THE RESPONSIBLE PARTIES.

If any one is qualified fairly to compare or contrast the young people of today with those of one or more decades ago, it should be the wise, sane teacher who has worked with young people over the whole period.

NARCOTIC JAZZ.

In a play now running in New York, jazz is called our "National Anthem." Rabbi Stephen S. Wise, prominent Jewish leader, says that it should be called "anthem" but "anathema" or even "damna-thema."

TALK AND WORK.

The editor of the Breeder's Gazette, magazine of stock raising, was invited to go to the agricultural conference at Washington, but he did not go, because he felt that what this country—and the world—needs is not more talk but more work.

RABELAIS AND THE MAILS.

Francis Rabelais is rebuked. More than that, the great French humorist's works are barred from the mails. A postoffice inspector in Ohio has ruled them out, and also brought suit against their New York publisher on the charge of circulating obscene and indecent literature.

WORLD LEADERSHIP.

At the last plenary session of the arms conference, previous to the formal signing of the treaties, the last speaker was Viscount d'Albe, the Portuguese minister. He undertook to sum up the work of the conference in these words, which deserve to be read with pride by every American.

two members of the conference, who, though invisible, were not silent, for they spoke directly to our minds and hearts and had a decisive influence in shaping our decisions.

I refer to that epic of human generosity that is the story of American relief, and to the shining example of the nation who after being the deciding factor in the greatest war the world has ever known, retired from the struggle with empty hands, with not one advantage to show for the tremendous sacrifices she had made.

Americans, despite the reputation they have sometimes gained abroad, are modest. They would like, at any rate, to feel that they deserve this praise, which is as great a tribute as one nation ever offered to another.

There is no question that America can lead the world, along lines of noble and hopeful development, if America chooses to do so. The ability and prestige are here, and the world is willing. The only question is whether America wants to lead continually and consistently, with the full courage of a self-confident leader, instead of doing so intermittently or half-heartedly.

ROCKS FOR LAW-BREAKERS.

A Los Angeles judge dealing with serious traffic-rule infractions has hit upon a punishment which really appears to fit the crime.

INTERESTING PHASES OF CLUB WORK.

Clemson College, Feb. 6.—The annual report of L. L. Baker, supervising agent of boys' club work, for 1921 shows some interesting phases of decided educational value, such as community organization, encampments and short courses, exhibits at state and county fairs, dealings with banks, the use of purebred seed and purebred animals, etc., things which make club work worth while, regardless of the monetary value of club work.

GERMANY'S ABSENT GOLD.

German banks are said to be in communication with Swiss banks in an effort to determine the amount of German securities, gold and other funds on deposit in Switzerland. The effort is due to a desire of the German government to make a forced loan on German capital.

SWEETENED POISONS

The Carefully Conducted Experiments Show No Real Merit. Clemson College, Feb. 15.—That so-called binders, stickers, and sprayers have no material merit in making poison spray stick to the cotton plant; that no material advantage seems yet to have been secured by the use of sweetened poisons in carefully conducted experiments; and that calcium arsenate under the conditions and careful study of the conditions and careful study of the conditions, says Prof. A. F. Conrad, in a statement on the much discussed subject of sweetened poisons for boll weevil control.
