

**DYSPEPSIA-ITS
REMEDY.**

BLISS' DYSPEPTIC REMEDY.

A NEW Medical Compound, and the result of long practice, extensive observation and close study of all forms of diseases having their origin in a diseased state of the stomach, adapted to every stage of those diseases from their incipient symptoms to those in which they have assumed the chronic form. This remedy and the treatment prescribed to accompany the taking of the medicine, have the sanction of years of successful application in private practice. It was not suddenly invented, nor dreamed of, but is the assertion of facts and experiments collected in the daily rounds of duty as a practicing physician, and is given to the public in a popular form, in the hope, as in the belief, that it will not fail in giving relief to the sufferer from Dyspepsia and all other diseases having their origin in the stomach, in any instance where the directions are properly attended to. It is entirely dissimilar to any and every preparation of the kind now before the people. The originator entertaining views and opinions somewhat at variance with the prescribed notions of medical men generally as regards the nature of these diseases, has in this preparation brought together medical agents of known utility and worth in the form of a new combination, making a compound altogether and entirely new, and one that will not fail to cure in the most aggravated and stubborn cases of the diseases referred to, providing the medicine is properly taken, and all the accompanying directions followed out.

The undersigned is well aware that the same encouragement has been given, and the same promises have already been made over and over again by manufacturers of patent medicines as regards their different preparations, and the only voucher he has to offer for the curative qualities of this preparation is the reputation of success in "Chronic Cases," that he gained throughout middle Georgia, while in the practice of his profession. He would also, for the purpose of giving additional weight to whatever he may say as regards this new preparation, beg to refer to the fact that he is the originator, manufacturer, and proprietor of the medicine known as "JACOB'S CORN OIL," the curative properties of which in Cholera, Dysentery and Diarrhea is now being proclaimed by thousands in every section of the country, and as being all that he ever said of it.

Dyspepsia, like Gout, may be said to be a fashionable disease; it more readily than any other, in various of its forms, and to a greater extent, finds its victims in the wealthy and aristocratic circles, especially in cities, and its insidious workings are often the real though undiscovered cause of the sallow cheek, the dull, heavy eye, and the general inertia; indisposition to either mental or physical effort, which are erroneously attributed to other causes. As a remedy in Dyspepsia, this preparation stands at the head of all others in establishing a healthy and vigorous action of the various organs, and restoring to their natural functions those organs which have been prevented by this disease.

NERVOUS SUFFERERS: This Preparation is also particularly recommended to you, as well as to those suffering from Diseased Liver. In weak and debilitated systems, it will be found as possessing tonic properties to a pre-eminent degree, and very admirably adapted to a large portion of the female sex whose debilitated and worn out constitutions require an artificial restorer.

BLISS' DYSPEPTIC REMEDY is put up in packages, in the form of Powders, with full directions for mixing it into liquid form before taking. Each package contains sufficient of the Powder for a Pint of mixture.

Retail price, \$2 per package. Put up secure, and can be sent by mail to any part of the United States.

All orders addressed to the *Independent Press Office*, enclosing \$2, will receive by return mail a package of **BLISS' DYSPEPTIC REMEDY**.

April 25 51 1f

SPRING GOODS--1856.

J. F. BURCHARD & CO., AUGUSTA, GA.,

SCIENTIFIC DISCOVERY!
GUANO AIN'T ANYTHING COMPARED TO IT!

SUBSOIL FLOWING IS NO USE!
Cotton Seed a Perfect Nuisance!

CLOTHING THE ONLY REMEDY!
LYONS!

THE indefatigable District and Village Clothing Man, who has close observation and hard study, has learned several new features in the art of improving and adorning the masculine portion of the human family. He's been clean to New York, took lessons under scientific men, and has made himself so familiar with all the beauties, duties, liabilities, advantages and responsibilities of the human weather-boarding department that just as soon as he lays his eyes on a man, he knows what to lack—whether it is food or raiment. He is just the same to mankind that spring is to vegetation. Country merchants would do well to come in and take a few lessons—charges moderate for single scholar—classes taken at reduced rates.

If it is food and raiment, he takes him in, covers, weather-boards and floors him, and then sends him over to his friend, H. S. Kerr, or down to Lomax & Cobb's, where in a few minutes after the patient has realized the reviving, healthful influence of the external application, they will commence the inside work—ceiling, lathing, plastering and securing, and then start him home. And it is no wonder, after taking some Lomax & Cobb's or H. S. Kerr's inward filling (which is substantial, no liquid) then allowing Lyons to give them what's called the surface polish, that men's wives don't know them when they go home; the little boys and girls run and hide, thinking some city folks have come to their parents, young ladies commence fixing up to entertain their new beaux, and young men brush their heads, look dignified and start to receive the nice looking stranger.

A few men of rather ordinary appearance, who have thrown themselves entirely into Lyons' hands, know the advantages to be derived from a suit of his Clothes; it has married them into rich families, given them a standing far beyond their expectations, and been the means of putting them as high up as fifty-phour phorty in the social scale of the city of Abbeville.

There are now in the city of Abbeville, 3 Churches, 2 Academies, 1 Singing School, a great many Dry Goods Stores, 2 Printing Offices, 2 Wholesale Grocery Houses, 2 Jewellers' Establishments, a Theatrical Corps, Masonic and Odd Fellows' Lodge, Dancing Class, Hippodrome, 2 Carriage and Buggy Manufacturers, 4 Hotels, several Boarding Houses, 1 Drug Store, Gun Factory, and a Steam Saw Mill, 2 Harness and saddle Boot and Shoe Shops, Tin Manufactory, 3 Tailors' Establishments, Cabinet, Carpenters' and Blacksmiths' Shops, 3 Refreshment Saloons, and 2 Livery Stables; and it will not do for a gentleman to make a bad appearance at any of these places; it injures their business. Lyons keeps Clothing suitable for all the above named places, avocations and occupations, and because he has a big trade and a large Stock, he don't intend to ask prices that are unreasonable.

Lyons' stock of Leather and Straw Hats, is complete. He keeps fine Pocket Knives, Razors, Oil and Fluid Lamps, Fiddles, Fiddle Strings and Fiddle Rosin, manufactured expressly for this trade, Flutes, Patent Door Fasteners, Interest Tables, the most convenient of the kind now in use—every body ought to have one—Bankers' Cases, Bill Books, Pocket and Memorandum Books, Envelopes, Letter Paper, the largest stock ever brought to this market. New Yorkers complain of a scarcity since we purchased—Steel Pens, so many that there is an anticipated advance on steel Pens in the District, enough to hide all the money in the District; Combs, Hair Brushes, Nail and Tooth Brushes, enough to open a whole sale brush and comb house, and if Cedar Pencils rise, Lyons has got 'em sure—a whole case of Blacking, Needles, any quantity, and low by retail, Tricorpus, Kathairion, Cologne, Hair Oil, Handkerchiefs, Extracts and sweet smelling stuff, Needles and Thimble Cases, Lanterns, Buggy Whips, Valises, or two or three Horses, and so many other things that it would take us a whole day to look them up and name them, all of which are ready for inspection and sale, at the Corner Store in the Marshall House.

Abbeville C. H., April 16, 1856. 50f

WAR IN KANSAS!
LET THEM FIGHT!
NOBODY SCARED!!

WE would say to all persons who have Wheat on hand and want good Flour for it, take it to

WILSON'S MILLS,

formerly known as Donnell's Mills, on Turkey Creek, one mile from Gettysville Post-office. These Mills make more Flour to the bushel than any mill in the District, and all who may favor him with their patronage will find the proprietor accommodating, and cannot fail to be pleased with the Mills.

[May 15, 1856. 3m]

ABOLITIONISTS IN KANSAS!
Drive Them Out!
Give The Niggers Room!

TO those who have so liberally patronized us in "our line" we tender sincere thanks. And we take this method of saying to them, and to every body, that we have just made additional improvements in our machinery for grinding Wheat at our Mills, on Rocky River, and also on Calhoun's Creek. By the time the new crop is ripe, we will be prepared at either place, to make a superior article of Flour. For "turn out," we can undoubtedly take from a bushel of Wheat, all the flour that is in it, and "the best can do no more."
