bit. Make it into a rumpus room, playroom, hobby room, dark,

a bit. Make it into a rumpus room, prayroom, neasy, room, arrown, or other play space that the entire family can enjoy, You'll probably aced a little more room. One of the best ways, to get more room is to have the old space-hogging heating plant replaced by a new compact, streamlined automatically-fired boiler, And summer than the average of the stream to have this work done. Not much larger than the average

new compact, streamlined automatically-fired boiler, And summer is the time to have this work done. Not much larger than the average home appliance, the modern boiler is a real space saver. The kind of boiler shown in the illustration supplies hot water for any kind of a heat distributor you may select—baseboards, convectors, or radiators. A thermostat makes the system entirely automatic—turns the circulating pump on when needed, off when the heat requirements

have been met. Boiler heat is clean, even, and draftless.
