## "DON'T SELL COTTON TIL YOU GET FAIR PRICE"

Columbia, S. C. August 6.—The following statement was issued today by Mr. J. S. Wannamaker, President of the American Cotton Association:

The bears in their desperation to release themselves from the trap in which they have been caught have stooped to every known device.

When Philip of Macedon was told that a certain city was impregnable he asked, "is there not a pathway to it wide enough for an ass laden with gold?"

Following the suggestion of the ancient Philip of Macedon, they hailed with joy a deliverer. Great publicity was given to a statement made by an Englishman concerning the financial condition. A mighty effort was made to cause a stampede in the market by breaking the 'foreign exchange. It was felt sure that this would result in such a scare that the bulls would tumble their cotton upon the market and thus bring about a crash. This effort on their part did not succeed in depressing prices; the expected crash did not come. People are posted; they realize that we are safe and sound financially today. The bulls are not discouraged by the friendship of great men of wealth for the bears. They realize that no matter how they do it the foreign consumers of cotton will have to get money to pay for their raw material, and they will have to have the raw material.

Do not become panic-stricken. In all probability the bears may succeed in driving prices some lower temporarily. They will make a desperate effort to do this on the government report. Do not be misled; estimates do not make spinnable cotton nor can they spin paper cotton. It takes the actual fleecy staple, a handsome product made by the toil of the producer.

Our experts show that the growing cotton crop is poorly fruited; has diseased root system; boll weevil damage is the heaviest on record; labor conditions are extremely short and acute and labor is very high.

Our experts show further that this will be the most costly cotton crop ever produced in the South. It will exceed the cost of production of last year's crop by at least one-third.

The spinners have made an enormous profit. We want at least a division. Hold your cotton and we will get it.

One large bear recently told the truth when he stated the de-fool producers are extremely hard to satisfy and terribly hard to scare.

Keep this in mind and make him and his friends pay you a profitable price for the product of your toil.

## COLORED FOLKS OFFER REWARD FOR WIFE KILLER

The colored people of the Zoar section have offered a reward of \$100 for the capture, or information leading to the capture, of Alexander Sreater, the colored man who shot and killed his wife in that community some weeks ago and escaped. No trace of the fugitive has been found and it is pretty well established that he has put much distance between himself and the scene of his crime.

**MR. W. G. DEESE**  
Mr. W. G. Deese, of the Westfield Creek community, died Tuesday, August 5th, at 4 p.m., in the Columbia Hospital, where he had gone for treatment.

He was buried at Zoar burying ground last Thursday. He is survived by four daughters and five sons and many relatives. He was about 60 years of age.

Much sympathy is felt in the community for the sorrowing family.
