GIVE BOYS FIGHTING CHANCE WITH MILITARY TRAINING

(By Wm. Wrigley, Jr., Chicago)
How fortunate it would have been had we adopted universal military training five or ten years ago. It would have meant much in the present crisis—it probably would have kept us out of the war. But it's no use to cry over spilt milk. The question is, what shall we do now? Every thoughtful man must feel that a nation unable to protect itself promptly is blind to the tragic possibilities of its heedlessness. War comes unexpectedly and, as in our own case, it is sometimes forced upon an innocent bystander. For three years we submitted to insult and injury, until forbearance ceased to be a virtue and there was nothing left for us but to assert our rights and to defend them. No country in the world hates war more than we do. Only extreme provocation would induce us to take up arms. Experience shows abundantly that a peace-loving nation is not safe because of that fact. Belgium and some of the Balkan states are evidence of it.

As the world is constituted, and has been through thousands of years of strife, there is only one safe plan, and that is to follow the advice of Washington—in time of peace, prepare for war. If we had done this a few years ago, we would have saved billions of dollars and tens of thousands of lives. It is common knowledge in military circles that trained men, by knowing how to take care of themselves in camp and in the field, reduce the mortality and casualties at least two-thirds, and, what is even more vital, men of special training only can be used in modern warfare.

Nationally, we need a little foresight, a keener appreciation of the necessity for providing for future contingencies. We cut ice in the coldest sort of weather when nobody wants ice, for we know it will be demanded a few months later; so we prepare in mid-winter, for our comforts during the heated period of summer.

The plan of universal military training outlined in the Chamberlain Bill would make available at all times, millions of young men who have had sufficient military training

to enable them to become excellent soldiers with a few weeks of additional training. This would safeguard the nation and prepare it against any contingency that would probably arise, and if one should never arise, the training and discipline would be the very best experience that any young man could have. It would make him stronger physically, more alert mentally, quicker to see and to act. Also, it would increase his earning capacity and give him a better chance to win success in his life work. Our boys appreciate this. I think the majority of them would be glad to take the training.

War is a calamity beyond description. We are sorry that any of our young men should be compelled to engage in it, but there are some things worse than war, and one would be to have our country dominated by a foreign power—by a rule, of ruthless militarism that counts war as a regular business.

Since the boys may at any time be called upon to defend our country and our flag, we owe it to them to provide them with a careful pre-training so that they may perform this important national function both efficiently and as safely as possible. We must not be asleep at the switch. The responsibility is up to the American citizen and the voters of this country to demand the passage of the Chamberlain Bill or some similar measure by congress at its next session. It has already been postponed too long. It's time now for action.

CONVICT GERMAN IN TWENTY MINUTES

Philadelphia, Pa., Oct. 1.—A jury in the federal court here today took only 20 minutes to convict Capt. Max V. Thierichens, former commander of the German commerce raider Prinz Eitel Friedrich, of violating the Mann white slave act. The captain faces a sentence of ten years' imprisonment and a fine of \$10,000. He was charged with bringing Marie Funk, a German girl, from Ithaca, N. Y., to Philadelphia for immoral purposes.

Drives Out Malaria, Builds Up System
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 60c

NORTH CAROLINIAN FIRST MAN KILLED

Washington, Oct. 2.—The first casualty among the American troops in France was announced today by the War Department. Corporal Ernest F. Hart, of the signal corps, and son of D. W. Hart, of Oxford, N. C., was killed when a hand grenade with which he was practicing behind the lines accidentally exploded.

The first American soldier killed during the Spanish-American war was also a native of North Carolina. He was Worth Bagley, a brother-in-law of Secretary of Navy Josephine Daniels.

Doubtless it is true, as a learned writer observes, that nearly every American family could keep a pig on what goes into the garbage can, but the facilities of the average flat dweller for housing a pig in order to keep it are somewhat limited.

LOOK AT A CHILD'S TONGUE WHEN CROSS, FEVERISH AND SICK

Take No Chances! Move Poisons From Liver and Bowels at Once.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and they become tightly packed, liver gets sluggish and stomach disordered. When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can not cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

STRIKE RAISES HIGH COST OF DYING

Boston, Oct. 2.—Residents of this city are to be caught coming and going, apparently. Long they have been suffering from the high cost of living. Now they are confronted with the high cost of dying.

A strike has been declared by the grave diggers. They want \$3 a day.

RESIGNS AS GOVERNOR TO JOIN THE ARMY

Omaha, Neb., Oct. 2.—Keith Nivelle, Nebraska, millionaire governor, will resign and enter the army.

He has been appointed colonel of the Seventh Nebraska regiment and will begin his new duties as soon as the regiment is federalized.

"I cannot go on urging the people of my state to enlist unless I enlist also," Neville said.

WEAR WOMAN'S CLOTHING.

The following dispatch to the Charlotte (N. C.) Observer from Monroe in Union County, N. C., shows that Camp Jackson may soon have an old type of man:

A young man hailing from Goose Creek is here today wearing a dress, and to be examined by the local exemption board for military service. He is accompanied by his mother, and they have been all morning waiting the call from the doctors. The man wears a real dress. He is about 25 years old, and has never donned a pair of pants but once in his lifetime. That was when he was a small child, and it is said that the ridicules of his companions so affected him that he took them off immediately, never to don them again. All his life has been spent around Rocky River. When friends hail into sight, it is said, he will tuck up his skirts and fly for the sheltering river banks. The man is not insane; neither is he a crank. He bought an automobile. During the years that have rolled by he has accumulated a good deal of property, but he still clings to the garb of a woman. He is unmarried, and if he is found physically fit he will in all probability be taken by the local exemption board for the country's third quota.

Best way to refinish Buggies and Fords

This is the way: Wash off all dirt and grease from the surface with warm water and soap; smooth the rough and glossy spots with sandpaper. Then you are ready to apply an even coat of

DEVOE

THE GUARANTEED GLOSS CARRIAGE PAINT

We guarantee that if this paint is properly applied it will give to any vehicle a durable, varnish-gloss finish that will withstand hard usage and exposure, without cracking or chipping.

We recommend it also for porch furniture, lawn swings, iron fences, and all other exterior surfaces to which you wish to give a hard, lustrous finish. Made in ten attractive colors.

STONE-JONES HARDWARE COMPANY

UNION, SOUTH CAROLINA
PAINT DEVOE PAINT

AERO SPY CAUGHT.

St. Louis, Oct. 2.—Sergeant Joseph P. Saxe, of the 21st aero squadron, is a prisoner at Jefferson barracks, held for investigation as a spy.

It is said that he had in his possession maps and photographs of army aviation fields. His arrest is said to have resulted from information given by his wife who was angry because he did not divide his money with her.

GERMANY'S STAR FLYER KILLED IN BATTLE

London, Oct. 2.—The body of Germany's "star flyer," Lieut. Vosse, who was killed in combat with British aviators several days ago, has been found in the British lines.

Another reason for the high cost of living. A woman lecturer says that the less clothing a girl wears the more she must eat.
