

SPECIMEN SOCIAL SECURITY CARDS MISTAKEN FOR REAL THING

Specimen social security account cards placed in billfolds by a manufacturer, to indicate the space provided for the employee's official card, have been mistaken for the real thing by some employees, according to W. H. Nixon, Jr., manager of the Social Security Board office at Columbia, S. C. He added that in the future specimen cards used by this manufacturer would not include a number.

Mr. Nixon stated that the Board recently found among employers' wage reports a number of employees listed with the same social security number—078-05-1120. This number had been issued by the Social Security Board to a woman in Lockport, New York. Upon investigation, the Board learned that the other employees who were using the number had purchased billfolds containing specimen social security cards with this number printed on them. Not realizing that each employee must have a separate number assigned by the Social Security Board these employees had reported the number on the specimen card to their employers.

This situation was called to the attention of the manufacturer of the billfolds, Mr. Nixon said, and he very gladly agreed to discontinue use of a number on the specimen cards.

Mr. Nixon explained that the employer is required to report each employee's account number when he reports his wages. This number is the one under which the Board keeps the employee's wage record. To insure that his wages are always correctly credited to his account, each employee should be sure that his employer has the number assigned to him by the Social Security Board.

DR. HUFFMAN'S CLINIC MOVED TO WEST COLUMBIA

Many of our friends will be interested to know that Dr. Huffman's Clinic has moved to our new location in West Columbia on the Lexington highway. Our new place is also newly equipped for specialized treatment of Asthma and Gastro-Intestinal ailments.

While asthma has for many years been considered incurable, we have a new method that has been singularly successful. This is vouchered for by many of our patients who have suffered for years and without any relief, until we became especially interested in this scourge of humanity. This method has been devised and perfected by Dr. Chas. Duncan, the famous father of Autotherapy of New York City. It gives new hope and promise to Asthma sufferers.

We have had the pleasure to receive and treat with complete success, several patients from Washington, D. C. and New Alexandria, Pennsylvania. Also from as far west as Albuquerque, New Mexico. These patients have been loud in their praise and gratitude and we wish to extend a cordial welcome to all of our old patients and a host of new ones to visit us at our new location.

We began with only one room which was partition to make allowance for a waiting room. Then moving to a 5 room suite and later moving to a 7 room office to accommodate our practice and equipment. Now we have built our own place and we trust that our services will be even more highly satisfactory than ever before.
