MORE MONEY IS LOOSE

be writers to put their money in nearest the point of danger? first mortgages on improved real estate, they are sore. This indi- rest of creation. cates, to the mind of the financial easers, that "the temptation to take a chance in the hope of making something more than compound interest is again becoming irresist-

This does not prove that spec ulative investments are wise, especially at this time, for as the stock market advances it is subject to temporary sharp reactions which make marginal operations core and more dangerous.

It does prove, however, that there has been a marked change in the psychology of business in the last few months. Except in the two fines where there are strikes of a serious nature, optimism has become the daily atmosphere. Steel; coment, jewelry, coffee, government bonds—these are only a few of the lines in which there are rises and firm markets and cheer-

FLEXIBLE GOVERNMENT

Whatever may be the final form of the tariff bill, it seems likely to retain the provision giving the tariff commission, by authority of the President, the right to modify duties from time to time, within reasonable limits, to suit changing trade conditions. This plan would be a marked improvement over the old, inflexible rate schedule, if administered ably, without prejudice or partisanship, and would do much to make the tariff a matter of national business rather than nation-It may well be asked why a

similar policy should not be applied to immigration. The old way to let in any number of immigrants, so that the country was sometimes swamped. The present way is to admit a number which depends on a percentage plan that claims against each other, and makes it rather definite and arbi- agree to do business with each trary.
