von Schemua, spent the day there in consultation with Gen. Count von Moltke, chief of staff of the German army, keep alive speculation concerning the plan of the triple alliance.

No diplomatic secret was ever better kept than the terms of the Balkan alliance, but the signs of possible differences over a division of the spoils are cropping out. The Greek semi-official press claims that the issue of the war would have been greatly different except for the immense services of the Greek fleet in preventing 300,000 Turks from Asia Minor joining the army in Thrace. The claim also is made that the Greek army and fleet have accomplished as much as the three other allies combined.

JERRY MOORE GOES TO CHICAGO

WILL BE BIG ATTRACTION AT NATIONAL LAND SHOW.

"Champion Boy Corn Grower of the World" will Tell Visitors to Great Home-seeking Exposition How He Raised 228 Bushels on One Acre—South Carolina Has Exhibit at Big Show Beginning Saturday.

Columbia, Nov. 22.—Jerry Moore, of Winona, S. C., who produced 228 bushels of corn on one acre, and who is styled the "Champion Boy Corn Grower of the World," was in the Capital City today. He left this afternoon with Col. E. J. Watson, State commissioner of agriculture, commerce and industries, for Chicago, where he will be a star feature for the National Land Show, that will start tomorrow, in which South Carolina will play a most conspicuous part. Jerry this morning was in his uniform. He is a cadet in the freshman class at Clemson college. W. M. Riggs, president of the college, has granted Jerry a furlough in order that he might be one of the representatives from this State in Chicago. One of the features of the show will be certain hours daily allotted to the States, in which their representatives can give talks along the lines of improved agriculture.

Jerry Moore will lecture daily, telling how and by what methods he produced his prize acre of corn. In writing to Col. Watson several months ago, requesting a sketch of Jerry's life, the Chicago Tribune stated that he would be more of a drawing card than Col. Roosevelt. All of Jerry's talks will be made in the Coliseum, where the Land Show will be held.

Jerry Moore said this morning that he had prepared no address to deliver, but that, if required, he would endeavor to plainly state how he made his famous yield of corn.

Jerry Moore, as has been repeatedly stated, is a modest youth, and his success and fame has not, it seems, unbalanced his mental equilibrium, and he has not, what is known in modern parlance, as the "big head."

The South Carolina exhibit, which has been assigned to one of the most conspicuous reservations in the Coliseum, was sent to Chicago Thursday in charge of James D. Lee. The exhibit has been selected with the minutest care and will be one of the most attractive ever sent out of this State. It will be preserved intact to be shown at the National Corn Exposition to be held here from January 28 to February 3.

BRADSTREET'S TRADE REVIEW.

Channels Are Running Full, With Optimism Predominant, and This Despite Mild Weather.

New York, Nov. 22.—Bradstreet's tomorrow will say:

"Trade channels are running full with optimism predominant and this despite widespread evidences that mild weather is a bar to fullest activities in final distribution. It is to be noted, however, that mild climatic conditions are and have been in a high degree favorable to agricultural and transportation interests.

The strength of prices and of demand in the textile trades is a subject of interest. Dry goods are in active demand from mill to retailer, though mild weather hampers retail demand for heavy weight goods. Cotton goods are stronger and print cloths and brown cottons have advanced in price with commission men. In the yarn trades both cotton and woolen lines are strong and active. Raw wool of the old clip is in scant supply, in nominal demand and firm in price.

"Best prices as to the jobber and retail trade come, as heretofore, from the West, Northwest and Southwest, and where house trade had fallen off, as in the case of some markets, road orders have more than made good the deficit.

"Southern trade tends to lag somewhat behind the other sections. Real slowness is manifested only at a few Southwestern points.

"Operations in iron and steel lines continues as active if not more active than heretofore."
