

WILSON TO WORK ON MESSAGE

CALLS CABINET MEETING FOR TOMORROW.

Next Week President Will Confer With New Budget Body on Nation's Financial Needs.

Washington, Nov. 10.—President Wilson will begin work next week on his message to congress. He has called a cabinet meeting for Friday at which outlines of the work of the government department's estimates will be discussed and the president will lay the basis for his message which probably will be delivered in person before a joint assembly of both houses.

Next week the president will confer with the congressional budget committee, which is working on plans for coordinating the government's appropriations and will discuss particularly plans for financing the new scheme of national defense.

The legislative programme and ways of raising money were discussed by the president today with Senators Underwood and Pomeroy.

Mr. Underwood said that he did not see how a bond issue would provide for increased army and navy expenditures, since the increase was to be permanent.

"The taxes will have to be increased," he said. "If the people want a larger army and navy they will have to pay for it. Changing the tariff will not meet the situation because the imports have been cut down by the war. Of course the tariff on sugar can be retained, but whether this will be done, I do not know."

Mr. Underwood said he was for an adequate army and navy but had not studied the administration plans sufficiently to approve or disapprove them.

Representative Kitchin, majority leader of the house, who recently told the president that he could not support the national defense programme, frankly admitted, in a statement today, that a majority of his constituents were in favor of the president's position on preparedness.

Representative Kitchin left for his home to begin a campaign to convince his constituents that he was right.

DOCTORS TALK ON MALARIA.

Southern Medical Association Discuss Quinine.

Dallas, Texas, Nov. 10.—Means of eradicating malaria, the tonsils as the source of infection for tuberculosis and other diseases and the need of uniform health law in the South were discussed at today's session of the Southern Medical association, meeting here in annual convention.

Several persons declared that malaria eventually would be stamped out, but none would predict when the task would be accomplished. The discussion centered principally in the efficacy of the injection of quinine directly into the veins as a means of quickly curing persons affected and preventing them from becoming carriers of the disease. Dr. E. T. Wright of Monroe, La., championed the injection method of treatment and told of more than 200 experiments in a railway hospital at Monroe. Under this treatment, Dr. Wright said, the average stay of the patients in the hospital was shortened two days and the blood was more thoroughly sterilized against infection than by any other method. Dr. R. H. von Ezzdorf of the United States public health service doubted the absolute results which seemed apparent from Dr. Wright's experiments, and said that the Monroe record was unusual.

Dr. Graham E. Henson of Jacksonville, Fla., took part in the discussion.

The malaria discussion closed the sessions of the public health section, which elected Dr. W. S. Leathers of the University of Mississippi president, Dr. von Ezzdorf vice president and Dr. L. B. McBrayer of North Carolina secretary.

Dr. Aaron Arkin of Morgantown, W. Va., told of the danger of contracting a number of diseases from affected tonsils, and Dr. D. W. Jones of Brookhaven, Miss., urged the need of more uniform health regulation in the Southern States.

In the surgical section Dr. W. L. Rodman of Philadelphia, president of the American Medical association, lectured on the removal of cancerous growths, and in the section on medicine Dr. Allan Ustis of Tulane university, New Orleans, advocated a dietary treatment for asthma.

The convention will adjourn tomorrow.

TO SPEND BILLION FOR SUPPLIES.

Financial Commission Arrives in This Country to Purchase Arms.

New York, Nov. 9.—More than a billion dollars will be spent in this country for war supplies, foodstuffs and machinery by the French commission, which arrived today on the Lafayette, Secretary Damour announced.

COTTON MAKES ADVANCE.

General List Closes Steady at Net Rise of From Sixteen to Twenty Points.

New York, Nov. 10.—The unsettling influence of the latest submarine news and a bearish private crop estimate caused an early decline in the cotton market today, but prices very soon rallied, with January selling up from 11.48 to 11.78, and closing at 11.75. The general list closed steady at a net advance of from 16 to 20 points.

The market opened 1 point higher to 2 points lower, with near months influenced by relatively steady cables, but very soon weakened under liquidation by some of yesterday's buyers for a reaction, the relatively easy ruling of New Orleans and scattered Southern selling.

Reports that a traveling expert estimated the growth of this season at 12,890,000 bales, including linters, probably accounted for the bulk of the early offerings. The market steadied on the western belt forecast for unsettled weather with frosts in parts of Oklahoma, and the upward movement was encouraged by reports of an improved spot demand.

After showing an advance of about 30 points from the early low level prices had a setback of 9 or 10 points on reports that there were some Americans on the steamer sunk in Italian waters, but the market rallied again, reaching the highest point in the late trading, when December sold to 11.64, March at 11.99 and May at 12.14, or nearly \$2 per bale above the low level of yesterday morning. Closing prices were within 3 or 4 points of the best. Private cables reported heavy damage from the fire on the Liverpool docks, but so far as could be learned not more than 3,500 bales of cotton were involved.

KRUPP SURPLUS FOR SUFFERERS.

Germany's Great Arms Company Will Give \$8,000,000 to Cause of Relief.

Berlin, Nov. 10 (Wireless to Sayville).—Although the profits of the Krupp works last year, 86,000,000 marks (\$21,500,000) would permit a 24 per cent dividend, after payment of a dividend of 12 per cent, a surplus of about 24,000,000 marks will be devoted to charity. To the relief fund for families of soldiers killed in battle 20,000,000 marks will be given and 3,700,000 marks will go to the general relief fund.

INCREASE IN EARNINGS.

Krupp Works Gross Grows From 54,000,000 to 113,000,000 Marks.

Berlin, Nov. 10 (via London).—The gross earnings of the Krupp works last year amounted to 113,000,000 marks against 54,000,000 marks for the previous year, and the net earnings were 86,400,000 marks as compared with 33,900,000 marks for the previous year.

The annual report explains that the volume of home sales, owing to the heavy demands for the army and the navy, reached a total almost two and one-half times that of the aggregate home and foreign sales before the war. The company, it is stated, is engaged in enlarging its plant in order to meet the demands for war material.

Hence the remaining 35,000,000 marks unallocated capital of last year's increase of 70,000,000 marks will now be called, making the total capital 250,000,000 marks.

TOBACCO TRADERS UNITE.

Merchants of United States Organized to Secure Healthier Business Conditions.

New York, Nov. 8.—Organization of the Tobacco Merchants' Association of the United States was perfected at a meeting of representatives of the various branches of the tobacco trade here today. Jacob Wertheim, former president of the United States Cigar Manufacturers company, was elected president of the new organization which is said to represent, through its membership, a billion and a half dollars of capital actively engaged in business. One of the main objects of the association, it is stated, will be to bring about the employment of healthier and more profitable methods of doing business.

Permanent headquarters will be opened in this city and in addition branch offices will be established in Chicago, Denver, San Francisco and other cities.

ENGLAND JUSTIFIES SEIZURE.

Asserts That Hocking is Enemy Owned and Not American Ship.

Washington, Nov. 11.—Great Britain has notified the United States that the steamship Hocking was seized because it is "enemy owned." Secretary Lansing will call on the American Trans-Atlantic Company to prove its ownership. If American ownership is proven a demand for the release of the ship will be made.

SUNSHINE BRINGS JOY TO JAPS

AUGURS SUCCESS FOR EMPEROR'S REIGN.

Oriental Ceremonies of Consecration Carried Out in Old Capital of Nippon.

Kioto, Japan, Nov. 10.—In Kioto, ancient capital of Japan, Yoshihito was consecrated emperor today.

For days the weather has been wet and gloomy. At the moment Yoshihito bowed down before the ancestral sun goddess the rays of the sun flashed over the mountain, dissipating the clouds. According to legend the sun goddess in prehistoric ages emerged from her rock cave and filled the whole universe with glory.

The appearance of the sun today is interpreted by the people of Japan as a good omen of an auspicious reign of Yoshihito and of the destiny of the empire.

The first part of the principal ceremonies held this morning consisted of a ritual service of ancestor worship, which struck a note of religious mysticism. This afternoon Yoshihito was enthroned. The morning ceremony was addressed to the gods, it seemed, and the other to the people.

Foreigners who witnessed the coronation were deeply impressed with the scene, which took them back to the days of old Japan. American women were particularly interested in the sight of the Japanese noble women, in ancient court robes.

The American ambassador, George W. Guthrie, expressed himself as moved by the solemnity of the occasion. Post Wheeler, first secretary of the American embassy, who is studying the mythology of Japan, spoke of the immobility and silence of the people until Premier Okuma called "Banzai!" when the throng took up the cry and acclaimed the monarch.

Kioto is tonight crowded with persons from all parts of the empire and from many foreign lands. The streets are filled with countless promenaders, bearing lanterns.

The foreign women who attended the coronation were confronted with the problem of averting the risk of illness occasioned by sitting in open pavilions while clad in décolleté gowns. They solved the problem by carrying miniature charcoal heaters.

While the emperor was speaking this afternoon, Rear Admiral Winterhalter was seized with dizziness and forced to retire. His illness was not serious.

Premier Okuma, who is old and infirm, was assisted by three retainers who resembled ancient Samurai, as he mounted to his place before the throne to respond to the emperor's address.

ZAPATA FORCE BREAKING UP.

Washington, Nov. 8.—Zapata's army in southern Mexico is disintegrating rapidly, according to cable advices received tonight by the Carranza agency here. Gen. Pablo Gonzales, marching through Morelos with a large force, is expected to meet with little opposition. Many detachments of Villistas are reported to be bringing in their rifles.

State department advices today said relations between Gen. Obregon, the Carranza commander, and George C. Carothers, special agent of the department at Douglas, Ariz., were very friendly. It was reported recently from the border that Obregon had protested to Gen. Funston against the presence in Mexico of Carothers, who for a long time was the American representative with Gen. Villa.

MCGOWAN WINS A PENNANT.

Washington, Nov. 10.—When Rear Admiral Samuel McGowan reached his office at the navy department this morning he found conspicuously displayed on his large mahogany desk a beautiful red and black pennant. Making inquiry as to what the appearance of this pennant meant, Mr. McGowan discovered the following self-explanatory note from Lieut. Bryon McCandless, whose duty is in the naval operations department:

"I am pleased to inform you that the bureau of supplies and accounts, while under your command, in competition with all other departments of our navy received the highest combined merit in efficiency and economy for the year ending June 30, 1915. Therefore it gives me special pleasure to award this trophy to you, and I can not too highly praise the earnest and efficient manner in which you, your officers and your men have performed the duties assigned.

"The winning of this pennant is not a matter of chance, but the result of coordinate and earnest endeavor on the part of yourself and your subordinates."

MAYESVILLE HAS REVIVAL.

Mayesville, Nov. 9.—The Baptist congregation is preparing to hold revival services beginning next Monday. The pastor, the Rev. J. W. Gray, will be assisted by the Rev. John Brunson, who has a widespread reputation as a revivalist.

AN INHUMAN ACT.

Italian Reports of Ancona Sinking Accuse Austrians of Callous Brutality.

Rome, Nov. 11.—The German claims that the Ancona was trying to escape was officially denied today. Italian Consul Dominiona at Tunis reported that the Ancona stopped when shells were fired across her bow, but the submarine continued shelling the liner, killing and wounding scores of passengers. This report is based on statements of survivors who accuse the submarine of deliberately firing on the lifeboats. The press demands immediate vengeance, declaring that the crime was less justifiable than the sinking of the Lusitania.

INVESTIGATE EXPRESS ROBBERY.

Trunk of Sealed Packages From New York is Found in Columbia Party Emptied.

Columbia, Nov. 11.—Last Saturday a trunk of sealed packages left New York via the Seaboard Air Line railway and the trunk has been located in Columbia with some of the contents missing. The packages were shipped by the Southern Express company. The value of the lost articles could not be learned yesterday.

Representatives of the Southern Express company in Columbia will not talk. The agent at Columbia said yesterday that he had no statement to make.

Sealed packages are valuable packages for which an extra charge is paid to insure them. The matter is being investigated by the express company. The police of Columbia and the Seaboard Air Line officials knew nothing yesterday afternoon of the occurrence.

TORNADO WREAKS HAVOC.

Causes Many Deaths and Much Damage.

Kansas City, Mo., Nov. 10.—A tornado swept over parts of Kansas, Nebraska and South Dakota tonight, wrecking many buildings and killing a number of persons. The extent of the damage and loss of life could not be ascertained definitely because the storm tore down wires and shut off communication for several hours.

Estimates of the dead ran as high as 50 or 60.

Great Bend, Kan., reported the worst damage with 12 persons killed and more than 100 injured.

No reports were received from the rural regions and only a few from small towns in the path of the storm. One report said the tornado swept a path 16 miles wide at some places.

Among the towns in which buildings were reported destroyed were Claflin, Holiston, Larned, Kan., and Hartford, S. D.

One brief report from Great Bend said that half of the houses of the city were demolished.

Just how the 5,000 residents of Great Bend took care of themselves with half their homes wrecked could not be learned.

It was reported that fires broke out in the debris of crushed houses, but a heavy rain quickly quenched the flames. At Pratt, Kan., south of Great Bend, more than four inches of rain fell.

At Atchison, Topeka & Santa Fe train due at Great Bend about the time the storm broke had not been heard from late tonight and fear was entertained for the train and its passengers.

ENGLAND IS UNCOMPROMISING.

Will Make no Change in Attitude Toward Neutral Commerce.

Washington, Nov. 10.—Advice from Ambassadors Page, at London, and Sharpe at Paris, indicate that England and France will maintain an uncompromising attitude in regard to the note of protest against interference with American commerce. Administration officials are disappointed at this attitude. It is apparent that Great Britain will rely on the Bryan arbitration treaties to delay a settlement until the end of the war. Officials believe that congress is certain to enact retaliatory measures unless Great Britain changes its attitude.

STRIFE IN CONGRESS.

Bryan and Kitchin Will Make War on Administration.

Washington, Nov. 9.—A fight against the election of Claude R. Kitchin as the majority leader in the house is threatened as the result of his announcement that he will not support the administration's defense program. It is not believed that his election can be prevented, but northern Democrats are expected to make a fight. It became plain today that the preparedness program will stir up the bitterest fight the country has seen in years. The opposition led by Bryan and Kitchin will present sufficient strength to make it necessary for the president to secure many Republican votes to win. The administration is confident, however.

Have Already Disposed of Five Dodge Cars

Received Saturday

And are unloading five more today. We will receive five more later this week. Get yours while they last.

Its style is so attractive that frequently the car sells itself solely by its appeal to the eye.

The feeling of complete comfort and satisfaction experienced in the first ride confirms the buyer's first impression.

The motor is 30-35 horsepower. The price of the car complete is \$735 (f. o. b. Detroit)
