LIPTON LIKES AMERICANS. Did Everything For Him Except Giving Him the Cup, He Says. New York, Nov. 26.—A dispatch to The Journal and Advertiser from London quotes Sir Thomas Lipton, commenting upon his treatment in America upon the occasion of his address at the dinner at the Hotel Cecil in the following language:

"No words of mine can exaggerate the admirable manner in which the course was kept clear for the yacht races or the gentlemanly, sportsmanlike treatment meted out to me by the New York Yacht Club. American yachtsmen and the American people did everything for me save giving me the cup. It is gratifying to me to think perhaps the races have done something to increase the good feeling between the people of the United States of America and this country. I am well able to say from personal experience that nowhere in the world can there be found people so hospitable and generous. The kindness of the Americans proved to me beyond doubt that Englishmen and Americans are of the same kith and kin."

May Challenge With Shamrock III. London, Nov. 26.—Sir Thomas Lipton's announcement last evening at the banquet given in his honor at the Hotel Cecil that he was willing to make another attempt to lift the America's cup should no one else do so may be taken as tantamount to a definite challenge. His inquiries in yachting circles have elicited the fact that no other British yachtsman has the slightest desire to step into the breach, and it is safe to say that his Shamrock III will be seen in American waters.

MARINE DISASTERS. Incoming Vessel Reports Wrecks from Recent Gale. New York, Nov. 26.—A large, square rigged vessel possibly went down in the recent gale off the Delaware coast. Captain Wheeler and his crew went down with her or have been saved. It will not be known for some time what became of the captain and crew, for if picked up they might have been taken across the Atlantic. Upon the survival of the crew probably will depend whether the name of the ship ever will be known. The steamer Philadelphia, which arrived today from Venezuela and Porto Rico, says:

"On Nov. 25 in latitude 38.25, longitude 72.20, passed a large spar standing on end with yards and sails attached. This location is about 140 miles east of the Delaware capes. The Philadelphia also reported having, on Nov. 22, in latitude 29.29, longitude 69.43 (off the Florida coast), passed the side of a vessel about 80 feet long and 20 feet wide.

Memphis' Oldest Merchant Dead. Memphis, Tenn., Nov. 26.—Joseph Specht, the oldest merchant in this city, died this morning, aged 83. He came to Memphis from Germany in 1849 and had ever since been in active business at the same location.

DEMAND FULL RANSOM. Brigands Say They Will Kill Their Captives If Not Paid. New York, Nov. 26.—Commenting on the report that the brigands have sent a message to American Diplomatic Agent Dickinson that unless he acceded by Jan. 1 to their original demand for 25,000 Turkish lire, or pounds (\$10,000) ransom, they will kill both their captives, Miss Ellen M. Stone and Mrs. Tsalika, the Sofia, Bulgaria, correspondent of The World says:

"This report comes in private advices from Dublitz, the Bulgarian frontier town, which is the representative headquarters of some of the secret agents through whom Mr. Dickinson has been communicating with the brigands. The message is said to be the robbers' reply to the ultimatum reported to have been sent to them by Mr. Dickinson (but which he denied sending) offering as ransom 12,000 Turkish lire or pounds (\$52,800) and no more, and giving them until next Saturday to accept that sum, after which time previous offers will be withdrawn. Mr. Dickinson, who was the United States consul general at Constantinople when he was appointed diplomatic agent at Sofia, went of Constantinople immediately after the report became current that he had sent an ultimatum, and he is still there. The report that the brigands will kill their prisoners is not believed at Sofia."

GEORGIA LEGISLATURE. Two Sensations Sprung in the House Today. Atlanta, Nov. 26.—Two sensations were sprung in the house today. Representative Toomer, of Ware, made the open declaration in a speech that if the perjury should be eliminated from the tax returns of next year there would be no necessity for taxes for the next three years to come.

Representative Kelly, of Glascock, sprung the other, when he said the state would suffer from having accepted the soldiers' home, as it would continue a burden on the state even after the old soldiers had all died off, as it would be tacked on then to some other state institution. Beginning tomorrow the house will have two sessions, from 9:30 a. m. to 1 p. m. and 3 to 5 p. m.

The opponents of the Atlanta depot bill claim there are 77 or 75 against the measure, with 23 non-committal. The depot bill, last year received only 83 votes. The senate passed Senator Hamrick's bill declaring fertilizers in the hands of farmers to be used on lands considered as returned for taxation when such lands are returned.

STEVENS ATTEMPTS MURDER. Takes Woman to Deserted House and Shoots Her. Macon, Nov. 26.—A warrant was sworn out yesterday for Henry Stevens, negro chairman of the Twiggs county Republican committee, charging him with attempted murder of a young negro woman named Curtis. Stevens has been a schoolteacher for several years. He took the woman to a deserted house near a swamp Friday night. She complained of feeling ill, and as she lay upon the floor with her head covered with a cloak he shot her. She became unconscious, but was aroused by flames, the house having caught fire. She ran to a window and called Stevens. He fired two shots at her as she stood in the light. She escaped through a hole in the floor and lay in the swamp all night. She reported the facts when discovered.

Officers are in search of Stevens, but he has disappeared.

KEPT BY FORCE IN SANITARIUM. Baldwin County Man Confined in Institution Against His Will. Macon, Nov. 26.—A writ of habeas corpus was signed by Judge Emory Speer in the United States court last night in behalf of Samuel H. Evans, one of the leading bankers, warehouse men and lawyers of Baldwin county. He is confined in Dr. Allen's private sanitarium at Milledgeville.

Mr. Evans' wife has kept him in the sanitarium, it is claimed, against his will and without any legal process. Under the Georgia law a private sanitarium can detain a patient and treat him without his consent.

The proceeding in the federal court is to show that this law is unconstitutional.

Rural Delivery in Morgan. Madison, Ga., Nov. 26.—The rural free mail delivery has been started in Morgan. One route has already been secured and operations will begin at once. Andrew Torbet, of this city, has secured the route. Other routes are being planned and we learn that Congressman Howard is bending his energies and influence to the work, and in the near future expects to have complete free rural delivery system throughout the county.

SWITCHMEN STRIKE AT PITTSBURG, PA.

Affects All Lines Entering City Except Two. WANTS STANDARD WAGE SCALE

Influence of the Strike Will Probably Be Felt by Millowners Throughout the State—Brotherhood of Trainmen Oppose the Move. Pittsburgh, Nov. 26.—A strike for increased wages for all switchmen belonging to the Switchmen's union of North America in the Pittsburgh district was inaugurated this morning. Reports have not been received from all the yards, but the officials of the union say it affects every road entering Pittsburgh except two and all private individuals and corporations. There are between 600 and 1,000 members of the local organization and the union officials claim that the response was general.

In fact demands the switchmen asked for the enforcement of the standard scale of wages. This calls for 27 cents an hour for day conductors and conductors, the night men to receive 2 cents more per hour, their work being more difficult and dangerous. Under the new schedule the day helpers and brakemen are rated at 25 cents an hour and the night men at 27 cents.

Whether the strikers will secure the support of other railroad men cannot be learned at this time. The officials of the union claim that other railroad organizations cannot, if they adhere to the principles laid down by their organizations, conscientiously oppose them. It has been stated by W. G. Lee, vice grandmaster, that the Brotherhood of Trainmen is not in favor of the strike and will not endorse it. It is learned that the strike not only affects Pittsburgh, but McKees Rocks, McKeesport, Bradock and adjacent territory. Its influence will probably be visibly felt by mill owners throughout the state.

WOMAN WASHED OVERBOARD. Swept From Deck Before Her Husband's Eyes. Philadelphia, Nov. 26.—Captain Hill, of the steamer Adirondack, which reached her dock from Liverpool today, reports that when the steamship was abreast Nantucket light early yesterday morning Mrs. H. McNeal, wife of Dr. McNeal, of Ann Arbor, Mich., was washed overboard and drowned. There was a heavy sea running at the time of the accident. Dr. McNeal, who was on deck watching the storm, went to his stateroom and called his wife to come on deck and view a passing steamship. The couple had been standing together for only a few minutes when an immense wave swept over the Adirondack, carrying the unfortunate woman overboard. Her body was not seen after it had been carried away by the wave.

STRIKE OF MINERS AT NORTONVILLE, KY.

Fifty Armed Men Again Encamped at That Place. WILL RESIST THE AUTHORITIES

It is the General Opinion That Before the Campers Can Again Be Dispersed More Troops Than Are Now on Grounds Will Be Necessary. Madisonville, Ky., Nov. 26.—The camp of the striking union miners at Nortonville is again a reality and the most authentic reports from there today are that there are about 50 armed men in camp and from their appearance and manners it would seem that they have come to stay and will resist any attempt on the part of the authorities to again remove them.

In a conversation with Thomas Rooney, a member of the official board of the United Mine Workers of America, it was learned that the new camp was established yesterday with 50 charter members and one large tent. Rooney also said that before tonight there would be more than 250 men in camp, with ten or more tents. He said the correspondents and better give the camp a wide berth. There is now no doubt that the union men will make an effort to retain the "home of the strikers" on the same old site, a quarter of a mile south of Nortonville, notwithstanding the mandatory orders of County Judge Hall to the contrary. It is the general opinion that before the campers can again be dispersed, in the event the county officials remain firm in their determination to exterminate and disband the "unlawful assembly of intimidators," that more troops than are now on the ground at the command of the officials will be necessary to enforce the mandate of the court.

Boiler Explodes, Seven Men Killed. Terrible Disaster Reported From Detroit, Mich. THIRTY-FIVE PERSONS INJURED. The Force of the Explosion Was So Great That It Demolished an Entire Three-Story Brick—List of the Casualties. Detroit, Nov. 26.—The boiler in the factory of the Penberthy Injector company, Seventh and Abbott streets, exploded at 9:30 today with such terrific force that it demolished the entire three-story brick building in which it was located. Inside the structure some 50 men were at work. More than half of these were more or less seriously injured and at least three were killed.

The rear or mechanical building was 54 by 100 feet in size. It was separated from the large structure adjoining it by a narrow alley. The mechanical building was instantly destroyed and a portion of the wall and other blown in. No one in the rear building was seriously hurt except one girl, Edie Davis.

The dead list for ascertained are: Samuel Reilly, a steam fitter; Richard Ryan, two unidentified. The injured: Fred Klein, Lewis Miller, T. D. Crowley, William E. ...

JACKSONVILLE BUILDING UP. Total Number of Permits for Houses is 1,273. Jacksonville, Fla., Nov. 26.—At the rate at which building permits have been issued at the office of the building commissioner, it is expected that the 1,300 mark will be reached by the end of the week. Up to the close of business last Saturday at Commissioner Pricigan's office there had been issued 1,273 building permits since the fire.

Of this number 121 were for brick structures and 1,142 were for frame buildings. During the past week there were 30 permits issued. The building operations are now being carried on on a larger scale than ever before, and the early part of next month will witness the completion of some of the very large buildings, notably the West building, which will be ready for occupancy by the many tenants who have already engaged offices in this handsome and modern structure. The West building is to be ready by Dec. 15.

A BRITISH VIEW. Uncle Sam's Temporary Occupation of Isthmus Approved. New York, Nov. 26.—Concerning the troubles on the Isthmus of Panama, the London correspondent of The Tribune says:

"The temporary occupation of the Isthmian railway line by the United States troops is regarded with approval in London. It is recognized that America is acting in accordance with her strict diplomatic rights, but it is by no means certain that the continental powers look on the matter with a friendly eye.

"Continental apprehension, remarks The Telegraph, is so far justified that the time must come, sooner or later, when the American forces will land to stay."

New York in Blizzard's Grasp. New York, Nov. 26.—A blizzard has been raging throughout northern New York for the last 15 hours. The fall of snow has been very heavy. Trains are late and country roads are badly drifted.
