BISHOP WALLS SAYS RACE HAS CHANGED IN POLITICS

Louisville, Ky. (C)—Speaking here last week, Bishop W. J. Walls said in part: "The President deserves our praise in that he has furnished leadership in democracy. He had the fortunate judgment to lead the movement of the common tide. He proposes that government shall control the mighty and serve the lowly of mankind. It is impossible to legislate labor insurance, old age security, and protection to the poor without helping our group. The big result that comes to us, however, is that we have become more intelligent voters, stressing issues and not being misled by parties and traditions and by it became the deciding factor in the pivotal states. It is our political emancipation for both parties honored us and voted with each other for our support. We can join the chorus in the anticipation of a new era and the world, using the esthetic and romantic words of the master of the Lord: "He has put down the mighty from their seat and exalted them of low degree."*

"Good Neighbors" Get Credit; Work To Continue

Pasadena, N. J. (C)—Frank R. Kent, in a syndicated column appearing in The Herald News here Thursday headed "The Swing of the Neighbors" gives much credit for Democratic success among Negroes in the recent campaign to Dr. Stanley High and The Good Neighbor League. Mr. Kent says: "In one way and another, the editors of most of the Negro newspapers were enlisted under the 'New Deal' banner and they were joined by many influential Negro ministers. The speeches of Mr. Cakes urging mixed school and desegregation or inances were a big help, but the extreme effective work was done by the Rev. Mr. (Stanley) High, who arranged the remarkable series of Negro meetings on Emancipation day which helped established Mr. Roosevelt with the Negro voters as an emancipator, along with Mr. Lincoln. Interest to it is added by the announcement yesterday that the Rev. Stanley High would continue and not disband his 'Good Neighbor League,' which is financed by the Democratic National Committee. One of its purposes, it was stated, is to break down racial prejudices."

Bust of Dr. Carver Given Tuskegee

President F. D. Patterson announced today that a life-size bust of Professor George W. Carver, to be presented to Tuskegee Institute, is being done by the distinguished sculptor, Stephen Thomas. This bust is to be an expression of appreciation for the great service which Professor Carver has rendered during the past 40 years to the South and to the nation. It is to be presented in February, 1937.

President Patterson stated that it would cost about \$2,000.00 to have this bust made and presented. He is of the opinion that Professor Carver's many friends would want to share in the honor of preserving in bronze his likeness for posterity.

Because his friends are so numerous it is suggested that a modest contribution of not more than \$1.00 from each will be ample to cover all costs connected with the making and presentation of the bust. If there is any surplus it will be devoted to the promotion of Professor Carver's work.

Contributions may be sent to the Chairman of the "Carver-Fortiet, Anniversary," Tuskegee Institute, Alabama.
