Operation Not Needed

Mrs. W. N. Barnes, who lives in Ballard, Calif., has sent to the Pinus laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Barnes says:

"Doctors says gall-stones cannot be cured without an operation, costing much money as well as unnecessary suffering. I am cured, I know, and this is proof positive, and my friends know that such is the case."

Fruitola is powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficacy. Traxo is a splendid tonic alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion, and removes bile from the general circulation. Traxo should be taken three or four times a day following a dose of Fruitola to strengthen and restore the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Fruitola and Traxo through leading drug stores. In Union they can obtain it at Milhous Drug Co.

The Best Hot Weather Tonic
GROVE'S TASTELESS CHILL TONIC enriches the blood, builds up the whole system and will wonderfully strengthen and fortify you to withstand the depressing effect of the hot summer. 50c.
