one another they remove. It is a many Americans from the number that should be solidly fighting for freedom. Race riots are treason. Everyone, white or black who willfully participates in one should be branded with a Nazi Japanese or Italian insignia as an axe side.

Jackson, Miss. A growing and widespread effort to stop the sale of northern Negro newspapers in Mississippi was indicated in reports reaching here during the past few days. The papers directly under attack, according to reports, are the Chicago Defender and Pittsburgh Courier. According to reports, Ted Rushing, young newsboy at Catthage, had his papers taken and destroyed by a group of white men last Friday, after which he was given a light whipping with the promise of something worse if caught trying to sell any more Negro newspapers in the town. At Hattiesburg where is located Camp Shelby, one of the largest camps in the country, salesmen of northern Negro newspapers are reported to have been told by police that no further sales of the papers would be permitted in Hattiesburg.

In Brandon, Anslem J. Finch, widely known columnist whose "Mississippi Snaps" has long been an outstanding and widely read feature appearing in the Pittsburgh Courier, is reported to have been called into question by prominent white Brandon citizens regarding his connections with and contributions to the Courier.

Dublin, Ga. Mrs. Mary White, believed to have been the oldest woman in Laurens county, passed away here Wednesday at the age of 102. Mound Bayou, Miss.—Mississippi's only all Negro town has sent 30,000 cigarettes to the soldiers at the front. It was learned this week. J. F. Huddleston, merchant and filling station operator here, has just received a letter from the R. J. Reynolds Tobacco company stating that 30,000 cigarettes have been shipped to American soldiers as per order placed by Mr. Huddleston, who sponsored a drive by merchants, planters and citizens of Mound Bayou to collect funds for their purchase to be distributed without regard to race, color or religion. All residents of the community gave liberally and the movement was an immediate success. Each package of cigarettes will have two stickers, one reading "Victory for All", the other "Mound Bayou, Miss."

Montgomery, Ala.—All races in Alabama shall have justice, education and a square deal, declared Gov. Chauncey Sparks in replying to an inquiry by the liberal New York newspaper. When asked where "race riots" have occurred (Texas, Mississippi, California, New Jersey, Oklahoma and Alabama) a statement of what they were doing toward the prevention of race riots was the following: "Alabama is determined to use all available force to prevent riots. We have had no race riots of any consequence and we would not have had any but for forces not here but for influences over which we have no control."

If self-seeking politicians, misguided philanthropists and outside influence would quit trying to regulate matters which are entirely local we would have no future difficulty. We are undertaking to forestall any new disorders by emphasizing among ourselves and to the outside world that all races in Alabama shall have justice, education and a square deal. Alabama today is doing more for Negro education than ever before. It will continue to increase this service. The two races are part of the economy of the south and shall continue to remain so in peace and accord if we can be left alone and not mind of propagandists and reformers is not misguided, misguided and misinformed.

Chicago—Resolution calling for the hiring of hospital employees "without prejudice against any qualified applicant on account of race, color or creed" was adopted Monday by the board of hospitals and homes of the Methodist church meeting here in Hotel LaSalle. Bishop Raymond J. Wade of Detroit, president of the board, urged the passage of the measure, which, with no debate, was adopted unanimously.

Minneapolis, Minn.—A Minneapolis white man, a certified public accountant, with offices in the Builders Exchange, sent an unsolicited \$25 to the Minneapolis NAACP membership drive this week. In a letter to Cecil Newsum, a campaign worker, the donor said: "The enclosed \$25 is sent to you with the hope that it might help in relieving some of the misery created in Detroit."

Newport News, Va. A hearing on the matter of the three school principals who were fired because they sued for equal pay with whites has been set for July 20 by Judge Herbert C. Smith. A petition was presented by a committee of local citizens several weeks ago asking that the court grant a hearing on the matter and Judge Smith announced that he would fix a date convenient to counsel for the committee and the city school board. The petition asked that a public hearing be held into circumstances surrounding the firing of the three educators all with many years experience in the local school system. The school board refused to make a statement in connection with the dispute except to say that the action was "for the good of the system."

Washington. The Ethiopian government has extended the hand of friendship to exiled Greeks in Egypt and has offered them refuge until they may return to their native land. This Associated Negro Press exclusive has been adequately confirmed by spokesmen for both governments here in Washington. Sometime during the week of July 5 Emperor Haile Selassie personally dispatched the offer of an entire city in Ethiopia to the Greek government in exile, with headquarters in Cairo, for the accommodation of the large numbers of Greeks in Egypt. The offer was almost immediately accepted and thanks extended on behalf of the Greek government by George Sofolis, minister of refugees. In his message of acceptance, Mr. Sofolis pointed to the "very generous evidence of sincere friendship" that has existed between the two governments. Yilma Derosa, member of the Ethiopian delegation to the food conference, confirmed the invitation and referred to the "cordial relationships" that have characterized the friendship between the two coun-
