## COUNTY HEALTH SURVEY.

WOMAN'S COUNCIL OF DEFENSE TAKES THE LEAD TO SAVE HUMAN LIVES.

Ladies' Committees of the Women's Division of the Sumter County Council of Defense Authorized to Solicit Funds for the County Health Survey and Twelve Months Campaign of Education,

Mrs. Nina Solomons, chairman of the Wemen's Division of the Sumter County Council of Defense, has decided to inaugurate a county-wide movement to secure the necessary two thousand and five hundred dollars required in order to accept the exceptional and generous offer of five thousand dollars by the International Health Board, and the South Carotina State Board of Health, for a twelve months health campaign of survey. Believing that the saving of dangerous. human lives, and particularly of the lives of thousands of innocent, helpless, and precious babies and other children, as well as adults, is pecularly within woman's sphere of use-Jumess, as women are the logical guardians, by nature, and by force of circumstances, of the physical, social and moral, and mental environment of the homes of the nation, Mrs. Solomon. has appealed to the humane senitary intelligence of the white won of Sumter county through the wen known patriotic and public spirited lactes of the township committees named below, to collect the necary money to accept the offer of five thousand dollars, additional, and a corps of trained and expert sanitary specialists and educators, sanitary engineers, and a force of skilled twelve months campaign of education among the rural schools, white and colored, and a great many health institutes in every community of the county among white and colored citi-Illustrated, easily comprehended eath lectures, and other educational, alth and life saving features.

The negro Council of Defanse and colored ministers of the county have organized and have guaranteed a minimum of six hundred dollars as their share of the sary \$2,500.

Without hope of official cooperation from the county board of comdoners, it becomes necessary for the people to inaugurate this movenent themselves by popular subscrip-Mrs. Solomons, in common with many other progressive and intelligent women, and many men also, thinks that Sumter county will be showing a very poor order of sanitary intelligence and culture to reject, for the second time, this exceptional ofr from such important national and ate official, educational and public

DR. DERNBURG TALKS.

Says Peace by Understanding Will Come.

Amsterdam, Oct. 8 .- "Militarism has not attained its aim of peace by annexation, violence and oppressiona peace by understanding is coming instead," said Dr. Bernhard Dernburg, former German minister of colonies, speaking at Chemnitz, Saxony.

"With Prince Maximilian," he added, "the old German ideal comes to when we are classed as feebles and laborers in a continuous, systematic the fore-'Not what is useful but can only sit in the easy chair in the what is right and moral.'

"Such a peace will bring a new era and new and better times will dawn for Germany and the world based on the face in these years of our youth justice in thought and action. A new era means a fundamental revolutionary transformation of governmental system for the entire future.

"Militarism is an expression of violence without the restriction of authority. It terrorizes the entire state

"President Wilson's 14 old and five new points can be accepted by us if put forward honestly without humiliation for Germany. We shall not accept an unjust, humiliating peace. The new ministry is not only a ministry of peace but if necessary a ministry of national defense, and if it must be, to the bitter end."

"BEFORE AND AFTER."

Present Talk of the Kaiser Compared With What he Said in the Spring.

London, Sept. 25 (Correspondence of the Associated Press)—An amazing change in the tone of the German rulers and the German press, resulting from the victorious drive of the entente allies is noted here. Contrasted with their warlike declarations last spring when the Germans were making their victorious drive, recent utterances of Emperor William and Crown Prince Frederick are milder and regarded here as betraying their uneasiness and fear now when the fortunes of war are going against them. As illustrating this Emperor William said in April and May:

"The world war cannot terminate in any other manner than by the complete victory of Germany over all her enemies. The last few months have brought us successes which justify fuldrow, Misses Alice Cooper, Pearl our title to the strong peace which en roads to victorious German

> In July, after the great drive on the Marne, the future looked less 10seate to the Emperor for he said: The worst days of this war are still in store for Germany.

In September, after the allies had hurled back the German invaders and were breaking through the Hindenburg line, the situation apparently looked serious to the Emperor, for he

"The German people is fully aware of the gravity of the present struggle which will decide its future.

Crown Prince Frederick put no limit on his warlike aspirations in September 1917. He said then: "With scorn our enemies thrust back our offered hand of peace. The sword must continue its bloody work until our foes are compelled to adopt an-

other attitude." By September of this year, however, the Crown Prince was willing to concede that Germany's enemies should be permitted to live. He said:

"I have never taken the view that we should crush our enemies. I consider its moreover not desirable that place to live in, 'give me the land of our enemies should be annihilated be- liberty or give me death.' Of course cause there is room enough in this world for all nations."

Hospital Jokes.

With the American Army, France, Sept. 25 (Correspondence of The Associated)-The laugh and the joke and the prank are not absent from match his skill and strength with the the American military hospitals. There is suffering, of course, in these great, splendidly equipped institutions, but even the shrapnel loaded American citizen soldier has his fun. One surgeon tells this story: When the lines of stretcher cases

were being brought into his hospital and the kids. the surgeons stood in the reception ward making quick examinations. One stretcher was brought silently in, the form of a soldier lying rigid under blankets drawn over the head This is the sad sign of one who needs no more help. They motioned the bearers to set it aside in a corner and when the last wounded man had been looked over the surgeons reverently lifted the blanket from the face. The "dead" man sat suddenly up with a loud "Boo!" Then the "case" laughed, lay down and again drew the blanket over his face. They let him play his joke on others for awhile, shee crisis was said to be "terrible." then sent him to a ward to have some

Compared to which Mrs. Wells edited for years, the wonderful action up on the west- she preached the storing of grain by tern front this life of mine seems the women of the church relief soawfully tame here, but someone has cieties. The original work began to stay in the posts back here, I sup-

> "I met up with a number of friends I had in Charleston since I came over here. It is wonderful to see the action and movement all around; you just seem like a little gnat among all the insects of the globe. It is even possible that you yourself will be here in France fighting the battle for freedom before another year this time. Everyone is having to make great sacrifices, but it is better so than for your children and mine to fight it out chimney corner and chirp excuses as to why we didnt' fight it out, when German imperialism slapped us in It is a wonderful pleasure to know how everyone is doing their bit both here and back in the States. It is a good feeling when you know all the good people in the world are backing you in a fight.

"I have been in this location, somewhere on the coast of France, for almost six months now. I was in Paris a long time, and several times the Bosche came and dropped his pellets of high explosive, in order to scare the women and children, but he had just as well let his airmen sit over in Germany and warm their toes at the fire. It is funny how you can get accustomed to most anything, and how you can let a few bombs drop right around you and still think nothing of it. I suppose that is why we all like to gamble in some form, because we like the sport of taking a

"The madamoselles of this country seriously as our American girls. You don't have to hunt around for some one to introduce you; the mere fact that you are an 'Amerikain' will permit you to parle vous. I generally spend the evenings at the villages and the city around here, and I am little by little learning to speak a little French. You don't have any trouble in getting all you want, and these girls will love you if you just let them. Lots of Americans are getting their wives over here, and you never can tell, I may bring me back a French lassie yet.

"We have good roads all over the country, and we have Fords and Cadillacs and trucks. over here looks like it was built 'in Caesar's time, and lots of it was. The people themselves, the children even, with their wooden shoes and quaint dress and rosy cheeks, the mud-brick houses, all point to antiquity. The other day I was in an old chateau which was built in the time of Caesar. There were still the dark dungeons down under the ground, where water was continually dropping, drop by drop; there were the thumb screws and other instruments of torture of the Spanish inquisition. When you emerge again into the sunlight you feel as if you have been under a magic spell and taken back on a journey into the dark ages, and have emerged again into the twentieth century. Time itself must have to stop and think to remember when it all began.

"I have seen enough of this country and have learned enough of them all in the world to know that we really and truly do live in God's land, and you will learn this, too, if you ever leave it. It is alright to go out on a crusade for right, or for a little trip of exploration just to see how other folks live, but as for a I wouldn't under any circumstances care to leave here until we have gone all the way to Berlin, and the nearer the front I can get the better I will like it. In fact, there is not a man behind the lines but what would welcome a chance to go right up and minions of the Kaiser. That is the way all the men behind the lines think of it in general. I would like to pay you a little visit and have a good old talk over things, but as that is not practicable, I send very kindest regards and best wishes to you both

'Always your sincere friend, "E. O. Andrews, "Asst. Surgeon, U. S. N.

MORMANS SAVE WHEAT.

175,000 Bushels From Relief So-

Salt Lake City, Oct. 8 .- It was Church of Jesus Christ of Latter Day Saints, (Mormons). This store of grain had been saved up against a "I still have before me your much possible famine and was made avail-

The woman who was chiefly instrumental in saving up the wheat circumstances which have kept me the church relief society. For 42 years from writing. All of my own folks she carried out the wishes of Brig. think I have forgotten them, or that ham Young in the storing of the

Young, then president of the Morabout 125 cases of influenza out of happened to me, however, and I am mon church, taught her that some day there would be a famine and he urged her to advocate saving grain. Through the medium of a paper through the gleaning of the wheat fields and grew annually until in later years funds of the society were invested in wheat, which was sold when prices were high, the money being re-invested when the prices were low. Mrs. Wells traveled to every place in the West where members of the Morman church had colonized, preaching the storing of grain.

With the advance in transportation methods endeavors were made to stop the practice, but Mrs. Wells has insisted that the work be continued. The granaries of the relief society are again being filled at the suggesion of Mrs. Wells, who is still president of the relief society of the church, which numbers 48,000 members.

Mrs. Wells is in her ninety-first year. She is as active as a woman of 45. She has grandsons and greatgrandsons serving with the American forces abroad and one of her ambitions today is to fly in an airplane.

Advancement of her sex has always been a favorite field in the activities of Mrs. Wells. She was an associate of Susan B. Anthony. In 1899 she epresented Utah women at the Woman's International Council and Congress in London, and was presented to Queen Victoria during her visit there. She has been the Utah delegate to the National Woman's Suffrage conventions at different times.

ORTHEOPEDIC SURGERY.

Soldiers With Shattered Limbs Have Them Made Over.

Lonon, Seut. 25 (Correspondence of The Associated Press)-A Ca-O. K. They don't take life so nadian officer, wounded early in the one of the American Red Cross orthopedic hospitals in London, to have his left arm made over. The elbow had been shattered. The officer was given a choice of having a weak, movable elbow, or a strong stiff one. Without hesitation, the Canadian chose the tiff elbow, and astonished the surgeons by asking that the arm be made perfecty straight so he could use a hunting rifle and a billiard cue.

Another Canadian officer insisted on having his smashed leg so rebuilt that he could continue to ride a horse. It required months of orthopedic treatment, but when the patient finally left the hospial to return to his ranch in Western Canada, he was ready for the saddle.

These cases illustrate not only the special work of an orthopedic hospital, but how closely the surgeons consult the wishes of their patients.

SOLDIERS FROM HAWAII.

A Variety of Men of Different Races

Honolulu, T. H., Oct. 8 .- Statistics just made public by officials in charge of selective draft work in Hawaii show what materials are being poured into the American melting pot at the 'Crossroads of the Pacific,"

More than half of the territory's drafted soldiers are Filipinos, 525 of each 1,000 to be exact. Ranking next numerically are, respectively, Japanese, Hawaiians, Portuguese, whites other than Portuguese, part Hawaiians, Chinese, Koreans, Porto Ricans and negroes.

Despite the cosmopolitan character of Hawaii's military units, the commanding officers say that the men show a remarkable attitude for war, drill well together and will give a good no "Carolina Pirates."—is one of the surgical motor takes half a day. account of themselves if they are ever pitted against the Huns.

ROPE CHEAPER THAN AMMUNI-TION.

REV. SHIRLEY C. HUGHSON.

Wants to Match His Skill With the U. S. Food Administration Secured Father Hughson Raised to Headship ant A. Stovall of Savannah, now Clergyman Prominent in Journalistic Circles Early in Life.

(The State.)

The September number of The Holy Cross Magazine, published at West Park, New York, "in the interests of Catholic Religion and the Regular Life by the Order of The Holy Cross, and Laymen of the American contains the following Church,"

"Our meeting of chapter last month brought the time for the triennial election of the superior of the Order. Father Hugson was elected Superior. He has been professed in the Soul, Practical Studies in the Life the Order for 16 years. He will remain in office as master of novices. Father Harrison has been appointed assistant superior."

This will be read with great interest by students of South Carolina College during the early '80s, by many readers of the newspaper press of Charleston during the Tillman movement, and by thousands in the Southern and Eastern States, lovers of literature, "sacred and profane," who have heard, or who have watched with abiding interest the brilliant career of the Rev. Shirley Carter Hughson. If he has had any ambition, other than to do good, during the last 25 years of his life, surely it has been attained when the brothers of his order have elected him their superioror chief.

A brief sketch of his career, unique perhaps, among South Carolinians, can not fail to be of interest in this, his native State.

Father Hughson, O. H. C., is of South Carolina and Virginia stock. Through his mother he is descended from the Turners, Shirleys and Carters of Virginia and the Legares of South Carolina. His mother's grandfather was the Rev. Dr. Reynolds Bascom, an eminent Presbyterian minister. His father, the late Dr. John Scott Hughson, a gallant soldier in the Confederate Army, and for many years a leading citizen of Sumter, was the son of the Rev. William E. Hughson, a devoted minister of the Baptist church 'n this State. He was born at Cam n, February 15, 1867; received his early education at his home in Sumter, and in March. 1883 matriculated at South Carolina College. He remained only two years, spending most of his time, it is said, in the college library, where he was an omnivorous reader, apparently not caring much for scholastic distinction of preeminence in assigned duties. Returning to Sumter he continued his studies on his own account, paying special attention to history and English literature, and occasionally writing for newspapers. In 1888 he became a reporter of the Charleston World and in 1889 entered the service

of The News and Courier. During the memorable canvass of the Hon. B. R. Tillman for governor, Mr. Hughson was the chief actor in a dramtic episode at Marion, which is still well remembered by many, and attracted much attention at the time. It was distasteful to him then -and to recall the details would be doubly so now!-for he never cared terday. to "play to the galleries," or courted 'the limelight." It proved to all men his burning enthusiasm and personal The American losses, however, have

Nil extremis was not to be found then, or probably now, in his vocabulary; he knows no middle ground; he can at one time emulate the infinite pity and love for the erring that marked St. Francis of Assissi, and at another he can denounce weakness or vice in high places with all the earnestness, if not with the eloquence of

Leaving The News and Courier he went to the University of the South, at Sewanee, in 1891 where he was assistant master of the grammar school and pursuing himself certain lines of study. While at Sewanee he edited for a series of "Laurel Crowned Letters," published by a great Chicago house; "The Best Letters of Percy Bysshe Shelley." His introduction is a brief but charming essay on Shelley, line when their services are urgently showing nice and discriminating critical ability. A second edition of this are being completed for this use on work was published by William

Heinemann of London.

studies for the degree of doctor of philosopy. His invaluable monograph, They will have a speed of from 45 to Commerce, 1670-1740"—although its them to reach, for example, Noyon to title is misleading, there having been four best contributions to the State's history published since the War of Secession. It convinced his friends of his unquestioned ability as an historical investigator, largely but not entirely, in the modern "science" sense. It is known that Mr. Hughson made elaborate studies in the history of the Nullification movement and of the Slavery regime in South Carolina, and pleted, nor did the prospect of a doctor's degree in philosophy continue to charm him, for in 1893 he left the served at St. Mark's Church, Philadelhia, as curate. In January, 1900, he capital here. Gen. Murguia ordered took the oath of a novice and in due more than 100 of Villa's partisans time entered into full connection with within the city hanged to the cotton- the Order of the Holy Cross. Father Hughson was mainly instrumental in establishing a home and school for mountain boys at St. An-Casualties Total Thirty-seven Thou- drews, in the Cumberlands, near Sewanee, Tenn. In 1908 many ardent London, Oct. 8.—British casualties admirers presented Father Hughson's

eergia. It is no secret among his "Killed or died of wounds, officers riends that he was greatly delighted 

show the love my friends have for me." It was at this time that Pleasof Order-Career of South Carolina American Minister to Switzerland, wrote: "I met Father Hughson but once and have heard him peach only a few times, but I recognized in him a man of power and originality . . . He is a worker and a speaker and impresses me more than any clergyman in the Episcopal Church in the South."

He has found time in the midst of a very busy life; now at Holy Cross a Religious Community for Priests Monastery; then at St. Andrews, and year after year on frequent "missions," frequently in company with Father Sill, to Episcopal churches throughout the Union, to write two books-far, far removed from Sheldley's Letters and Carolina Piratesthey are entitled: "The Warfare of of Temptation," and "The Fundamentals of the Religious Life." The purpose of his last work can, perhaps, best be given in the opening paragraph of the preface. He writes:

> "After three years' suppression, the Religious Life in the Anglican Communion was revived now nearly three-quarters of a century ago. During this period it has produced, in one form or another, a wealth of literature, most of it being of a devotional character.

> "Although the principles of the Life have been assiduously studied by men and women of learning and ability, no book has yet been written which can be freely put as a textbook into the hands of aspirants and others desiring to know what are the technical principles of the Religious

> The keen, cheery humor of the Hughson of the brave days when he was 21 crops out in a note sending a copy of this work to an old unregenerate friend and newspaper associate. He writes: "You will not understand a word of it, but it is with some glee that I send you a book of my own making that will baffle even

your astute brain." The apparently sudden transition that Father Hughson made when he gave up the old life as "a man of the world," using that phrase in its best sense, and took the Benedictine vows of poverty, celibacy and obedience, filled his friends with astonishment. It is not uncommon among Celtic and Latin peoples, but unusual among races that are largely "Anglo-Saxon" or follow those ideals. If the brilliant head of the Order of the Holy Cross were asked today "in what happiness consists?" he would probably assure us in the wolds of another; that "happiness is not the result of pleasure, commencing with enjoyment and turning naturally into the satieity of fruition, but of pain, dedicated to God by consecration, and transfigured by resignation into the peace that attends the practice of His
