B\_ W CDN So THE indefatigable District and Village Clothing Man, by close observation and hard study, has learned several new features in the act of improving and adorning the Masculine portion of the human family. He's been clear to New York, took lessons under scientific men, and has made himself so familiar with all the beauties, duties, liabilities, advantages and resums; hillies of the human weath. a fine as he lays his eyes on a man, he knows what he lacks—whether it is food or raiment. He is just the same to mankind that spring is to vegativities. ctation. Country merchants would do well to come in and take a few lessons—charges mod-crate for single scholar—classes taken at re-

duced rates.

If it is food and rainent, he takes him in covers, weather boards and floors him, and then sends him over to his friend, H. S. Kerr, or down to Lomax & Cobb's, where in a few minutes, after the patient has realised the re-viving, healthful influence of the external application, they will commence the inside work -ceiling, lathing, plastering and securing, and then start him home. And it is no wonder, af-ter taking some of Lomax & Cobb's or II. S. Kerr's in ard filling (which is substantial, no liquid) then allowing Lyons to give them what's called the surface polish, that men's wives don't know them when they go home; the little boys and girls run and hide, thinking some city folks have come to their pa's houses, young ladies commence fixing up to entertain their new beaux, and young men brush their heads, look dignified and start to receive the nice looking stranger.

A few men of rather ordinary appearance,

who have thrown themselves entirely into Lyons' hands, know the advantages to be derived from a suit of his Clothes; it has married them into rich families, given them a standing far beyoud their expectations, and been the means of pitching them as high up as phifty-phour phorty in the scale of uppertendent respectability. There are now in the city of Abbeville, 3

There are now in the city of Abbeville, 3: Churches, 2 Academies, 1 Singing School, a great many Dry Goods Stores, 2 Printing Offices, 2 Wholesale Grocery Houses, 2 Jewellers' Es-tablishments, a Thespian Corps, Masonic and Odd Fellows' Lodge, Dancing Class, Hippro-drome, 2 Carriage and Buggy Manufactories, 4 Hotels, several Boarding Houses, 1 Drug Store, Gin Factory, and a Steam Saw Mill. 5 Store, Gin Factory, and a Steam Saw Mill, 2 Harness, and several Boot and Shor Shops, Tin Manufactory, 3 Tailors' Establishments, Cabi-Manufactory, 3 Tailors' Establishments, Cabinet, Carpenters' and Blacksmiths' Shops, 3 Refreshment Saloons, and 2 Livery Stables, and it will not do for a gentleman to make a bad appearance at any of these places; it injures their business. Lyons keeps Clothing suitable for a 1 the above named places, avocations and eccupations, and because he has a big trade and a large Stock, he don't intend to ask prices that are unreasonable. that are unreasonable.

Octagon Burial Cases---Rosewood Finish.

MESE CASES are extensively used, and possess valuable advantages over all other Coffins for transportation, depositing in vaults, or for ordinary interments. They are

Most Imperishable Materials; also Enameled Inside and Out. To prevent rust or corrosion; and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones, enclosed in them, are free from irruptions of water, or depredations of vermin, and may, without oppressive oder, be kept—obviating the necessity of hasty burials; or, if desired, transported to a distant land.

The OCTAGON CASE is a new style of Metallic Cases, of beautiful form, and finished in confidence of

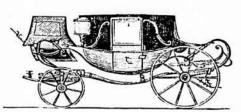

Highly Polished Rosewood, and free from objections expressed by some concerning the shape and appearance of the

former styles.

The Subscriber is now prepared to furnish the above CASES, at the shortest notice possible,

Black Walnut and Covered Coffins Made to Order. and delivered in the shortest possible time. For further information of the above Cases, please take notice of my descriptive pamphlets, which are in circulation. Abbeville C. H., March 31, 1856]

PUBLIC AUCTIONEER.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC

There has long existed a public demand for in effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to neet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been aftempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimomions, and irritaring to the howels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, when. cls. This is not. Many of them produce so much griping pain and revolsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstine tion or derangement in the leavels. Being purely excetable, no harm can arise from their use in any quantity; but it is befree first any medicine should be taken judiciously. #### DYSPEPSIA-ITS ER BENE HERD W. BLISS' DYSPEPTIC REMEDY.

BLISS' DYSPEPTIC REMEDY.

A NEW Medical Compound, and the result of long practice, extensive observation and close study of all forms of disease having their origin in a diseased state of the stomach, adapted to every stage of those diseases from their ineipient symptoms to those in which they have assumed the chronic form. This remedy and the treatment prescribed to accompany the taking of the medicine, have the sanction of years of successful application in private practice. It was not suddenly mr urox, nor dreamed of, but is the assertion of facts and experiments collected in the daily rounds of duty as a practising physician, and is given to the public in a popular form, in the hope, as in the belief, that it will not fail in giving relief to the sufferer from Dyspepsia and all other diseases having their origin in the stomach, in any instance where the directions are properly attended to. It is entirely dissimilar to any and every preparation of the kind now before the people. The originator entertaining views and opinions somewhat at variance with the prescribed notions among medical men generally as regards the nature of these diseases, has in this preparation brought together medical agents of known utility and worth in the form of a new combination, making a compound altogether and entirely new, and one that with sort fail to cure in the most aggravated and stubborn cases of the diseases referred to, providing the medicine is properly taken, and all the accompanying directions followed out.

The undersigned is well aware that the same eneouragement has been given, and the same promises have already been made over and

The undersigned is well aware that the same encouragement has been given, and the same promises have already been made over and over again by manufacturers of patent medicines as regards their different preparations, and the only voucher he has to offer for the curative qualities of this preparation is the repu-tation of success in "Claronic Cares," that he gained throughout middle Georgia, while in the practice of his profession. He would also, for the purpose of giving additional weight to whatever he may say as regards this new profession. whatever he may say as regards this new preparation, beg to refer to the fact that he is the aration, beg to refer to the act that he is the originator, manufacturer, and proprietor of the medicine known as "Jacon's Condat," the curative properties of which in Cholera, Dysentery and Diarrhea is now being proclaimed entery and Diarrhea is now being proclaimed by thousands in every section of the country, and as being all that he ever said of it.

and as being all that he ever said of it.

Dyspepsia, like Gout, may be said to be a fashionable disease; it, more readily than any other, in various of its forms, and to a greater extent, finds its victims in the wealthy and aristocratic circles, especially in cities, and its insidious workings are often the real though undiscovered cause of the sallow check, the dull, heavy even and the general insettic indirect. heavy eye, and the general inertia; indisposi-tion to either mental or physical effort, which are erroneously attributed to other causes. As a remedy in Dyspepsia, this preparation stands at the head of all others in establishing a healthy and vigorous action of the various or gans, and restoring to their natural functions those organs which have been prevented by this disease. this disease.
NERVOUS SUFFERERS: This Preparation

NERVOUS SUFFERERS: This Preparation is also particularly recommended to you, as well as to those suffering from Diseased Liver. In weak and debilitated systems, it will be found as possessing tonic properties to a precuinent degree, and very admirably adapted to a large portion of the female sex whose debilitated and worn out constitutions require an artificial restorer.
