

EMBODIES CURRENCY MEASURE

SECRETARY BRYAN URGES ENACTMENT OF ADMINISTRATION BILL

President Wilson Will Deliver Special Message on Currency Legislation to Joint Session of Congress Today—This Measure Has the Approval of President, Cabinet and Party Leaders and Should be Passed by Large Majority.

Washington, June 22.—The president of the United States will go to congress tomorrow to deliver the second message of his administration as when President Wilson submitted his ideas on tariff reform, congress will meet in joint session in the chamber of the house to hear his message on currency legislation.

For the second time in more than 100 years upon such an occasion, the senate will march in a body to the house chamber at 12.30 o'clock in the afternoon. The front rows will be reserved for the senators, members of the house crowding into the rear seats.

President Wilson will arrive at 1 o'clock and being presented by Speaker Clark, will deliver his message urging currency legislation before the close of the special session.

On the eve of this extraordinary occasion, Secretary Bryan tonight issued a statement on the currency bill prepared by Chairman Glass and Owen of the congressional banking and currency committees, Secretary McAdoo of the treasury and the president, Secretary Bryan gave his unreserved "indorsement" to the proposed measure and removed all doubts as to his position with reference to currency reform, the ideas of President Wilson and the necessity for immediate action.

"I am glad to indorse most earnestly and unreservedly the currency bill which has been prepared by the chairmen of the two congressional committees in conjunction with the president and Secretary McAdoo," said the secretary. "It is a much better bill than I supposed it possible to secure at this time. Conflicting opinions, honestly entertained and strongly adhered to, have been reconciled with a success hardly to be expected. I have doubted until recently the wisdom of attempting legislation at this session, but my doubts were largely due to the fact that I feared the difficulties in the way would prevent an agreement upon a plan.

"The plan which the president now urges, confers great advantages upon the banks, while it preserves to the people acting through the government all that is essential for the protection of the public. The notes are to be treasury notes issued by the government and loaned to the regional reserve banks. This is in harmony with the Democratic contention. There is no surrender of the government's right to issue money. The board of control is appointed by the president. Thus, the people, acting through the government, are in entire control. This is necessary for the protection of the public's interests and ought not to be objectionable to the banks.

"The duties of this central board are so important that they could not be committed to men representing private interests.

"The regional reserve banks are to represent, not only the national banks of the district, but such State banks as are willing to put securities on footing which will be equitable to the national banks. This is an important provision and gives to the State institutions a protection which they deserve for their share with the national banks, the responsibility of furnishing banking facilities to the business of the country.

"The great point of advantage to the banks, an advantage that ought to make them willing to accept the bill without question, is that it furnishes a currency which they can secure in time of need, without having to put up bonds as security. The bond requirements largely neutralize the advantage of the money issued on them as security, because the banks can not draw back more from the government than they have already invested in the bonds, but where a bank can put up its good assets it is able at all times, without sacrifice, to secure any additional circulation that the community may need and the government board can be trusted to issue its treasury notes to the regional banks on terms that will be fair and just.

"The business interests will, I think, welcome this bill as an unalloyed blessing. It gives them through their banks a promise of relief in any time of stringency and it gives this promise without putting in the hands of the banks a power that might be used against them. The bill is a faithful fulfillment of the promise made in the Baltimore platform which reads as follows: 'We oppose the so-called Aldrich monetary bill or the establishment of a central bank, and we believe the people of this country will be largely freed from panics and consequent unemployment

FRAMING PEACE PLANS.

SECRETARY BRYAN FEELS ENCOURAGED TO PROCEED.

Eighteen Countries Have Accepted in Principle the Suggestion of the President.

Washington, June 22.—With the acceptance in principle of the president's peace plan by 18 nations, Secretary Bryan has felt encouraged to develop some of the details of the plan which so far have been only generally outlined. Today he made a statement touching the composition of the proposed commissions to investigate controversies, designed to meet suggested objections that it would be impossible to provide unbiased bodies of investigators whose findings would command respect of the principals.

The statement is as follows: "Mr. Bryan in stating to the newspapermen that 18 nations had now accepted the principles of the president's peace plan, the last nation being Spain, gave some of the details suggested for the completion of the plan.

"The plan contemplates a permanent international commission and the president suggests that the commission be composed of five nations, as follows: One member from each of the contracting countries, to be chosen by the government; one member to be chosen by each of the contracting countries from some other country and the fifth member of the commission to be agreed upon by the two governments, the commission to be appointed as soon as convenient after the making of the treaty; vacancies to be filled according to the original appointment.

"This is merely a suggestion. This government is ready to consider any proposal that the contracting parties may desire to make."

BOMBS FROM AIRSHIP KILLED MANY.

Didier Masson Does Deadly Work Among Mexican Federals.

Douglas, Ariz., June 21.—An official message from Governor Pesquiera, of Sonora, today stated the battle of Ortiz begun Thursday had been resumed. The rebel war aeroplane, piloted by Didier Masson, the French aviator, did much execution among the Federals, it is said. Pesquiera asserted the Huerta commander could not get away unless he cut through the rebel line.

Masson, according to the message, dropped one bomb that killed fifty-two men. These and a hundred other Federal dead, together with seventy rebel dead and seventy wounded, were brought to Hermosillo.

The Missouri jury which awarded a girl 50 cents for being forcibly kissed, only fixed the price so far as Missouri is concerned. A North Carolina jury would have sent out for a blackboard and a dozen boxes of crayons in order to figure up even nominal damages on a recalcitrant.—Wilmington Star.

and business depression by such a systematic revision of our banking laws as will render temporary relief in localities where such relief is needed, with protection from control or domination by what is known as the 'money trust.'

"Banks exist for the accommodation of the public and not for the control of business. All legislation on the subject of banking and currency should have for its purpose the securing of these accommodations on terms of absolute security to the public and of complete protection from the power that wealth gives to those who possess it."

"I feel sure that the Democrats of the senate and house will rally to the support of the bill, and I am sanguine enough to believe that it will receive a cordial support from Republicans as well."

Despite the opinion of many house and senate members against the wisdom of exacting currency legislation at this session, administration leaders tonight said they were at a loss to understand in view of the urgency with which President Wilson will present the situation tomorrow, coupled with the statement from the secretary of state tonight, how there can be any hesitation on the part of the congress in complying with the president's desires.

The currency bill made public last week, will be introduced in both houses and the house banking and currency committee is expected to meet early this week to begin consideration of the measure. Tariff will be under consideration by the senate Democratic caucus most of the week. Senator Simmons, chairman of the finance committee, hopes the caucus can conclude with the revised house bill by Thursday, but it is doubtful if the bill will be ready for the full finance committee before Monday. Certain it is that the Underwood-Simmons bill will not be reported to the senate in time for general debate to get under way before July 4.

DISTRICT ATTORNEY RESIGNS.

Claims Department of Justice Has Hampered Him in Executing Duties of Office.

San Francisco, June 21.—United States District Attorney John L. McNab announced today that he has resigned. In a long telegram to President Wilson, McNab said that he feels forced to resign because of orders from the attorney general tying his hands in the prosecution of the Diggins-Caminetti white slave cases and the indictments against officials of the Western Fuel company.

He says he had orders to postpone action in the case, received by telegraph yesterday, in spite of his protest and statement to the attorney general that efforts to tamper with government witnesses in the cases had been made.

Maury Diggins, former State architect and Drew Caminetti, a son of Former State Senator A. Caminetti, who recently was appointed commissioner of immigration, it is alleged, eloped to Reno, Nev., last winter with two high school girls of Sacramento, leaving their wives and babies behind them. They were brought back to California and incited under the Mann white slave act.

WORMS ATTACK CORN.

Anderson Farmer Reports Presence of Pests in His Field.

Anderson, June 21.—S. A. Burns, a prominent farmer and a leading spirit in the Farmers' union of this county, states that some worm has attacked his corn and has wrought such damage that he has been compelled to replant his corn crop almost entirely. The worms eat the pith out of the stalk near the ground, and when the wind blows the stalks turn over and die. They also attack the stalks in the top, eating through the tender spots into the stalk. Both attacks have proved fatal to the corn. Clemson experts have come, at Mr. Burns' request, to make an investigation and to direct some course that Mr. Burns and others troubled with the worm may adopt. The worms in Mr. Burns' district have wrought a good deal of damage.

No Substitute Could Do This.

\*No inferior substitute, but only the genuine Foley Kidney Pills could have rid J. F. Wallich, Bartlett, Nebr., of his kidney trouble. I took Foley Kidney Pills and they did the work and I am now entirely rid of kidney trouble." Sibert's Drug Store.—Adv't.

NEW RAILWAY FOR LEE COUNTY.

South Carolina Western Official Says His Road Will Build Line in Lee County.

Bishopville, June 21.—Bishopville is to have another railroad. The State's correspondent was informed yesterday by one of the South Carolina Western railway officials that when the rights of way are secured a road will be built by this road through the rich Ashland and Stokes bridge sections of Lee county, tapping the main line just across Lynch- es river from Bishopville. This will give Bishopville rail connection with the richest farming section of Lee county. This will give her railroad to every part of the county except the Lynchburg and Magnolia sections, and it is understood that the Chamber of Commerce has this matter in hand to either induce the South Carolina Western railway to build a branch to these points or get the Atlantic Coast Line railroad to extend its road from Elliott to Lynchburg.
