Missionary Meeting At Trinity Church

Talk by Miss Lester

The missionary meeting held Thursday afternoon at the Trinity ethodist church was a very successful one. Every one was pleasd with Miss Lester and her interesting talk.

The ladies were welcomed at the ir by Mrs. Lamb, who presided iver the meeting in an easy and gracious manner. After she gave a words of welcome she introduced Miss Lester. 98 111

Miss Lester has appleasing and attractvie personality) She has seen connected with missionary work for 15 years, having taught in the McTyeire school for girls, in Shanghai, China. 1: 1:

Her lecture was both entertain-Ing and instructive, and the audience gave her their undivided ation. She compared the old China with the new ashowed what a marked improvement had been made. Stated that the schools were accomplishing a wonderful work, and that the high school boys and girls and college students were wielding a wonderful influence in China, in fact they are the backbone of China. She spoke of the needs of physicians, such a small number in comparison with the

CITY COUNCIL CONSIDERS **ABATTOIR**

Council Hears Experts and Citizens Relative to Location of Slaughter House-Site to Be Purchased From Dr. China

A special meeting of council was held in the office of the health officer July 1st, there being present Mayor Jennings, Councilmen Mc Callum and Raffield, Mr. Tisdale, chairman of the board of health, Dr. Browning, health officer, and a number of citizens of the city who had entered protests against the erection of the city abattoir on Magnolia street, fearing that their homes, located in the proximity of the proposed sites, might become impregnated from time to time disagreeable odors arising from the operation of the plant, making their homes untenable, and in order to satisfy all parties at interest that their fears were unfounded, council had previously authorized the invitation of several abattoir experts to be present at this meeting to make unbiased statements as to the possibility for such odors. Dr. Browning gave his experience at some length, citing cities in the south that are operating up-to-date abattoirs such as is proposed for Sumter, and stating hat abaktoirs can be made practically odoriess, and according to the plans drawn this plant would such that no odor would be detected outside of its walls, and practically none on the inside.

Mr. C. H. A. Wannenwetsch o Buffalo, N. Y., was next introduced board asking for aid. The board as an expert on abattoirs, stating for over 20 years, and that he could cite hundreds of abattoirs in operahe board asking that the new tion in practically the heart of cities, in close proximity to the finest homes, churches, etc., and no complaints ever offered for any eason whatsoever; that the plants can be and should be kept clean and sweet in its various departments of operation, and no disagreeable odor of any kind could be detected either inside or outside

Mr. Wannenwetsch further explained the construction of such plants for the complete destruction for aid which had been referred to and consummation of such possible odors, and stated that the citizens of Sumter should have no fear of any disagreeable or unpleasant odors. Mr. Denham, general manager of the plant at New Brunswick, N.
