

DAIRY INSTRUCTION COURSE.

Clemson College Offers Demonstrations to Places Showing Most Interest.

The Division of Animal Husbandry and Dairying of Clemson College, through its co-operative agent of the Dairy Division of the United States Department of Agriculture, is offering to hold several one-day dairy instruction courses in sections of the State that are manifesting interest in this line of work.

The courses will consist of churning and butter making demonstration; explaining the use of the cream separator and the Babcock test, with talks on marketing dairy products, raising calves and care and feeding of the home cow. This work is to stimulate interest in farm dairying, making of better butter on the farm, and in the general care and improvement of the farm cow. The work will be simple, practical, and adapted to sections in which it is held.

Only a limited number of courses can be conducted, and places showing most interest will receive first consideration. I should be glad to hear from all parties interested as soon as possible, so that a definite schedule may be made out at an early date.

Very respectfully,

R. H. Mason,
Dairyman.

ARMY AND NAVY MEET.

Odds on Young Sailors on Account of Their Good Record—Big Crowd Expected.

New York, Nov. 28.—With the rival teams and the advance guard of spectators already in quarters for the Army-Navy football game here Saturday, this city has taken on the unfamiliar aspect of a college town in honor of the big athletic contest.

The transformation began with the arrival of the naval and military academy eleven, substitutes and coaches, the middies reaching here last night and the West Point cadets this forenoon. Every succeeding train brought a fresh quota of brilliantly uniformed and gowned humanity to add another tint to the color picture, and tonight even the most blasé New Yorkers realized that something unusual was about to happen.

While the sailors and soldiers have met upon the gridiron 17 times since 1890, New York never has been the scene of the game, and both guests and host are preparing to make the most of the play in its new setting.

PANAMA CELEBRATES ANNIVERSARY.

Ninety-two Years Ago Spanish Yoke Was Thrown.

Panama, Nov. 28.—While looking forward to the opening of the Panama canal and anticipating a great increase in her already established prosperity, Panama today observed the 92d anniversary of her independence from Spain. It was the last of the South American colonies to shake off its European rule, when, in November, 1821, it declared independence from Spain.

It then became for a time the department of the Isthmus of the new Republic of Colombia, but its history for many years continued to be one of strife until 1903, when independence from Colombia was effected.

Some of the mile stones in Panama's history, after the independence from Spain in 1821, are the completion of the Panama Railroad in 1855, the start of the construction of the Panama Canal in 1881 and treaty with the United States in 1904, giving the United States the right to build the Panama Canal, and through which Panama virtually became a protectorate of the United States.

SULTAN OF TURKEY LOSES.

Supreme Court of New York Decides Against Him.

New York, Nov. 28.—The Sultan of Turkey today was a losing litigant in the appellate division of the Supreme Court of New York. His Highness sued to recover \$10,000 from the estate of Hovhannes Tavshanjian, a wealthy Armenian rug dealer, murdered in this city in 1907. This sum was left to Tavshanjian's mother, who died before receiving it. Because she died intestate in Constantinople the Sultan claimed the money.

The suit was decided against him by the Supreme Court and the appellate division today affirmed the decision.

LEE WILL HAVE FAIR.

L. L. Baker, County Demonstrator, and Others Succeed in Effort to Have Display at Bishopville.

Bishopville, Nov. 27.—The effort made some time ago to organize a county agricultural fair failed for various reasons but it will not down in the hearts of quite a number of men, and especially to be commended for his efforts along this and other educational lines is L. L. Baker, county demonstrator for the department of agriculture.

He has with the assistance of other enterprising men of this county secured a large building in the city and will on December 5-6 hold an exhibition displaying the work of the girls' tomato clubs and the boys' corn clubs and show the two trophy cups and ribbons won by Lee county boys and girls at the National Corn show and State fair. The State department of agriculture will have on display at this show their pure food exhibit and will have experts in attendance to demonstrate everything in a manner to be understood by all.

It is hoped and believed that this will arouse sufficient interest in the county fair to make it a certainty and to enable the promoters to organize on a firm business basis, not only assuring the success of the fair but its permanency.

Lee is fortunate in having wide awake hustling representatives in the agricultural department and in having their itinerary so arranged that they can do a great deal for the direct benefit of the people of their home county.

COTTON SEED OIL PRODUCTS.

Lever Will Introduce Bill to Have Statistics Furnished.

Washington, Nov. 26.—Representative Lever said today that he is preparing a bill which he will introduce in the next few days to require the government experts to publish statistics showing the amount of cotton seed oil products on hand, including refined lard, following the precedent already set with regard to crude oil. Mr. Lever remarks that government statistics now show the details as to the source of supply of cotton seed oil and related products, but do not give the same information as to conditions at the purchasing end.

SLIDE MOVES FURTHER.

Cucaracha Develops Fresh Movement Which Closes Channel.

Panama, Nov. 28.—The Cucaracha slide today developed a fresh movement downward, nearly closing the channel which has been maintained through the slide for the past six weeks. This channel has been sufficient to allow tugs and launches to pass. The tug which went through this morning scraped for several hundred feet. A further movement of the slide probably will result in the complete blockade of the channel. One of the dredges has been moved out of the zone of danger.

He advocates the extension of government arsenals and the manufacture by them of all government munitions. He asserts the government can thus save fifty per cent.

PRAISE FOR SUMTER.

Charleston Nobles Say People of Sumter Are About the Finest in the World.

News and Courier.
"Fresh meat to right of them,
Fresh meat to left of them."
Song of the six hundred Nobles.

Stories of fresh meat in plenty for the hungry and camel's milk in abundance to aid the thirsty across the burning sands of the desert were brought back to Charleston yesterday morning by Nobles of Omar Temple, returning from a revel in the Sumter oasis. More than six hundred Shriners were in Sumter Thanksgiving for the annual fall pilgrimage of Omar Temple of the Mystic Shrine. Special trains poured the Shriners and their ladies into Sumter for the big event, the feature of which proved to be the parade at 4 o'clock in the afternoon.

The feature of the parade, it is understood from Nobles who crossed the hot sands in safe return, was the wild ass of the desert carried to Sumter by the Charleston delegation, consisting of one hundred-odd Nobles under the leadership of Illustrious Potentate Julius E. Cogswell. A special train carried the Charleston Shriners, who got into the Union Station at 4.30 o'clock yesterday morning. Two special cars carried 28 Shriners from Savannah, coupled to the Charleston special. "We had a great time," said a returned Shriner enthusiastically, "and so did the ladies in the party."

Too much could not be said by Charleston Shriners who enjoyed it of the generous hospitality of Sumter. Homes and clubs were thrown open to the visitors; the people of the place took an intense interest in the activities, and turned out for the parade in force.

ASKS BIG SUM FOR ARMY.

Estimate for War Department Ten Millions Greater.

Washington, Nov. 27.—Record-breaking estimates for army appropriations today were laid before congress by the war department. Secretary Garrison transmitted to the house his estimates for the military establishment during the next fiscal year, aggregating \$106,000,000, which is roundly \$10,000,000 greater than the figures submitted a year ago for the army bill.

The house committee immediately will begin work on the army bill with hearings on December 3 at which Secretary Garrison and the heads of the various branches of the army will be called upon to explain the proposed increases in expenditures of the army.

THAW FILES ANSWER.

Objects to Being Put in Sheriff's Custody.

Concord, N. H., Nov. 28.—Harry K. Thaw today filed in the United States district court his answer to the petition of the State of New York that Sheriff Drew be made custodian of the Matteawan fugitive with authority to deliver him to the New York official under the extradition warrant issued by Gov. Felker. Action on the warrant was stayed by habeas corpus proceedings instituted by Thaw.

Thaw set forth that custody under the extradition warrant would be illegal and oppressive because based on an unconstitutional statute and an order of commitment without trial. In effect he declares it is worse than sentence to penal servitude, in that it excludes the possibility of executive clemency and pardon.

Many interesting addresses marked the convention which closed tonight with the selection of Seneca as the next meeting place. The December American Magazine.

The most interesting contribution to the December American Magazine is a wonderful Christmas story entitled "Miracle Mary" by John A. Moroso, a New York newspaper man, in which moving pictures turn out to be the means of proving an innocent man's alibi—thus saving him from a long term in the penitentiary for a crime which he did not commit.

David Warfield, the celebrated actor, writes in the same number an interesting account of his life. Peter Clark Macfarlane writes another article in his series entitled "Those Who Have Come Back"—stories of men and women who, disgraced or failures at forty, have recovered their powers and become useful, respected members of society. This month Mr. Macfarlane's article is entitled "The Madonna From Whitechapel," and is the account of a lost woman who saved herself.

Fiction of remarkable vitality and interest is contributed by Arthur Johnson, Hugh S. Fullerton, Frank Barkley Copley, Henry Wallace Phillips and Ine Haynes Gilmore. Humorous contributions are contributed by George Fitch, Stephen Leacock and James Montgomery Flagg. The "Interesting People" department and "The Interpreter's House" are up to their usual standard of excellence.

PLAN TO IMPROVE FAIR.

Demonstration Agents Meet Officials of Society—Propose 70 New Members.

Columbia, Nov. 26.—Plans for improving the agricultural department of the State fair were discussed yesterday between W. W. Long, State agent for the United States farm demonstration work, and D. F. Efrd, secretary of the South Carolina Agricultural and Mechanical society. The plan for the demonstration workers was laid before the officers of the fair society for consideration and a definite answer is expected following the next meeting of the executive committee. G. A. Guignard, member of the committee, was present at the conference yesterday.

"We submitted the proposition for an exhibit at the fair," said Mr. Long yesterday. "If the offer is accepted, we will send an agricultural display from all of the 44 counties. The county demonstration agents will be instructed to gather the material for the displays during the year. Then the girls' tomato clubs from a score of counties will send exhibits. We expect to have 70 booths at the next State fair. These booths will be 12 by 15 feet and will occupy all of the wall space in the large steel building. There will also be a display from the mill villages where J. L. Carberry is conducting some interesting demonstrations.

"The exhibits will pertain strictly to agriculture and the progress of the State along this line will be shown in an adequate manner. I expect to secure cold storage space in Columbia. Next spring and summer and in the early fall the county agents will gather the fruits, vegetables and other products of the farm to be sent to Columbia and placed in the ice house until the next fair. The three growing seasons will thus be represented at the fair. The trucking district will be well represented."

CAROLINA WINS DEBATE.

University Defeats Davidson on Resolution.

Davidson, N. C., Nov. 27.—The University of South Carolina defeated Davidson college in a joint debate tonight. The judges decided unanimously in favor of the university, which was represented by M. A. Wright and J. S. Dudley. The query was: "Resolved, That the commission form of government should be adopted by the cities of the United States." The university upheld the affirmative.

This is the third joint debate in which Davidson and the University of South Carolina, old rivals in the realms of sport and oratory and scholarship, have engaged. In the first, held two years ago, Carolina won the decision after one of the most brilliant oratorical meetings ever held in South Carolina. Last year the University was less fortunate, the Presbyterian debaters getting the decision. Thus the debate tonight, which was the "rubber," was of special interest to college men throughout North and South Carolina.

The find was made by Mr. Charles A. Buchheit, who summoned the police and the coroner. The body was still a little warm when found, and from appearances it is thought he died of apoplexy. The coroner held an inquest and the jury's verdict was in accordance therewith.

Being unable to locate his home, or his family the body was given a decent burial in the city Potter's Field this afternoon.

This case has attracted wide interest. It was first tried at Elizabeth City and resulted in a mistrial. It was then removed to Newbern.
