JONESVILLE

Jonesville, Aug 10.—I have been accused of writing a short letter to the Times last week and by referring to it I find it is rather shorter than my usual letters, but I have no apology to offer for it. I am in favor of short communications, short sermons, short speeches, and short talks. I really have suffered in the flesh from long sermons and long prayers and sometimes they come from smart, educated men. How does that sound? I will spin this article out a little lengthy and just let it roll.

Taking a glance at things, I find encouragement at the circumstances that surround us. For several years there have been several car loads of Western mules shipped and sold in this market, but not a single mule has been shipped to Jonesville this year—then again car load after car load of commercial fertilizer have been shipped and sold here year after year and not a single car load of the stuff has been shipped here this year. Then I note that the country is fast filling up with automobiles and pianos—all very costly luxuries—then the travel on the railroads and trolley lines is just wonderful. Now all these things go to show that there is money in the country and a great deal of it. It may be that the people are living too fast and there may be a

break down and a crash just ahead, but I hope not. There may be general prosperity in the land, if not somebody and many somebodies are going to fall down. Time alone will tell.

It may be that enforced circumstances will bring a reaction in this country that will result in much good.

I heard a farmer say the other day that he used no guano and that his cotton was as good as usual and this can be said of many more farmers. The guano saved will go a long way in helping out expenses.

For quite a while there has been quite a lot of coming and going among the people and perhaps I should have mentioned it but for lack of proper information have refrained. Right here I will say those desiring their coming and going or that of their guests chronicled, if they will drop me a line, I will send it in, otherwise it may not appear as I cannot take the time to hunt up the information of this sort.

Protracted services have been going on at New Hope church for the last week.

Mr. F. M. Coleman got thrown from his wagon one night last week while on his way from night meeting and was badly hurt, but is improving and doing well.

The negroes closed a week's meeting at one of their churches here last

Saturday. It was a meeting of loss and gain, so far as membership was concerned. I understand they turned two hundred members out of that church and took in twenty-two—a pretty good proceeding. Some other church might do well to practice the same rule.

The Congressional election is on today, and it is very quiet. Voters are coming in right lively. Johnson is getting most of the ballots this morning.

R. C. WILLIAMS,

To the Voters of Union County

I take this opportunity to express to you my sincere appreciation for the handsome vote you gave me in the first primary election for Congress. I realize that a great number of my friends voted for Judge W. W. Johnson in the first primary election because he was a man of sterling character and unusual ability, and a citizen of Union County. I would like to see each and every one of my friends in person and express to them my appreciation for their efforts in my behalf, but I will not have an opportunity to see many of them between now and the second primary election. I desire, therefore, at this time to urge all my friends to be sure to go the polls on August 24th and vote.

Thanking you again, I am,

Very sincerely yours,

August 11, 1915.

Sam J. Nicholls.
