ATTORNEY ACCUSES STATE'S NEW YORK PUBLISHER.

French Traitor and Notorious German Frequent Visitors at Editor's Home, Says Official.

New York, Aug. 11.-Merton E. Moreover, Mr. Lewis asserted, he was prepared to show, by many affidavits, that Count von Bernstorff was a frequent visitor at the Hearst home Miss Minnie Moses is spending at about the time of Bolo's visit to New York in the spring of 1916, when Bolo obtained . \$1,683,000 from von Bernstorff with which to carry on the same German peace propaganda in France that Hearst was then conducting in America.

Mr. Lewis claimed that it had been shown "by the testimony of Hearst's Paris correspondent, Bertelli, given on the trial of Bolo for treason, that, in-Mrs. Shuford Sandel and daughter, stead of Hearst meeting Bolo only of Lone Star, are visiting Mr. and once, he met him three times." ### Increase of Crime in Germany.

New York, Aug. 5 .- (Correspondence of The Associated Press) War has caused an increase of crime and depravity among the German people, according to an analysis published by the Berlin Vorwaerts. The paper recalls that at the beginning of the war prophets spoke of a "steel bath" in the waters of which the morals of the German people would recuperate.

"Since August 4, 1914," says The Vorwaerts, "we have allowed the blessings of this bath to act on us with steadily increasing vigor and the result is a moral condition of health of the German people of which the compilations of criminal statistics give convincing reports. These tell us of the steadily increasing number of crimes of brutality, and serious crimes against property and a glance at any newspaper confirms the horribly increasing number of robberies and burglaries in the cities and as well as in rural districts. Systematically organized and methodically operating bands of robbers menace continually life and property of 'respectable' citizens.

"Also honesty of the latter has suffered a perceptible "crack" and here the influence of the steel bath is directly proved. We do not fear that we are disclosing any state-endangering secret when we announce the fact that at present there probably are few German subjects left who have not in some more or less serious manner violated the existing government decrees and laws and nfade themselves liable to punishment."

The Vorwaerts then cites the instances of the citizen, who on Sundays goes to the country to buy food for hoarding purposes, of the proud wife of the owner of a large estate, whose chickens "lay" eggs only for a mark apiece, of the wife of the first lieutenant who sells the food articles received from her husband at the front at forcy prices and the army of use ore, secret traders and

The Vorwaerts then dwells on the effects of the steel bath on the growing generaion and cites complaints by the clergy and teachers to show that depravity is one of its results.

The paper calls attention to what it describes as the "fruits of the best birthday of the "Revolutionary Game- numerable good Americans, including education as shown during the Radeck-Bernstorff libel case." It adds: "When refined cavaliers of the most prominent society apply the most common names to each other and box each other's ears, then no one has the right to claim for one certain

Wisconsin Ladies Help in Pea Canneries.

Milwaukee, Wis., Aug. 8.-Wives and daughters of wealthy citizens in the Wisconsin pea canning districts have entered the canneries to aid the labor situation. On Saturday they line up for their pay envelopes and receive a minimum wage for their ten hours work.

Forty per cent of the peas canned in the United States are put up in Wisconsin plants.

Earlier in the season pea packers expressed grave fears of a seroius labor shortage and pointed to the Food Administration's request for all the peas possible.

George P. Hambrecht, labor commissioner, after a conference with Food Administrator Hoover, sent labor commission employes into all homes and obtained pledges from women in all walks of life to work in the canneries if called upon. Then a conference was arranged

with the packers, who were informed that they would be provided with help if they paid the women a minimum wage, established a ten-hour working day except in an emergency and then not more than twelve hours, and made proper sanitary arrangements.

The packers signed an agreement, the women who had pledged their services were called on, the response was most satisfactory and the canneries now are operating with a full
