THE OLD GRAY By Rev. E. Philip Ellis

SOME GOOD LAWS

The lawmakers of South Caroin did some worthwhile legisla-tion in the 1943 legislative body held at Columbia. Prohibiting the day night until Monday morning is a fine law. Every man from 18 to 60 years of age must fight or work is a good law, and forbid-ding the display of whiskey i n windows, is a timely legislation. Our lawmakers deserve the com-mendation of every citizen of this divinely inspired. Were it possi-ble for me to be seated at the next legislative session, 1 would offer the following amendment: That boys from 16 years instead of 18 be included. These 16 year old boys are committing as many crimes today as old men, and the streets and highways should cleared of them. The government has thousands of plantations i n this country uncultivated, these lazy boys should be forced to work on them to raise foodstuff for the Army. Then I would propose a new law that all chil-dren from 7 to 14 years old b c found at home after 8 o'clock in that if any child between those be on the streets alone after that hour, they would be whipped every step of the way home, and the mother and father be given 25 lashes each for allowing them to violate this law.

THE CHURCH'S OPPORTUNITY

There never was a time in all history when the church was chal-lenged as it is today. One has truthfully said, "when the world is at its worst, the church should be at its best." Men and women. boys and girls have never been more wicked than at this present age. Modesty is a thing of the past, and cursing and swearing have taken the place of prayer in their lives. You would be shocked to know the teen age boys and arms, and out cursing a band of gangsters. Now those boys just as well be in some prison camps as school houses, so far as the good they will be to their race. No bad boys can b_c great men, unless they change, regardless of their intellectual qualification. Liquor drinking and gambling seem to be the chief delight of the young people today. Seemingly youth is doomed for destruction without a radical change. And any number of old people are lost-world without end. And the quicker they get out of the world the better it will be for the young. The church is the only medium through which this reform can come, and it should address it-self to the task, for if she fails God's judgment on the world will be next.
