Business in 1922

Discussion of Conditions by the National Bank of Commerce, New York

today indicate that the year 1922 they offer the first real hope of re- wind. Cats, as is well known, are as a whole will be more satisfac- covery from the economic stagna- more or less affected by rainy tory to business than the year just tion of the world. A combined weather. ended. Our forecast is that profits saving by the United States, the Thus, when rain falls pussy gets Fire Truck Hits will depend more on economy of United Kingdom and Japan on frisky. Consequently, in talking of for the new year, but they should for nearly three years. plan with care and conservatism. and with constant effort toward reduction of costs.

Financial improvement continues. Progress has been made in reduction of excess stocks of man-The rate of production in the machange during the closing weeks crippled children of America, is over the low level of the earlier months of 1921 have been held.

Banking Position.

The last twelve months have witnessed great progress toward stable financial conditions in business. Combined gold reserves of the twelve federal reserve banks have increased by more than 40 per cent, while discounts for member banks have dropped 56 per cent. and federal reserve notes in actual circulation have declined 28 per cent. The federal reserve system once more proves to be a system designed to care for increases and decreases in the volume of c edit, with the requisite elasticity to do this easily. striking, is nevertheless satisfac-

Lenine's Return to Russia

> Riga, Latvia, Dec. 5.-Karl Radek, the Bolshevik writer and propagandist, has published an article in the Moscow Pravada's edition celebrating the fourth anniversary of the Lenine revolution in which Radek denies the widely-circulated story that the Bolshevik revolution in Russia was financed by German

the Trip Through Germany

description of the historic return of tion of foods for any family at any Nikolai Lenine from Switzerland season of the year and under through Germany to Russia in the spring of 1917, with the permission The United States Department of of the German government. This was the beginning of the revolu-Agriculture has just issued a new Farmers' Bulletin, No. 1228, pre- tion and of Russia's withdrawal

ticate solid food, say many doctors. Oh! Boy! Such a Waste!

Twenty-three 40-gallon barrels of whiskey were poured down the Brooklyn sewers recently. It had been confiscated by the United States Marshal under the direction of the court and was part of a supply for bootleg saloons.

Closes Saloons.

Prohibition has been the law of the land for some few months, but it was not until recently the true orce of it hit Bristol, Conn. The prosecuting attorney recently gathered all the saloon owners in his office and informed them that they must close their places within five days and dismantle the interior of them. Needless to remark his ultimatum was obeyed, as he stated further that any convictions for violating the law would meet with

Wedding Bells

jail sentences and not with fines.

Why does the Bride invariably desire to be dressed in white at her marriage? stands for joy, and the wedding day is the most joyous occasion of a woman's life.

A small boy queried. Why do
