New Year's Greetings to the Young Baptists of S. C., Their Readers and Friends

sails for a voyage upon the unknown sea of another year. How far we are to go and how well w will sail depends on our hope, o-bedience and trust in the Almighty Captain of our salvation. What a fine thing it would be if all the young Baptists of the State, their leaders and friends would decide this New Year to attend church Sunday School and B. T. U. every Sunday unless Proventially hinder ed. It would be a God sent blessing we all would put forth specia effort to make this a tanner year in church, S. S. and B. T. U. attendance. We can accomplish much along this line by making it our business to invite every body. saint and sinner, regardless to religious inclinations, to attend the Divine services for the information and the inspiration of the saved and the salvation of the

During the past year most of u have been busier than usual, minds being greatly disturbed by so many of our young men being lled into the armed forces of the ed States, and the continued of war and other things that trouble our minds, but these are things in the force of nature tha we must suffer on account of sir But in these crises we must remember the wise words of Jesu Christ; "Render therefore unte Ceasar the things that are Cersar's and unto God the thing which are Gord's." It is true the as individuals we must support and obey the orders of our Gov ernment. It is also true that a Christians we are duty bound to obey the orders of Jesus Christ ou redeemer and guide God tells u in His word not to neglet the church, that is to say you musnot neglet the program of the church. I believe there never wa a time in the history of the Christian church when we as people more need the massage an ministry of the church than new There never was a time when the ministers, supt., presidents and teachers of the church, school and union need to be more loyal an wholehearted in support of the church and the fundamental prin ciples of its doctrine than now. W are being told by the newspapers magazines and radio nearly every day that the church and the thing for which it stands are being attacted by forces better organize and educated than ever in its history. If this is true then what these conditions? Isen't it essen tial then that we put forth every effort we can to better organize equip and educate our forces to combat these evil forces that are nowe striving to under mine the foundation of the Christian tial it is that we double our ef ort in the support of our church hools. The mere we raise ar donate to them, the better prepar ed and equipped will these churc' schools be to put over a program of religious edication. We are a proud to know that the Morri
